

BANGLADESH, THIRD QUARTER 2016:

Update on incidents according to the Armed Conflict Location & Event Data Project (ACLED) - Revised 2nd edition for 2016 Q3
compiled by ACCORD, 22 February 2017

National borders: [GADM, November 2015b](#); administrative divisions: [GADM, November 2015a](#); China/India border status: [CIA, 2006](#); geodata of disputed borders: [GADM, November 2015b](#); [Natural Earth, undated](#); incident data: [ACLED, February 2017](#); coastlines and inland waters: [Smith and Wessel, 1 May 2015](#)

Conflict incidents by category

category	number of incidents	sum of fatalities
riots/protests	82	1
violence against civilians	34	30
battle	29	79
remote violence	1	0
strategic developments	1	0
total	147	110

This table is based on data from the Armed Conflict Location & Event Data Project (datasets used: [ACLED, February 2017](#)).

Development of conflict incidents from January 2015 to September 2016

This graph is based on data from the Armed Conflict Location & Event Data Project (datasets used: [ACLED, April 2016](#), and [ACLED, February 2017](#)).

LOCALIZATION OF CONFLICT INCIDENTS

Note: The following list is an overview of the incident data included in the ACLED dataset. More details are available in the actual dataset (date, location data, event type, involved actors, information sources, etc.). In the following list, the names of event locations are taken from ACLED, while the administrative region names are taken from GADM data which serves as the basis for the map above.

In **Barisal**, 1 incident killing 1 person was reported. The following location was affected: **Ulania Bazar**.

In **Chittagong**, 21 incidents killing 9 people were reported. The following locations were affected: **Banshkhali, Basurhat, Boro Maheshkhali, Chauddagam, Chittagong, Comilla, Feni, Hathazari, Kamolpur, Kanchana, Khagrachhari, Kotbari, Monohorgonj, Teknaf**.

In **Dhaka**, 63 incidents killing 65 people were reported. The following locations were affected: **Agargaon, Azimpur, Badda, Bananani, Board Bazar, Dhaka, Dhanmondi, Faridpur, Gazaria, Gulshan, Kakrail, Kallyanpur, Kalyanpur, Kishoreganj, Kotwali, Madhupur, Mirpur, Motijheel, Muktagacha, Nabagram, Nagarkanda, Nandail, Narayanganj, Nayapaltan, Paribagh, Purbadhala, Ramna, Sadarghat, Savar, Taltia, Tongi, Uttar Khan, Zajira**.

In **Khulna**, 25 incidents killing 16 people were reported. The following locations were affected: **Benapole, Chowgacha, Chuadanga, Damurhuda, Jessore, Jhenaidah, Jilerdanga, Kalia, Khulna, Kushtia, Lohagara, Satkhira, Shalikhia, Shyamnagar**.

In **Rajshahi**, 18 incidents killing 12 people were reported. The following locations were affected: **Dayarampur, Dhamoirhat, Gabtali, Lalpur, Naogaon, Natore, Nawabganj, Pabna, Rajshahi, Santhia, Sherpur, Shibganj, Singra**.

In **Rangpur**, 11 incidents killing 5 people were reported. The following locations were affected: **Baigram, Dahagram, Dalagram, Nilphamari, Panchagarh, Pirganj, Rangpur, Rowmari, Thakurgaon**.

In **Sylhet**, 8 incidents killing 2 people were reported. The following locations were affected: **Bahubal, Gowainghat, Sylhet, Tengra**.

METHODOLOGY

The data used in this report was collected by the Armed Conflict Location & Event Data Project (ACLED). ACLED collects data on reported conflict events in selected African and Asian countries, Bangladesh being among them. ACLED researchers collect event data from a variety of sources and code them by date, location, agent, and event type. For further details on ACLED and for the full data, see www.acleddata.com und [Raleigh; Linke; Hegre, and Karlsen, 2010](#).

Based on these data, the Austrian Centre for Country of Origin & Asylum Research and Documentation (ACCORD) compiles updates on conflict incidents.

Incidents comprise the following categories: battle, headquarters or base established, non-violent strategic activities, riots/protests, violence against civilians, non-violent transfer of territory, remote violence. For details on these categories, please see

DISCLAIMER

Most of the data collected by ACLED is gathered based on publicly available, secondary reports. It may therefore underestimate the volume of events. Fatality data particularly is vulnerable to bias and inaccurate reporting, and ACLED uses the most conservative estimate available. Furthermore, event data may be revised or complemented in future updates. The lack of information on an event in this report does not permit the inference that it did not take place. The boundaries and names displayed do not imply endorsement or acceptance by the Austrian Red Cross.
