## Note

This document has been produced by the Community Development, Gender Equality, and Children Section (CDGECS), Division of International Protection, Office of the United Nations High Commissioner for Refugees. The information within has been researched and compiled by Maria Isabel Egüez, CDGECS intern. Organizations' names, country presence, and activity information has been obtained from their respective public web-sites. This information has been directly quoted and only modified for tense and continuity of language where needed. Quoted text in UK. English and U.S. English has remained unchanged. If this information is used or quoted elsewhere an acknowledgement should be made to the source of the information. Special thanks to the organizations who provided additional information on their operations.

# Purpose

## 1.1 Introduction

This reference list is a mapping of specialized organizations working with and for persons with disabilities around the world. This reference list is intended to help UNHCR field staff identify specialized organizations that may be willing to support UNHCR by including persons of concern with disabilities into their programs. It is important to expand our partnerships and search for these opportunities so that refugees, internally displaced persons ( IDPs ), returnees and stateless persons have safe and equal access to services, education, livelihood opportunities, rehabilitation, and community support for the enjoyment and fulfillment of their Rights in accordance with the Convention on the Rights of Persons with Disabilities.

The reference lists presents a multitude of specialized organizations that has met our preferred criteria of being an internationally recognized organization with wide presence in the world or region where it operates such as Handicap International ( HI ), Italian Association Amici di Raoul Follereau ( AIFO ), Christian Blind Mission ( CBM ) and the World Health Organization Disability and Rehabilitation Team ( DAR ). We have also mapped local NGOs who have a partnership with larger regional or international organizations as well as a handful of exceptions of smaller independent organizations with a focus in a particular country or region that have unique programs such as those in the arts, person to person financial support for orthopedic interventions and rehabilitation , or training for professionals working with persons with disabilities. Many organizations provide direct services, others focus on training, or awareness raising and advocacy. Some organizations cover all of these activities.

For quick and simple browsing, the reference list has been divided into five regions: [Africa](#), [Middle East & North Africa](#), [Asia & the Pacific](#), [Europe](#), and the [Americas](#). Each region is then alphabetically categorized by country. Simply go to your operation ' s region, locate your country ' s name and you will have found one or more specialized organizations. Even if your country has a variety of organizations listed, or if you only find one organization, please take a look at the end of each region ' s listing for a list of *other organizations with an extensive presence in the region*. It is likely you will find your country listed among these organizations as well.

Throughout each listing, you can read a brief description of the population the organization serves and their activities. You will notice each organization mapped has a web-site link that takes you directly to their web-site or to another organization 's web-site that houses their information. Simply type in or copy and paste the web-site link into your internet browser to access the organization 's web-site for more information, including contact information. Keep in mind that this reference list is non-exhaustive, we encourage this be a starting point and that you expand your list of organizations presenting solid options for partnership and collaboration development in your country operation.

Organizations have been mapped with a focus on:

- International presence and/or local NGOs partnered with International organizations
- Organizations of Persons with Disabilities also known as Disabled Persons ' Organizations ( DPOs )
- Long- term presence and/or significant impact where they are working
- The rights and needs of UNHCR persons of concern with disabilities
- Diversity of Disabilities: Physical, Sensory, Intellectual

## 1.2 Using the reference list

This reference list is intended primarily for UNHCR staff working in the field and implementing partners. In particular, Community Services staff can benefit from the use of this reference list in building a network of specialized organizations for their operations.

Following are eight key steps to consider in using this reference list:

1. Locate your region and country; reference the *other organizations with an extensive presence in the region* list at the end of each region 's section.
2. After reading the introductory information provided take a look at their web-sites.
3. Choose an organization ( or more ) on the list, or another organization you prefer not on the list working in the area of disabilities and establish contact with them.

4. Get more information on their work, scope and impact and who is benefiting from their program ( s ) .
5. Discuss ways to collaborate, aiming for the inclusion of UNHCR persons of concern with disabilities into their programs ( s ) .
6. Discuss with the organization how UNHCR can support their organization in terms of capacity building, information sharing and any other type of collaboration that can be establish with them. Ask the organization( s ) what is needed for persons of concern to be integrated. At this point, see if it is possible to avail resources to support integration of persons of concern.
7. Where possible, develop the same with government institutions that have services for persons with disabilities, to take into account UNHCR persons of concern with disabilities.
8. Please inform the Community Services Unit of the Community Development, Gender Equality and Children Section ( CDGECS ) at UNHCR HQ of any update on partnership building, so the Unit can highlight your initiatives in the next progress report towards the implementation of the Convention on the Rights of Persons with Disabilities. Your partnership building initiative and its impact on persons of concern with disabilities and their communities could also be released as a web-story on the UNHCR web-site.

### 1.3 Why partnership building?

Many NGOs and UN Agencies have extensive expertise in working with and for persons with disabilities. They may be an organization dedicated to persons with disabilities, or have a department or section dedicated to these children and adults. Using a partnership strategy we can benefit form their expertise and capacity. This should be our aim, as lack of staffing and budget constraints may delay or deter important projects from being developed and implemented for persons with disabilities within UNHCR operations.

There are already some organizations supporting persons with disabilities in specific UNHCR operations such as Caritas, Save the Children Sweden, among a few others. Rather than setting up parallel structures we can link up with specialized organizations to improve the protection of girls, boys, women and men with disabilities.

## AFRICA

Country	NGO/ Agency	Web-site	Population	Activities
Angola	Association to Aid Refugees Japan (AAR)	<a href="http://www.aarjapan.gr.jp/english/act/disabled/index.html">http://www.aarjapan.gr.jp/english/act/disabled/index.html</a>	refugees and other persons with disabilities	It has been said that about 15 million landmines are buried in Angola, a number that exceeds the Angolan population of 13.6 million. These landmines pose a serious threat to the lives of the people in Angola. In September 2004, AAR JAPAN began its anti-landmine project in the province of Lunda Sul that borders on the Democratic Republic of Congo. In this region far from the capital, few landmine projects are carried out. As a result, many people become victims of landmines. To protect people's lives from landmines and buried unexploded ordinances, AAR JAPAN has been engaged in Mine Risk Education. AAR JAPAN has also carried out interview surveys to identify the places where landmines are buried. The results of these surveys have been shared with MAG, a UK NGO engaged in landmine clearance in this region .
Angola	Christian Blind Mission International (CBM)	<a href="http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html">http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html</a>	persons with disabilities	CBM supports the provision of more than 1000 programs in 113 countries in Africa, Asia/Pacific, Europe, and Latin America. Fields of work include medical services, education, and rehabilitation for people with disabilities. Wherever possible, it is the aim to provide these services within the communities. Therefore, Community-based Rehabilitation programmes are promoted. The focus of CBM's work is to enable local and national partners in developing countries to implement services for people with disabilities, mainly for people with: Visual disabilities, Hearing disabilities, Physical disabilities, Mental disabilities, or Intellectual disabilities. In addition, CBM runs interdisciplinary programmes. These include the secondment of staff to CBM's partner organizations, and vocational training and employment for persons with disabilities, as well as disaster relief, in case a project is affected. Core activities in this mandated field include the following: awareness creation and advocacy, pre-vocational training, skill and vocational training, self-employment, and mainstreaming.
Angola	Handicap International	<a href="http://www.handicap-international.us/hi/">http://www.handicap-international.us/hi/</a>	persons with disabilities	Community-based Rehabilitation, mine clearance efforts, education of accident prevention, training local bomb clearance experts, supporting local mine clearance organizations. Whether dealing with prostheses, orthoses or other types of orthopedic device, the orthopedic techniques used by Handicap International's specialists are adapted to the equipment, skills and infrastructure available in the field. The prevention of disabling diseases, the creation of community health services, the provision of psychological support for victims, all these initiatives aim to fulfill the same objective: to ensure every man, woman and child receives the same level of health care.
Angola	Inclusion International	<a href="http://www.inclusioninternational.org/en/index.html">http://www.inclusioninternational.org/en/index.html</a>	persons with disabilities	Inclusion International (II) is a global federation of family-based organizations advocating for the human rights of people with intellectual disabilities and their families worldwide. II has a directory of their membership organizations, categorized by region, on their web-site.

Benin	Caritas	<a href="http://www.caritas.org/">http://www.caritas.org/</a>	persons with disabilities	Leather making, skill development, income generating activities, home health training, constitution of community-based rehabilitation committees, support groups.
Benin	Christian Blind Mission International (CBM)	<a href="http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html">http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html</a>	persons with disabilities	CBM supports the provision of more than 1000 programs in 113 countries in Africa, Asia/Pacific, Europe, and Latin America. Core activities in this mandated field include the following: awareness creation and advocacy, pre-vocational training, skill and vocational training, self-employment, and mainstreaming.
Botswana	International Labor Organization (ILO)	<a href="http://www.ilo.org/public/english/region/afpro/harare/country/botswana.htm">http://www.ilo.org/public/english/region/afpro/harare/country/botswana.htm</a>	persons with disabilities	Provides skills training to persons with disabilities for self-sufficiency.

Botswana	United Nations Children's Fund (UNICEF)	<a href="http://www.unicef.org/infobycountry/botswana.html">http://www.unicef.org/infobycountry/botswana.html</a>	children with disabilities	Helps children with disabilities by providing assessments and looking for ways to prevent disabilities.
Burkina Faso	Action on Disability and Development-Burkina Faso	<a href="http://www.add.org.uk/burkina_faso.asp">http://www.add.org.uk/burkina_faso.asp</a>	persons with disabilities	ADD works with disabled people's organizations building their capacity to campaign for changes in attitudes and policies that currently discriminate against persons with disabilities. ADD supports regional networks of disabled people's organisations to set up committees which explore the reasons behind their exclusion, identify the key issues and develop advocacy campaigns to tackle these issues. Currently these committees are focusing on the right of children with disabilities to education, and they have been instrumental in the creation of a new Department of Inclusive Education to develop ways of getting more children with disabilities into local schools. In order to help disabled people in Burkina Faso raise awareness of disability issues in their community ADD helped with training in 'Theatre for Development'. Several drama groups have now been set up and are making regular performances in their communities, bringing the issues previously not talked about, out into the open for discussion.
Burkina Faso	Christian Blind Mission International (CBM)	<a href="http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html">http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html</a>	persons with disabilities	CBM supports the provision of more than 1000 programs in 113 countries in Africa, Asia/Pacific, Europe, and Latin America. Fields of work include medical services, education, and rehabilitation for people with disabilities. Wherever possible, it is the aim to provide these services within the communities. Democratic Republic of Congo	Handicap International	<a href="http://www.handicap-international.us/hi/">http://www.handicap-international.us/hi/</a>	persons with disabilities	Community-based Rehabilitation, mine clearance efforts, education of accident prevention, training local bomb clearance experts, supporting local mine clearance organizations. Whether dealing with prostheses, orthoses or other types of orthopedic device, the orthopedic techniques used by Handicap International's specialists are adapted to the equipment, skills and infrastructure available in the field. The prevention of disabling diseases, the creation of community health services, the provision of psychological support for victims, all these initiatives aim to fulfill the same objective: to ensure every man, woman and child receives the same level of health care.
Democratic Republic of the Congo	Inclusion International	<a href="http://www.inclusioninternational.org/en/index.html">http://www.inclusioninternational.org/en/index.html</a>	persons with disabilities	Inclusion International (II) is a global federation of family-based organizations advocating for the human rights of people with intellectual disabilities and their families worldwide. II has a directory of their membership organizations, categorized by region, on their web-site.

Democratic Republic of the Congo	International Committee of the Red Cross (ICRC)	<a href="http://www.icrc.org/">http://www.icrc.org/</a>	persons with physical disabilities	After 2007 the ICRC renewed its service-provision contracts with five physical rehabilitation centres spread across the country: the Kalebelembe limb-fitting centre of the DRC Red Cross and the rehabilitation centre for the physically disabled, both in Kinshasa; the Saint-Jean-Baptiste de Kansele hospital in Mbuji-Mayi; the Heri-Kwetu centre in Bukavu and the Shirika-La-Umoja centre in Goma. All these centres provide high-quality physical rehabilitation for civilian and military war-wounded. Between them, they: provided physical rehabilitation services for 947 people; manufactured 778 artificial limbs (including 116 for mine victims); manufactured 397 orthotic devices (including 32 for mine victims); supplied 1,170 crutches and 15 tricycles.
Côte d'Ivoire	Action on Disability and Development-Côte d'Ivoire	<a href="http://www.add.org.uk/Cote_dlvoire.asp">http://www.add.org.uk/Cote_dlvoire.asp</a>	persons with disabilities	Through distance funding and advice from the regional office in neighboring Burkina Faso, ADD is supporting disabled people's organizations in the northern region of Bouake to work closely with humanitarian organizations such as the Red Cross to ensure that their aid programs include disabled people effectively. As a result, humanitarian aid is now being distributed through the disabled people's networks, and disabled people are being regularly consulted by the humanitarian organizations and other policymakers.
Côte d'Ivoire	Christian Blind Mission International (CBM)	<a href="http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html">http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html</a>	persons with disabilities	CBM supports the provision of more than 1000 programs in 113 countries in Africa, Asia/Pacific, Europe, and Latin America. Fields of work include medical services, education, and rehabilitation for people with disabilities. Wherever possible, it is the aim to provide these services within the communities. Therefore, Community-based Rehabilitation programmes are promoted. The focus of CBM's work is to enable local and national partners in developing countries to implement services for people with disabilities, mainly for people with: Visual disabilities, Hearing disabilities, Physical disabilities, Mental disabilities, or Intellectual disabilities. In addition, CBM runs interdisciplinary programmes. These include the secondment of staff to CBM's partner organizations, and vocational training and employment for persons with disabilities, as well as disaster relief, in case a project is affected. Core activities in this mandated field include the following: awareness creation and advocacy, pre-vocational training, skill and vocational training, self-employment, and mainstreaming.
Côte d'Ivoire	Handicap International	<a href="http://www.handicap-international.us/hi/">http://www.handicap-international.us/hi/</a>	persons with disabilities	Community-based Rehabilitation, mine clearance efforts, education of accident prevention, training local bomb clearance experts, supporting local mine clearance organizations. Whether dealing with prostheses, orthoses or other types of orthopedic device, the orthopedic techniques used by Handicap International's specialists are adapted to the equipment, skills and infrastructure available in the field. The prevention of disabling diseases, the creation of community health services, the provision of psychological support for victims, all these initiatives aim to fulfill the same objective: to ensure every man, woman and child receives the same level of health care.

Côte d'Ivoire	Inclusion International	<a href="http://www.inclusioninternational.org/en/index.html">http://www.inclusioninternational.org/en/index.html</a>	persons with disabilities	Inclusion International (II) is a global federation of family-based organizations advocating for the human rights of people with intellectual disabilities and their families worldwide. II has a directory of their membership organizations, categorized by region, on their web-site.
Eritrea	Italian Association Amici di Raoul Follereau (AIFO)	<a href="http://www.aifo.it/english/">http://www.aifo.it/english/</a>	persons with disabilities; persons affected by leprosy	AIFO has chosen to focus its activities in supporting leprosy affected persons and persons with disabilities through integrated development projects, with particular attention towards the poorest and vulnerable groups of persons, in a spirit of partnership. AIFO uses community-based rehabilitation; most recently influenced by the 'social model of disability'.
Eritrea	Christian Blind Mission International (CBM)	<a href="http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html">http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html</a>	persons with disabilities	CBM supports the provision of more than 1000 programs in 113 countries in Africa, Asia/Pacific, Europe, and Latin America. Ghana	Action on Disability and Development-Ghana	<a href="http://www.add.org.uk/Ghana.asp">http://www.add.org.uk/Ghana.asp</a>	persons with disabilities	ADD works with organizations of persons with disabilities in the three northern regions of Ghana to ensure that women with disabilities play a full part in their associations. Most organizations of persons with disabilities do not have established women's wings, where women with disabilities are encouraged to explore and raise issues of concern to them, and to develop their own activities. This work ensures that women with disabilities are developing the confidence and skills they need to play a more active part in the decision making process within both the disability movement and the mainstream women's movement.

Niger	Christian Blind Mission International (CBM)	<a href="http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html">http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html</a>	persons with disabilities	CBM supports the provision of more than 1000 programs in 113 countries in Africa, Asia/Pacific, Europe, and Latin America. Fields of work include medical services, education, and rehabilitation for people with disabilities. Wherever possible, it is the aim to provide these services within the communities. Therefore, Community-based Rehabilitation programmes are promoted. The focus of CBM's work is to enable local and national partners in developing countries to implement services for people with disabilities, mainly for people with: Visual disabilities, Hearing disabilities, Physical disabilities, Mental disabilities, or Intellectual disabilities. In addition, CBM runs interdisciplinary programmes. These include the secondment of staff to CBM's partner organizations, and vocational training and employment for persons with disabilities, as well as disaster relief, in case a project is affected. Core activities in this mandated field include the following: awareness creation and advocacy, pre-vocational training, skill and vocational training, self-employment, and mainstreaming.
Niger	Handicap International	<a href="http://www.handicap-international.us/hi/">http://www.handicap-international.us/hi/</a>	persons with disabilities	Community-based Rehabilitation, mine clearance efforts, education of accident prevention, training local bomb clearance experts, supporting local mine clearance organizations. Whether dealing with prostheses, orthoses or other types of orthopedic device, the orthopedic techniques used by Handicap International's specialists are adapted to the equipment, skills and infrastructure available in the field. The prevention of disabling diseases, the creation of community health services, the provision of psychological support for victims, all these initiatives aim to fulfill the same objective: to ensure every man, woman and child receives the same level of health care.
Niger	Inclusion International	<a href="http://www.inclusioninternational.org/en/index.html">http://www.inclusioninternational.org/en/index.html</a>	persons with disabilities	Inclusion International (II) is a global federation of family-based organizations advocating for the human rights of people with intellectual disabilities and their families worldwide. South Africa (founded in)	International Disability Alliance	<a href="http://www.internationaldisabilityalliance.org/">http://www.internationaldisabilityalliance.org/</a>	international alliance of organizations working for and with persons with disabilities	IDA is an international network representing Disabled Peoples' International, Inclusion International, International Federation of Hard of Hearing People, Rehabilitation International, World Blind Union, World Federation of the Deaf, World Federation of the Deafblind, World Network of Users and Survivors of Psychiatry. Goals: To identify common positions on disability issues and to lobby UN agencies together on those to which there is agreement. To encourage the membership of the international disability rights organizations to collaborate more actively at the international, regional, national and local levels. To develop joint strategies and inclusive positions on cross-cutting issues that affect persons with disabilities. To promote the involvement of people with disabilities in world politics on the world arena. To strengthen existing networks within which the international disability rights organizations actively participate.
Sudan	Action on Disability and Development-Sudan	<a href="http://www.add.org.uk/Sudan.asp">http://www.add.org.uk/Sudan.asp</a>	persons with disabilities	ADD's priority is to ensure that persons with disabilities are not left out of the development opportunities that now exist for having a better life. In January 2005 ADD Sudan had to suspend its direct work with DPOs in Nyala until the security situation becomes more stable. Arrangements to ensure funding and indirect contact were put in place. In Sudan ADD works with 25 partners with support increasingly focussed on organizational capacity building. ADD's capacity building work over the last few years is through a mix of training, supported applications and advocacy, reflected in increased capacity to fundraise and to maintain multi-donor budgets.

Sudan	Association to Aid Refugees Japan (AAR)	<a href="http://www.aarjapan.gr.jp/english/act/disabled/index.html">http://www.aarjapan.gr.jp/english/act/disabled/index.html</a>	refugees and other persons with disabilities	Residents and refugees continue to fall victim to the landmines and unexploded ordonances (UXO) from the civil war. Promoting landmine awareness is essential in preventing landmine-related casualties, but there is still no teaching material which has given due consideration to Sudanese culture and customs. Utilizing the experience in the former Yugoslavia and Afghanistan and in cooperation with UN organizations and NGOs working locally to prevent landmine accidents, AAR has been putting together educational material which meets the needs of the Sudanese people.

Uganda	Action on Disability and Development-Uganda	<a href="http://www.add.org.uk/Uganda.asp">http://www.add.org.uk/Uganda.asp</a>	persons with disabilities	ADD supports organizations of persons with disabilities to build up their membership by seeking out disabled people who are <i>stuck</i> at home. When persons with disabilities meet other people and realize that they are not alone, it gives them strength to be more active and get involved in the struggle for rights. In Uganda there is a strong national federation (NUDIPU) in place and functioning independently of ADD. ADD works with about 50 groups across all levels. Some of these are district level impairment specific associations that their national association is not yet strong enough to link with directly. Others are district unions that ADD supports on behalf of NUDIPU until it has the capacity to manage all the areas.

Uganda	Center for the Victims of Torture	<a href="http://www.cvt.org/main.php">http://www.cvt.org/main.php</a>	persons with mental health needs	The Center for the Victims of Torture provides mental health services to refugees, returning refugees and internally displaced people who have suffered torture. Uganda	National Association of the Deaf Blind in Uganda (NADBU)	<a href="http://www.adduganda.org/downloads/NADBU_PROFILE.doc">http://www.adduganda.org/downloads/NADBU_PROFILE.doc</a>	persons with visual/hearing disabilities	NADBU focuses on the following programme areas: (a) Community-based Rehabilitation (CBR), which entails identification of potentially Deafblind persons, referral for appropriate screening, home-to-home visits, training in ADLs, mobility and orientation. (b) Capacity Building. This includes mobilization of Deafblind persons, support towards self-support groups, leadership and communication training, and exchange visits. (c) Advocacy: engagement in influence work, where government and civil society are impressed on the need to cater for prevention and management of Deafblindness. This also extends to positive policy and programme change in favor of Deafblind persons, appropriate referrals, enhanced community awareness, networking and collaboration. This programme is strengthened and reinforced with a research component that supports informed lobbying and evidence-based interventions.

Uganda	National Union of Disabled Persons of Uganda (NUDIPU)	<a href="http://international.egmont-hs.dk/nudipu/">http://international.egmont-hs.dk/nudipu/</a>	persons with disabilities	NUDIPU is an indigenous umbrella NGO of persons with disabilities (PWDS) that brings together all categories of disabilities including the physical, sensory and mental. 1. Advocacy and Lobbying: policy influence and disability mainstreaming and equalisation of opportunities for PWDS. 2. Networking and collaboration: with governments and NGOs and other institutions for collaboration, information sharing and joint advocacy. 3. Capacity building: training of leaders and councillors of PWDS. 4. Gender and development: AIDS education, family planning, legal and gender training. 5. Assistive Devices: cooperates with and influences service providers to provide such appliances to deserving PWDS at subsidised rates. 6. Research and Documentation: research in various areas on disability. 7. Economic empowerment: promoting equitable and sustainable participation of PWDS in small scale enterprise through self employment. 8. Radio programme: running disability related issues on the radio for public awareness. 9. Deafblind programme: identification and training of persons who are deaf and blind.
Uganda	Uganda National Association of the Deaf	<a href="http://www.unadug.net/general/index.php">http://www.unadug.net/general/index.php</a>	persons with hearing disabilities	The Community- based Rehabilitation Tororo Deaf Project is a rehabilitative program, involving a variety of stakeholders including local leadership, organizations of persons with disabilities, NGO's working with persons with disabilities, parents of children who are deaf and the Ministry of Gender.
Zambia	Action on Disability and Development- Zambia	<a href="http://www.add.org.uk/Zambia.asp">http://www.add.org.uk/Zambia.asp</a>	persons with disabilities	ADD supports persons with disabilities working with the Electoral Commission to ensure persons who are blind are able to vote fairly through developing a tactile guide for ballot papers, and providing access to polling stations. Issues of persons with disabilities are being addressed in political party manifestos and disabled people's organizations are working hard to raise awareness among disabled people and the community as a whole that disabled people have the right to vote.
Zambia	Association to Aid Refugees Japan (AAR)	<a href="http://www.aarjapan.gr.jp/english/act/disabled/index.html">http://www.aarjapan.gr.jp/english/act/disabled/index.html</a>	refugees and other persons with disabilities	AAR JAPAN provides financial and technical support to local NGOs and CBOs in order to promote VCT services in local communities. During the first year, AAR JAPAN mainly provided infrastructure and material assistance to partners and monitored their activities. AAR JAPAN provides support to orphans, other children affected by HIV/AIDS epidemics, and their families through local NGOs and home-based care groups. Children receive assistance in the form of tuition fees, stationery and other necessary supplies for attending school. AAR JAPAN also provides nutritional assistance to families of these children through food distribution and advice on nutrition. In the fight against HIV/AIDS, AAR JAPAN works in close cooperation with the local community -- youth groups and people living with HIV/AIDS in Chilanga, near Lusaka, the capital. In addition, AAR JAPAN has been building a network with local NGOs and related institutions.

Zambia	Christian Blind Mission International (CBM)	<a href="http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html">http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html</a>	persons with disabilities	CBM supports the provision of more than 1000 programs in 113 countries in Africa, Asia/Pacific, Europe, and Latin America. Fields of work include medical services, education, and rehabilitation for people with disabilities. Wherever possible, it is the aim to provide these services within the communities. Therefore, Community-based Rehabilitation programmes are promoted. The focus of CBM's work is to enable local and national partners in developing countries to implement services for people with disabilities, mainly for people with: Visual disabilities, Hearing disabilities, Physical disabilities, Mental disabilities, or Intellectual disabilities. In addition, CBM runs interdisciplinary programmes. These include the secondment of staff to CBM's partner organizations, and vocational training and employment for persons with disabilities, as well as disaster relief, in case a project is affected. Core activities in this mandated field include the following: awareness creation and advocacy, pre-vocational training, skill and vocational training, self-employment, and mainstreaming.
Zambia	Inclusion International	<a href="http://www.inclusioninternational.org/en/index.html">http://www.inclusioninternational.org/en/index.html</a>	persons with disabilities	Inclusion International (II) is a global federation of family-based organizations advocating for the human rights of people with intellectual disabilities and their families worldwide. II has a directory of their membership organizations, categorized by region, on their web-site.
Zimbabwe	Christian Blind Mission International (CBM)	<a href="http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html">http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html</a>	persons with visual disabilities	CBM supports the provision of more than 1000 programs in 113 countries in Africa, Asia/Pacific, Europe, and Latin America. Country	NGO/ Agency	Web-site	Population	Activities
Algeria	Handicap International	<a href="http://www.handicap-international.us/hi/">http://www.handicap-international.us/hi/</a>	persons with disabilities	Whether dealing with prostheses, orthoses or other types of orthopedic device, the orthopedic techniques used by Handicap International's specialists are adapted to the equipment, skills and infrastructure available in the field. The prevention of disabling diseases, the creation of community health services, the provision of psychological support for victims, all these initiatives aim to fulfill the same objective: to ensure every man, woman and child receives the same level of health care.
Egypt	Italian Association Amici di Raoul Follereau (AIFO)	<a href="http://www.aifo.it/english/">http://www.aifo.it/english/</a>	persons with disabilities; persons affected by leprosy	AIFO has chosen to focus its activities in supporting leprosy affected persons and persons with disabilities through integrated development projects, with particular attention towards the poorest and vulnerable groups of persons, in a spirit of partnership. AIFO uses community-based rehabilitation; most recently influenced by the 'social model of disability'.
Egypt	Christian Blind Mission International (CBM)	<a href="http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html">http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html</a>	persons with disabilities	CBM supports the provision of more than 1000 programs in 113 countries in Africa, Asia/Pacific, Europe, and Latin America. Iraq	Center for International Rehabilitation	<a href="http://www.cirnetwork.org/">http://www.cirnetwork.org/</a>	persons with disabilities	The Center for International Rehabilitation (CIR) is a Chicago-based not-for-profit organization that develops research, education and advocacy programs to improve the lives of people with disabilities internationally. The CIR operates in collaboration with the renowned Rehabilitation Institute of Chicago and Northwestern University. The CIR, which was founded in 1996 by Dr. William Kennedy Smith, conducts fieldwork, research, training and education around the globe.
Iraq	Mercy Corps International (MCI)	<a href="http://www.mercycorps.org/countries/iraq/1641">http://www.mercycorps.org/countries/iraq/1641</a>	persons with disabilities	Mercy Corps is creating economic opportunities, raising awareness, strengthening local associations, and promoting access for persons with disabilities. Mercy Corps has developed an inclusive rights-based approach throughout its programming to address the many barriers faced by disabled Iraqis. All building construction, for example, integrates accessibility features and, whenever possible, people with disabilities are integrated into the program's community activities. Mercy Corps has developed peer-counseling workshops to build leadership skills and the self-confidence of youth and adults with disabilities, and has supported awareness and sensitivity projects around disability issues.
Iraq	International Committee of the Red Cross (ICRC)	<a href="http://www.icrc.org/">http://www.icrc.org/</a>	persons with physical disabilities	CBM supports the provision of more than 1000 programs in 113 countries in Africa, Asia/Pacific, Europe, and Latin America. ## ASIA and the PACIFIC

Country	NGO/ Agency	Web-site	Population	Activities
Afghanistan	Association to Aid Refugees Japan (AAR)	<a href="http://www.aarjapan.gr.jp/english/act/disabled/index.html">http://www.aarjapan.gr.jp/english/act/disabled/index.html</a>	refugees and other persons with disabilities	Afghanistan is one of the most mine-affected areas in the world. Association for Aid and Relief, Japan (AAR JAPAN) has set up offices in Kabul (January 2002) and in Taloqan in Takhar Province (May 2002). AAR Japan has been conducting mine related actions and providing assistance for people with disabilities (PWD). Since January 2002, AAR JAPAN has been carrying out mine/UXO risk education programs and supporting mine clearance in conjunction with the HALO Trust. AAR JAPAN has cooperated with the United Nations Mine Action Center for Afghanistan (UNMACA) to develop methods and materials suited for use in Mine Risk Education programs in Afghanistan. AAR JAPAN have set up two physiotherapy clinics in Takhar Province in northern Afghanistan for PWD, such as landmine survivors, secondly Polio, etc. Through physiotherapy, AAR JAPAN intends to recover the mobility of persons with disabilities and increase their self-reliance and participation to their society. AAR JAPAN also refers PWD in need of prosthesis to the orthopedic centers by covering the expenses.
Afghanistan	Christian Blind Mission International (CBM)	<a href="http://www.cbm.org/en/tree/CBM_EV_EN_baumbar_15249.html">http://www.cbm.org/en/tree/CBM_EV_EN_baumbar_15249.html</a>	persons with disabilities	CBM supports the provision of more than 1000 programs in 113 countries in Africa, Asia/Pacific, Europe, and Latin America. Fields of work include medical services, education, and rehabilitation for people with disabilities. Wherever possible, it is the aim to provide these services within the communities. Therefore, Community-based Rehabilitation programmes are promoted. The focus of CBM's work is to enable local and national partners in developing countries to implement services for people with disabilities, mainly for people with: Visual disabilities, Hearing disabilities, Physical disabilities, Mental disabilities, or Intellectual disabilities. In addition, CBM runs interdisciplinary programmes. These include the secondment of staff to CBM's partner organizations, and vocational training and employment for persons with disabilities, as well as disaster relief, in case a project is affected. Afghanistan	Handicap International	<a href="http://www.handicap-international.us/hi/">http://www.handicap-international.us/hi/</a>	persons with disabilities	Community-based Rehabilitation, mine clearance efforts, education of accident prevention, training local bomb clearance experts, supporting local mine clearance organizations. Whether dealing with prostheses, orthoses or other types of orthopedic device, the orthopedic techniques used by Handicap International's specialists are adapted to the equipment, skills and infrastructure available in the field. The prevention of disabling diseases, the creation of community health services, the provision of psychological support for victims, all these initiatives aim to fulfill the same objective: to ensure every man, woman and child receives the same level of health care.

Afghanistan	International Committee of the Red Cross (ICRC)	<a href="http://www.icrc.org/">http://www.icrc.org/</a>	persons with physical disabilities	The ICRC has been providing orthopaedic and rehabilitation services and helping disabled people become active in the community since 1988. This has benefited not only landmine victims but also many people suffering other kinds of motor impairment. More than 82,000 patients (33,000 of them amputees) have been assisted to date (April 2008). The ICRC runs six orthopaedic centres - in Kabul, Mazar, Herat, Gulbahar, Faizabad and Jalalabad. They offer a home-care service for patients with spinal cord injuries, which provides them and their families with medical, economic and social support. Between January and March 2008, the centres: registered 1,403 new patients and produced 3,240 prostheses and orthoses; delivered 35,533 physiotherapy sessions; granted micro credit loans to 138 patients to start their own business ventures, while 55 were trained for various jobs; assisted 1,666 patients with spinal cord injuries. In Kabul alone, 1,025 home-care visits were carried out.
Afghanistan	International Rescue Committee (IRC)	<a href="http://www.theirc.org/news/in-afghanistan-the-irc.html">http://www.theirc.org/news/in-afghanistan-the-irc.html</a>	children with visual and hearing disabilities	Afghanistan, IRC helps persons with disabilities get an education. The IRC helps children who are blind and deaf study alongside other students by training teachers to work with blind and deaf students. The IRCS is also helping to create an Afghan sign language.
Australia	Workability International	<a href="http://www.workability-international.org/">http://www.workability-international.org/</a>	persons with disabilities	World's largest body representing providers of work and employment services to persons with disabilities. The organization was created for the benefit of persons with disabilities by: facilitating international exchanges of information, experience and ideas on the need for and arrangement and development of jobs for persons with disabilities; promoting the full range of employment opportunities for all persons with disabilities; promoting legal rights of persons with disabilities to equal opportunities and non-discrimination; and seeking to change governments' policies or decisions in relation to effective employment and/or rehabilitation of persons with disabilities.
Bangladesh	Action on Disability and Development-Bangladesh	<a href="http://www.add.org.uk/bangladesh.asp">http://www.add.org.uk/bangladesh.asp</a>	persons with disabilities	One of ADD Bangladesh's successes has been in raising citizens' awareness of persons with disabilities right to vote. In the most recent local government elections, 64 persons with disabilities stood as independent candidates and 16 of them were elected - this was the first time ever that disabled people had been elected as representatives of their communities in local government. Action on Disability and Development (ADD) has embarked on a prompt campaign "To Reduce Vulnerability of Persons with Disabilities affected by SIDR" to build their confidence and to assist them to start a new life. The main objective of ADD's Relief and Rehabilitation programme is to support persons with disabilities and their families to reduce their vulnerability to the affects of the cyclone SIDR by providing basic humanitarian assistance such as food, essentials, clothes and cash benefits. Website includes case studies.

Bangladesh	Center for the Victims of Torture	<a href="http://www.cvt.org/main.php">http://www.cvt.org/main.php</a>	persons with mental health needs	The Center for the Victims of Torture provides mental health services to refugees, returning refugees and internally displaced people who have suffered torture. The Center also trains paraprofessionals who act as counselors and advocates. The Center works closely with government agencies and NGOs to provide training on identifying and working with torture survivors, develop best practices in the field of mental health, and offering referral services to other organizations.
Bangladesh	Handicap International	<a href="http://www.handicap-international.us/hi/">http://www.handicap-international.us/hi/</a>	persons with disabilities	Community-based Rehabilitation, mine clearance efforts, education of accident prevention, training local bomb clearance experts, supporting local mine clearance organizations. Whether dealing with prostheses, orthoses or other types of orthopedic device, the orthopedic techniques used by Handicap International's specialists are adapted to the equipment, skills and infrastructure available in the field. The prevention of disabling diseases, the creation of community health services, the provision of psychological support for victims, all these initiatives aim to fulfill the same objective: to ensure every man, woman and child receives the same level of health care.
Bangladesh	Italian Association Amici di Raoul Follereau (AIFO)	<a href="http://www.aifo.it/english/">http://www.aifo.it/english/</a>	persons with disabilities; persons affected by leprosy	AIFO has chosen to focus its activities in supporting leprosy affected persons and persons with disabilities through integrated development projects, with particular attention towards the poorest and vulnerable groups of persons, in a spirit of partnership. AIFO uses community-based rehabilitation; most recently influenced by the 'social model of disability'.
Cambodia	Action on Disability and Development-Cambodia	<a href="http://www.add.org.uk/Cambodia.asp">http://www.add.org.uk/Cambodia.asp</a>	persons with disabilities	ADD focuses on building the capacity of district level federations of persons with disabilities to become effective membership organizations. ADD provides training in areas such as organizational development, disability rights, and advocacy whilst at the same time building up teams of disability equality trainers who will carry on this work in the future. Alongside training ADD also supports federations to lobby for local and national inclusion in important development programs such as poverty reduction strategies, elections, universal primary education and HIV/Aids awareness.
Cambodia	Association to Aid Refugees Japan (AAR)	<a href="http://www.aarjapan.gr.jp/english/act/disabled/index.html">http://www.aarjapan.gr.jp/english/act/disabled/index.html</a>	refugees and other persons with disabilities	AAR JAPAN has been operating the Kien Khleang Vocational Training Center (KKC) in cooperation with the Cambodian government since 1993. KKC is a vocational training school for persons with disabilities, post polio and landmine survivors in Cambodia. The objective of KKC is to promote self-reliance in social, economic and mental contexts. Every year a total of 40 students enroll at three courses in KKC and learn skills of motorcycle repairing, TV/radio repairing and tailoring. Literacy and business skills classes are also provided. A wheelchair workshop is also operated by AAR JAPAN. Wheelchairs produced in the workshop are distributed all over Cambodia. As an outreach activity, technicians with disability in the workshop provide maintenance and repairing service to the wheelchair users in both urban and rural areas of Cambodia.

Cambodia	Center for the Victims of Torture	<a href="http://www.cvt.org/main.php">http://www.cvt.org/main.php</a>	persons with mental health needs	The Center for the Victims of Torture provides mental health services to refugees, returning refugees and internally displaced people who have suffered torture. Fields of work include medical services, education, and rehabilitation for people with disabilities. Wherever possible, it is the aim to provide these services within the communities. Therefore, Community-based Rehabilitation programmes are promoted. The focus of CBM's work is to enable local and national partners in developing countries to implement services for people with disabilities, mainly for people with: Visual disabilities, Hearing disabilities, Physical disabilities, Mental disabilities, or Intellectual disabilities. In addition, CBM runs interdisciplinary programmes. These include the secondment of staff to CBM's partner organizations, and vocational training and employment for persons with disabilities, as well as disaster relief, in case a project is affected. Core activities in this mandated field include the following: awareness creation and advocacy, pre-vocational training, skill and vocational training, self-employment, and mainstreaming.

Fields of work include medical services, education, and rehabilitation for people with disabilities. Wherever possible, it is the aim to provide these services within the communities. Therefore, Community-based Rehabilitation programmes are promoted. The focus of CBM's work is to enable local and national partners in developing countries to implement services for people with disabilities, mainly for people with: Visual disabilities, Hearing disabilities, Physical disabilities, Mental disabilities, or Intellectual disabilities. In addition, CBM runs interdisciplinary programmes. These include the secondment of staff to CBM's partner organizations, and vocational training and employment for persons with disabilities, as well as disaster relief, in case a project is affected. Core activities in this mandated field include the following: awareness creation and advocacy, pre-vocational training, skill and vocational training, self-employment, and mainstreaming.
Moldova	United Nations Child Education Fund (UNICEF)	<a href="http://www.unicef.org/infobycountry/moldova_28501.html">http://www.unicef.org/infobycountry/moldova_28501.html</a>	children with disabilities	Four years ago UNICEF teamed up with the municipal government in Chisinau and a non-governmental organization called Motivation to create the Botanical Centre. Botanical offers rehabilitation programs, counseling and access to a wide range of recreational, educational and vocational activities, to help prepare children for the future. At the Botanica Centre, children with and without disabilities mix and mingle. UNICEF is working with partners to help integrate children in wheelchairs into regular schools in Moldova.

Poland	Christian Blind Mission International (CBM)	<a href="http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html">http://www.cbm.org/en/tree/CBM_EV_EN_baumbart_15249.html</a>	persons with disabilities	CBM supports the provision of more than 1000 programs in 113 countries in Africa, Asia/Pacific, Europe, and Latin America. Fields of work include medical services, education, and rehabilitation for people with disabilities. Wherever possible, it is the aim to provide these services within the communities. Therefore, Community-based Rehabilitation programmes are promoted. The focus of CBM's work is to enable local and national partners in developing countries to implement services for people with disabilities, mainly for people with: Visual disabilities, Hearing disabilities, Physical disabilities, Mental disabilities, or Intellectual disabilities. In addition, CBM runs interdisciplinary programmes.
