

## **Basic Information Package: Israel**

Basic Information Packages (BIPs) contain background information on the human rights and political situation of countries. BIPs include, where available, links to maps, BBC Country Profiles, extracts from the Political Handbook of the World, US Department of State's Country Reports on Human Rights Practices and International Religious Freedom Report, current UK Home Office reports, Amnesty International's annual report and Human Rights Watch's annual report. BIPs are always current and are updated four times a year following the publication of the major reports (January, March, May and October).

Israel proclaimed Jerusalem as its capital in 1950, but the US, like nearly all other countries, maintains its Embassy in Tel Aviv.

The West Bank and Gaza Strip are Israeli-occupied with current status subject to the Israeli-Palestinian Interim Agreement – permanent status to be determined through further negotiation.

Boundary representation is not necessarily authoritative.
