One detour route for pedestrian and vehicular traffic continues to connect these two neighbourhoods, but when the Barrier is completed, the Dahiyat Al Bareed neighbourhood will be separated from Ar Ram and the rest of the West Bank.

### Gaza Strip

#### Functioning of Gaza crossing points:

- **Erez** was open on four days this week for the movement of diplomats, international humanitarian workers and critical medical cases with special coordination arrangements. National UN staff members continue to be denied entry to Israel, even with permits and prior co-ordination. Senior Palestinian businessmen were also allowed to cross this week. (Appendix for daily log of movement is based on information provided by the Palestinian civil affairs office due to the absence of Palestinian DCL staff at the present time).
- **Rafah** crossing continues to be closed. It was last open on 9 June but it was operated since then on a few occasions on an exceptional basis.
- **Karni** crossing: the conveyor belt/chute was closed this week. Since 12 June, the crossing was operated to transfer wheat grain and animal feed into Gaza but remained closed for other imports and all exports.
- **Sufa** crossing was open on two days this week; it was closed from 17 to 21 April. After being closed between 28 October and 22 December, Sufa crossing was reopened on 23 December for humanitarian and commercial commodities. Sufa has been the principal alternative commercial crossing following the closure of Karni crossing in mid-June.
- **Kerem Shalom** crossing was open on three days this week for the entry of commercial and humanitarian goods. During the closure of Sufa between 28 October and 22 December, Kerem Shalom was effectively the only crossing allowing the entry of commercial and humanitarian goods into Gaza.
- **Nahal Oz energy pipelines** were open on two scheduled operating days this week.
- Gaza fishermen continue to be permitted to fish up to six nautical miles off the coastline.

- **17 May to date:** Palestinian farmers have been unable to reach their farms in the areas east and north of Beit Hanun and north and northwest of Beit Lahiya due to ongoing IDF military activities. Palestinian farmers have also been unable to reach farms located east of Al Bureij Camp and east of Khan Younis due to intermittent military operations by the IDF.
