Refugee Documentation Centre

Country Information Package

GEORGIA

Disclaimer

Country Information Packs (CIPs) are prepared by researching publicly accessible information currently available to the Refugee Documentation Centre within time constraints. CIPs contain a selection of representative links to sources under a number of categories for use as Country of Origin Information. Please note that CIPs are not, and do not purport to be, exhaustive with regard to conditions in the countries surveyed or conclusive as to the merit of any particular claim to refugee status or protection. The General Human Rights Reports category contains links to information which may be useful for a number of the other categories.
