PREAMBLE

On September 15, 1995 Ukraine signed the Framework Convention for the Protection of National Minorities (hereinafter referred to as the Framework Convention). The Framework Convention was ratified by the Verkhovna Rada of Ukraine with the Law of Ukraine No. 703/97-BP, entered into force on May 1, 1998 and is a part of the national legislation in accordance with Article 9 of the Constitution of Ukraine.

In pursuance of Paragraph 2 Article 25 of the Framework Convention, Ukraine ensures that periodic state reports containing information on the current public policy in the protection of the national minorities' rights are submitted.

The Third Report of Ukraine on Compliance with the Framework Convention was submitted in May 2009.

In January 2012 the experts of the Advisory Committee of the Council of Europe Framework Convention for the Protection of National Minorities arrived in Ukraine with a monitoring visit. They had a number of official meetings with the representatives of the legislative and executive authorities as well as public organisations of national minorities during the period from January 23 until January 27, 2012.

For instance, on January 23 the meeting was held at the Lviv Regional State Administration with the First Deputy Head of the Lviv Regional State Administration, B. M. Matolych.

On January 24 the round table was held at the Council of Ministers of the Autonomous Republic of Crimea with participation of the heads of the executive authorities of the Autonomous Republic of Crimea, i. e. the Ministry of Culture, the Ministry of Education and Science, Youth and Sport, the Ministry of Social Policy, the Republican Committee on Inter-Ethnic Relations and Deported Citizens, and the Republican Committee on Protection of Cultural Heritage.

On January 26 meetings were held with Yu. V. Hnatkevych, a people's deputy of Ukraine, head of the Subcommittee on Victims of Political Repressions, Ethnic Policy, Prevention of Domestic Conflict, Refugees, Migration and on Relations with the Ukrainians Residing Abroad, the Committee of the Verkhovna Rada of Ukraine on Human Rights, National Minorities and Inter-Ethnic Relations, Yu. P. Bohutskyi, the First Deputy Minister of Culture of Ukraine, and the representatives of the Secretariat of the Ukrainian Parliament Commissioner for Human Rights.

On January 27 the experts met the heads of the Ministry of Education and Science, Youth and Sport of Ukraine, Ministry of Justice of Ukraine, Ministry of Internal Affairs of Ukraine, Ministry of Social Policy of Ukraine and State Statistics Service of Ukraine.

Based on the results of the third monitoring cycle the Advisory Committee drafted the opinion (*approved on March 22, 2012*) to which the Government of Ukraine furnished the Comments on March 28, 2012.

On December 18, 2013 the Committee of Ministers of the Council of Europe adopted the Resolution CM/ResCMN(2013)8 approving the opinion and recommendations as to Ukraine.

The Fourth Report of Ukraine on Compliance with the Framework Convention

covers the period from 2010 until 2015 and contains all the important information on the public policy in the protection of the national minorities' rights.

The Report has been prepared by the Ministry of Culture of Ukraine in cooperation with the central and local executive authorities.

**PART 1. THE MAIN LEGAL AND ORGANISATIONAL BASES OF FRAMEWORK
CONVENTION FOR THE PROTECTION OF NATIONAL MINORITIES
IMPLEMENTATION IN UKRAINE**

**Ukrainian Policy in the Sphere of Interethnic Relations and
National Minorities Rights Protection**

The years of independence have demonstrated that the issue of the ethnic national policy in Ukraine has always occupied a prominent position.

Ukraine has positioned and asserted itself to be the state with the high level of tolerance and inter-ethnic respect. It strictly complies with its obligations assumed within the framework of national and international law.

Being a multi-national state proud of its cultural, linguistic and religious diversity, Ukraine keeps maintaining the basis for the long-term tradition of tolerant and peaceful co-existence of different nationalities on the Ukrainian land as well as establishment of proper conditions to protect their rights.

Having chosen the way of an open democratic legal society, Ukraine as a European country has studied and applied the international experience of protection of the national minorities' rights in its legislation. Ukraine is among of the Europe's leaders in terms of the level of legal support for fundamental rights and freedoms of the national minorities.

During the first years of its independence Ukraine has managed to develop the powerful legal framework for harmonious combination of interests of all ethnic components of the Ukrainian society and provide for equal conditions of their national development.

The legal framework in inter-ethnic relations and protection of the national minorities rights' has been established by the Declaration of State Sovereignty of Ukraine and the Declaration of the Rights of Nationalities of Ukraine. These fundamental Ukrainian documents have established the principles on the basis of which the ethnic-national policy is developed today, provide for respect and equality of the citizens of Ukraine of different nationalities, and forbid discrimination on ethnic grounds. In the course of time guarantees of the rights of national minorities were established in the Constitution of Ukraine and developed in a number of laws and regulations.

However, our state is aware of the importance of consistent improvement and development of new approaches in the public ethnic-national policy.

In view of the external aggression, Ukraine is clearly aware of the fact that the threat of breach of inter-ethnic peace cannot be eliminated without implementation of the responsible and balanced public ethnic-national policy.

Activities and Control over the National Minorities Rights Observance in Ukraine

Protection of the rights and freedoms of national minorities is controlled by the Verkhovna Rada of Ukraine, the President of Ukraine and the Cabinet of Ministers of Ukraine.

Despite the very complicated social and economical situation, today the national leaders do their best to protect the national minorities' rights to the full extent and establish proper conditions for the languages of national minorities to be studied and used, for the information to be received and disseminated in the native language, and for the national culture to be preserved and developed.

On January 11, 2012 parliamentary hearings were held on “Ethnic-National Policy of Ukraine: Achievements and Prospects”. The most emphasis was placed by the people's deputies, representatives of public organisations of the national minorities, and scientists on the following issues: improvement of the laws on the public ethnic policy (in particular, this concerned adopting an absolutely new Concept of the Public Ethnic-National Policy in terms of the format and contents); recovery of the state institution on national minorities, establishment of the representative national minority body under the President of Ukraine or the Cabinet of Ministers of Ukraine.

On March 11, 2015 parliamentary hearings were held on “Role, Importance and Impact of the Civil Society on Development of the Ethnic-National Policy of Unity in Ukraine”. The main focus of the parliamentary hearings was determination of the mechanism for coordination of activities of the state and civil society institutions in the context of improvement of the national policy of unity in Ukraine as well as development of the forms and methods for implementation of the public ethnic-national policy.

In particular, O. I. Syroid, the Deputy Chairman of the Verkhovna Rada of Ukraine, stated, “Ukraine is at war... we have to admit that one of the causes of the present-day aggression and our certain inability to resolve the situation is, in fact, lack of the consistent public ethnic-national policy which would apply to the national minorities and, in the first place, interaction inside the society... In order to win the war we have to contemplate and adopt the new public policy in ethnic-national relations.”

In his turn, V. A. Kyrylenko, the Vice Prime Minister of Ukraine and the Minister of Culture of Ukraine, said, “... inter-ethnic accord, inter-ethnic peace, good balanced ethnic-national policy is one of the top priorities of the Cabinet of Ministers of Ukraine and, in fact, all Ukrainian leaders,” and emphasised that “... the primary goal of the Government is to adopt respective decisions which will enable preservation and development of the inter-ethnic accord.”

Based of the discussions and with account of the proposals made by the Verkhovna Rada of Ukraine, on November 25, 2015 Resolution No. 824 “On Recommendations of the Parliamentary Hearings on the Theme “Role, Importance and Impact of the Civil Society on Development of the Ethnic National Policy of

Unity in Ukraine”¹ was adopted. These recommendations were brought into force with the respective order of A. P. Yatseniuk, the Prime Minister of Ukraine.

During the period from 2009 until 2015 changes were made to the system of public administration in the area of inter-ethnic relations and protection of the national minorities' rights. For instance, as a result of the administrative reform conducted in 2010 on the basis of Decree of the President of Ukraine No. 1085/2010 dated December 9, 2010 “On Optimisation of the System of Central Executive Authorities”, the State Committee on Nationalities and Religions of Ukraine, a separate central executive authority in charge of development and implementation of the public policy in inter-ethnic relations, protection of rights of the national minorities and the persons deported on the national grounds who have returned to Ukraine, was liquidated.

Starting from 2011 the public policy in inter-ethnic relations and protection of the national minorities' rights has been developed and implemented by the Ministry of Culture of Ukraine, and the public policy in protection of rights of the persons deported on the national grounds who have returned to Ukraine is developed and implemented by the Ministry of Social Policy of Ukraine.

In addition, the Law of Ukraine “On Amending Certain Legislative Instruments of Ukraine Concerning Activities of the Ministry of Justice of Ukraine, Ministry of Culture of Ukraine, Other Central Executive Authorities Activities of Which Are Directed and Coordinated by Respective Ministers as well as the State Space Agency of Ukraine” No. 5461-VI dated October 16, 2012 cancelled a number of the provisions of the Law of Ukraine “On National Minorities in Ukraine”. In particular, the provisions of Article 5 in accordance with which the central executive authority in inter-ethnic relations was the Ministry for Nationalities of Ukraine the advisory board of which was the Council of Representatives of Public Associations of the National Minorities of Ukraine were amended. Permanent commissions on inter-ethnic relations operated within the Verkhovna Rada of Ukraine and, if necessary, within local Councils of People's Deputies, and respective structural subdivisions could be established within the local executive authorities.

In accordance with Article 5 as amended, the public policy in inter-ethnic relations and protection of the national minorities' rights in Ukraine shall be developed and implemented by central executive authorities appointed by the President of Ukraine. If necessary, permanent commissions on inter-ethnic relations may be established by local councils, and respective structural subdivisions may be established by local state administrations.

Moreover, the abovementioned Law cancelled the provisions of Part 2 Article 14 of the Law of Ukraine “On National Minorities in Ukraine” in accordance with which national public associations were entitled to nominate their candidates for people's deputies at election to public authorities in accordance with the Constitution of Ukraine, laws on election of the people's deputies of Ukraine and deputies of local councils. Article 14 of the Law of Ukraine “On National Minorities in Ukraine” now

¹ The text of the resolution is furnished in Part 3 of the Report.

contains a provision in accordance with which public authorities assist in activities of national public associations acting in compliance with the applicable laws.

Therefore, at present individual powers as to protection of educational, cultural, social protection, information and language rights of the national minorities are exercised by designated central executive authorities and subdivisions of local executive authorities.

Compliance with the effective laws concerning the protection of the national minorities' rights shall be controlled, as before, by the Constitutional Court of Ukraine and general jurisdiction courts, the Committee on Human Rights, National Minorities and Inter-Ethnic Relations of the Verkhovna Rada of Ukraine, and the Ukrainian Parliament Commissioner for Human Rights.

PART 2. THE IMPLEMENTATION OF THE FRAMEWORK CONVENTION FOR THE PROTECTION OF NATIONAL MINORITIES BY UKRAINE

Section 1

Article 1

The protection of national minorities and of the rights and freedoms of persons belonging to those minorities forms an integral part of the international protection of human rights, and as such falls within the scope of international co-operation.

Ukraine keeps cooperating with the following international organisations and their working bodies for protection of the national minorities' rights:

- United Nations (*UN Committee on the Elimination of Racial Discrimination, UN Educational, Cultural and Scientific Organisation – UNESCO*);
- Council of Europe (*CE Advisory Committee on the Framework Convention for the Protection of National Minorities, CE European Commission against Racism and Intolerance, Committee of Experts of the European Charter for Regional or Minority Languages, CE Ad hoc Committee of Experts on Roma and Travellers Issues – CAHROM*);
- Organisation for Security and Cooperation in Europe (*Office of the OSCE High Commissioner on National Minorities and Office for Democratic Institutions and Human Rights*);
- International Organization for Migration.

In addition, within the framework of the executed international treaties Ukraine cooperates with the states having respective ethnic communities on issues of the national minorities. Such cooperation is effected in the form of intergovernmental bilateral commissions. In particular, the following commissions operate as of today:

- Bilateral Ukrainian-Slovak Commission for National Minorities, Education and Culture;
- Joint Ukrainian-Romanian Intergovernmental Commission on the Protection of National Minority Rights;
- Joint Ukrainian-Hungarian Commission on the Protection of National Minorities' Rights.

The Bilateral Ukrainian-Slovak Commission for National Minorities, Education and Culture is the most active and effective. Thirteen meetings have been held since its establishment. Fourteen meetings of the committee are scheduled for 2016.

On the other hand, due to difference in the parties' opinions on certain issues which arose at the 5th Meeting of the Joint Ukrainian-Romanian Intergovernmental Commission on the Protection of National Minority Rights and the 15th Meeting of the Joint Ukrainian-Hungarian Commission on the Protection of National Minorities' Rights, their operation has been suspended.

However, in 2015 the parties on the Ukrainian and Romanian sides expressed their intention to continue their bilateral cooperation on the issues of national minorities. As a result, on June 30, 2015 the meeting at the level of the secretaries of the Ukrainian and Romanian parties to the Joint Ukrainian-Romanian

Intergovernmental Commission on the Protection of National Minority Rights was held, and on April 7, 2016 co-chairmen of the Commission met.

In February 2016 the Hungarian party also claimed that it was ready to hold a work meeting on resumption of the activities of the Ukrainian-Hungarian Commission on the Protection of National Minorities' Rights in the nearest time.

In its turn, the Ukrainian party approved the decisions of Romania and Hungary and stated that it was ready to continue bilateral cooperation in provision for execution of the arrangements on the protection of rights of the respective national minorities, in particular in the form of activities of intergovernmental commissions.

In order to settle the issues related to the protection of rights of persons of German origin in Ukraine, on December 23, 2015 the Cabinet of Ministers of Ukraine adopted Resolution No. 1075 “On Establishment of the Ukrainian-German Intergovernmental Commission on Cooperation in Affairs of Persons of German Origin Residing in Ukraine” which approved the Regulations on the Commission and its members.

On February 17, 2016 in the City of Berlin co-chairmen of the Commission, namely Andrii Vitrenko, the Deputy Minister of Culture of Ukraine for European Integration, and Hartmut Koschyk, the Federal Government Commissioner for Matters Related to Ethnic German Resettlers and National Minorities, met to discuss possibility of holding of the first meeting of the Commission in the nearest future¹ as well as a number of issues related to support of the initiatives of the Ukrainians residing in Germany by the German government.

Article 3

1. Every person belonging to a national minority shall have the right freely to choose to be treated or not to be treated as such and no disadvantage shall result from this choice or from the exercise of the rights which are connected to that choice.

2. Persons belonging to national minorities may exercise the rights and enjoy the freedoms flowing from the principles enshrined in the present Framework Convention, individually as well as in community with others.

Paragraphs 1, 2

The Ukrainian legislation contains the unaltered provision and principle in accordance with which “Citizens of Ukraine may freely choose and recover their nationality. No citizen may be forced to refuse from his/her nationality in any form” (Article 11 of the Law of Ukraine “On National Minorities in Ukraine”).

The right for national self-identification is acknowledged to be one of the fundamental human rights related to formation of the personality and unique individuality. Legislative guarantees of rights to civil self-organization enable national minorities to combine individual activities of their representatives and organizational capabilities for satisfaction of their own ethnic-national demands.

¹ As of March 15, 2016 the parties agreed to hold the first meeting of the Ukrainian-German Intergovernmental Commission on Cooperation in Affairs of Persons of German Origin Residing in Ukraine in May 2016.

Section II

Article 4

- 1. The Parties undertake to guarantee to persons belonging to national minorities the right of equality before the law and of equal protection of the law. In this respect, any discrimination based on belonging to a national minority shall be prohibited.**
- 2. The Parties undertake to adopt, where necessary, adequate measures in order to promote, in all areas of economic, social, political and cultural life, full and effective equality between persons belonging to a national minority and those belonging to the majority. In this respect, they shall take due account of the specific conditions of the persons belonging to national minorities.**
- 3. The measures adopted in accordance with paragraph 2 shall not be considered to be an act of discrimination.**

Paragraphs 1, 2, 3

In 2009-2015 the Legislation of Ukraine was supplemented with the laws and amended in terms of the issues related to prevention of and counteraction to discrimination on the racial, national and religious grounds.

On November 5, 2009 the Verkhovna Rada of Ukraine adopted the Law of Ukraine No. 1707 “On Amending the Criminal Code of Ukraine as to Liability for Crimes on the Racial, National or Religious Grounds” which in particular strengthened sanctions set forth in Article 161 of the Criminal Code of Ukraine and amended certain other articles.

This Law forbids “wilful actions designated for stirring up national, racial or religious hostility and hatred, humiliation of national honour and dignity or hurting of feelings of citizens in connection with their religious beliefs as well as direct or indirect restriction of rights or establishment of direct or indirect privileges for citizens on the grounds of race, complexion, political, religious and other beliefs, sex, disability, ethnic and social origin, financial status, place of residence, language or another grounds”.

Part 2 Article 115 “Wilful Homicide”, Article 121 “Wilful Grave Bodily Injury”, Article 126 “Bodily Injuries and Torment”, Article 127 “Torture” of the Criminal Code of Ukraine have been supplemented with such qualifications as commitment of crime on the grounds of racial, national or religious intolerance.

In accordance with Article 300 of the Criminal Code of Ukraine, “importing the works promoting violence and cruelty, racial, national or religious intolerance and discrimination into Ukraine for the purpose of sale or distribution thereof as well as production, storage, relocation or another transfer for the same purpose, or sale or distribution thereof, as well as forcing to participate in production thereof” shall be deemed a crime.

Moreover, for the purpose of consistent improvement of the legislation, O. M. Dmytrenko, a people's deputy of Ukraine, has developed the draft Law of Ukraine “On Amending the Criminal Code of Ukraine as to Improvement of Qualification of Crimes on the Grounds of National, Racial or Religious Hatred or Hostility” (registration No. 2314 dated 08.07.2015) within the framework of the legislative initiative.

The purpose of this draft law is to cancel “violence” as the qualification of Part 2

Article 161 of the Criminal Code of Ukraine to eliminate collision with the equivalent qualification of other crimes, to develop the single definition of the motive and elements of the crimes on the grounds of national, racial or religious hatred or hostility.

Order of the Cabinet of Ministers of Ukraine No. 236 dated April 25, 2012 approved the Action Plan for Development of the Civic Culture and Increase in the Tolerance Level in the Society.

In accordance with the Action Plan, the central and local executive authorities provided for informational and educational work, performed activities to increase legal culture in the Ukrainian society, develop social dialogue and improve interaction with the civil society institutions for non-discrimination.

In 2010-2012 the central and local executive authorities performed the works in pursuance of the Action Plan to Combat Xenophobia and Racial and Ethnic Discrimination in the Ukrainian society in 2010-2012 developed by the Interdepartmental Working Group on Combating Xenophobia and Ethnic and Racial Intolerance.

On September 6, 2012 the Verkhovna Rada of Ukraine adopted the Law of Ukraine No. 5207 “On the Fundamentals of Prevention and Counteraction to Discrimination in Ukraine”. In May 2014 this law was amended and improved to be brought into compliance with the international law.

This Law provides definition of the following terms: “anti-discrimination expert examination”, “discrimination”, “indirect discrimination”, “discrimination incitement”, “positive actions”, “discrimination aiding”, “direct discrimination”, “infringement”.

The Law establishes non-discrimination principles in the legislation of Ukraine, discrimination forms, main focus areas of the public policy as to prevention of and counteraction to discrimination. The Law establishes the mechanism for provision for prevention of and counteraction to discrimination and introduces anti-discrimination expert examination of draft laws and regulations.

The Law also defines the entities vested with powers as to prevention of and counteraction to discrimination, legal mechanisms for protection of rights of the persons who believe they have been discriminated and the persons who have suffered from discrimination.

In addition to the above-mentioned provisions, on January 30, 2013 the Cabinet of Ministers of Ukraine adopted Resolution No. 61 “Issues of the Anti-Discrimination Expert Examination and Public Anti-Discrimination Expert Examination of Draft Laws and Regulations” which approved the Procedure for Anti-Discrimination Expert Examination of Draft Laws and Regulations by the Executive Authorities.

This resolution also prescribes that public anti-discrimination expert examination shall be effected by public organisations, individuals and legal entities within the framework of the public discussion of draft laws and regulations in accordance with the Procedure for Consultations with the Public on Development and Implementation of the State Policy approved by Resolution of the Cabinet of Ministers of Ukraine No. 996 dated November 3, 2010.

On April 15, 2014 the Law of Ukraine “On Ensuring Civil Rights and Freedoms and the Legal Regime in the Temporarily Occupied Territory of Ukraine” was adopted. The purpose of the Law is to protect and fully exercise national, cultural,

social and political rights of citizens of Ukraine, including indigenous communities and national minorities residing within the temporarily occupied territory of Ukraine. The Law defines the status of the territory of Ukraine which has been temporarily occupied as a result of the military aggression of the Russian Federation, establishes the special legal regime within this territory, specifics of operation of the public authorities, local self-government, enterprises, institutions and organisations within the framework of this regime, compliance with and protection of human and civil rights and freedoms as well as rights and legal interests of legal entities.

On April 17, 2014 the Verkhovna Rada of Ukraine adopted the Law of Ukraine No. 1227 “On Public Television and Radio Broadcasting of Ukraine” Article 3 of which prescribes that operation of the National Public Television and Radio Company of Ukraine shall be based on non-discrimination on any grounds.

On August 25, 2015 the National Human Rights Strategy was approved by Decree of the President of Ukraine No. 501/2015, and on November 23, 2015 the Government of Ukraine approved Order of the Cabinet of Ministers of Ukraine No. 1393-p “On Approving the Action Plan for the Implementation of the National Human Rights Strategy for the Period until 2020”. This Action Plan contains a separate section “Protection of the Rights of Indigenous Communities and National Minorities” which establishes the purposes and tasks for development of the efficient system for provision for and protection of the rights of indigenous communities and national minorities, support and development of tolerant inter-ethnic relations in the Ukrainian society.

On December 8, 2015 the Verkhovna Rada of Ukraine adopted the Law of Ukraine No. 856 “On the International Broadcasting System of Ukraine” Article 5 of which prescribes that international broadcasting entities shall operate in compliance with the principles of non-discrimination on any grounds and respect for moral, religious, ideological beliefs and outlook of the viewers.

Article 5

- 1. The Parties undertake to promote the conditions necessary for persons belonging to national minorities to maintain and develop their culture, and to preserve the essential elements of their identity, namely their religion, language, traditions and cultural heritage.**
- 2. Without prejudice to measures taken in pursuance of their general integration policy, the Parties shall refrain from policies or practices aimed at assimilation of persons belonging to national minorities against their will and shall protect these persons from any action aimed at such assimilation.**

Paragraph 1

On December 14, 2010 the Verkhovna Rada of Ukraine adopted the Law of Ukraine No. 2778 “On Culture”.

Article 3 of the Law prescribes that the fundamentals of the public cultural policy shall include recognition of culture as one of the main factors of identity of Ukrainian people, citizens of Ukraine of all nationalities.

As it maintains and develops the cultural diversity, Ukraine guarantees establishment of conditions for the development of culture of the Ukrainian nation, indigenous people and national minorities of Ukraine (Clause 2 Article 4 of the Law),

grants the right to association into creative unions, national and cultural societies, centres, funds, associations, other public cultural organisations as well as to maintenance, development and promotion of cultural, linguistic identity, traditions, customs and rituals, access to cultural values, cultural heritage and cultural benefits (Article 6 of the Law).

Article 5 of the Law contains provisions in accordance with which the state guarantees free use of the languages of all national minorities of Ukraine in culture.

The use of languages in culture is also governed by Article 23 of the Law of Ukraine “On Fundamentals of the State Language Policy” (adopted on July 2, 2012 No. 5029) in accordance with which the state guarantees free use of regional languages or minority languages in culture and provides for the exercise of rights and cultural interests of all language groups in Ukraine.

Article 8 of the Law of Ukraine “On Culture” guarantees that all citizens are given access to cultural values and benefits exercised by means of maintenance and state support of cultural institutions by the state and local budgets in order to provide for their operation and accessibility of their services for other categories of the population.

Access of the citizens to cultural values is provided for through a possibility to use documents of the National Archival Fund of Ukraine or copies thereof; familiarisation with museum collections which pertain to the state part of the Museum Fund of Ukraine; use of the library stock which pertains to the State Library Fund of Ukraine.

Article 10 of the Law states that “the State shall establish conditions for cultural development of citizens of Ukraine of all nationalities, promote their involvement into the joint process of creation of cultural values. Citizens of Ukraine of any nationality shall be entitled to maintain, develop and promote their culture, language, traditions, customs and rituals, establish national and cultural societies, centres, cultural institutions and perform any other activities in the area of culture in compliance with the laws”.

In pursuance of these provisions the Government of Ukraine performs activities aimed at establishment of conditions for the development of national minorities' culture via the designated central and local executive authorities. The funds for the events promoting satisfaction of cultural, linguistic, educational and informational needs of national minorities are annually allocated from the State Budget of Ukraine (*Table 1*).

³ Starting from August 2014 financing of the newspaper “Holos Krymu” has been suspended. Financial support cannot be granted to the newspaper due to the fact that its registered address, bank department and settlement account are located in the City of Simferopol, i. e. within the temporarily occupied territory of the Autonomous Republic of Crimea. The Ministry of Culture of Ukraine proposed to the newspaper to be re-registered in another region of Ukraine, but the editorial office failed to do so.

⁴ In 2012 the programme was renamed as “Measures for Implementation of the European Charter for Regional or Minority Languages, Financial Support of Ukrainian Education Abroad”. The amount of the funds specified for 2012 and 2013 includes allocations in two directions.

Budget for Restoration of National Minorities' Culture and Implementation of the European Charter for Regional or Minority Languages, approved by Resolution of the Cabinet of Ministers of Ukraine No. 685 dated June 2, 2011, state financial support may be granted to language contests, academic competitions, educational seminars, conferences, festivals, exhibitions, master classes for national minorities, publication of text books, dictionaries, reference books on national minorities' languages, printed media for national minorities etc.

Starting from 2012 state financial support of the measures for satisfaction of language and cultural needs of national minorities has been granted on a competitive basis. The competition procedure is established by Resolution of the Cabinet of Ministers of Ukraine No. 1049 dated October 12, 2011 “On Approving the Procedure for the Contest for Selection of the Programmes (Projects, Measures) Developed by Public Society Institutions for Financial Support to Be Granted for Performance (Implementation) Thereof”.

Cultural and art projects which were performed at the expense of state financial support (state and local budgets) in 2010-2015 included international events: Turkic and Tatar Contest Festival “Kyiv Sanduhachi”, festival of authentic folk music “Sing to Me, Kobzar”, Romani festival “Amala”, theatre art festival “Mandruichi Zirky” (“Travelling Stars”), artists plain air “Ethnic Colour – Crimea”, New Georgian Cinema Festival, conference “Our Historical Cultural Heritage – a Permanent Source of Revival and Development of the Unique Belarusian Culture in Ukraine”, International Festival of Ethnic Theatres of National Minorities of Ukraine, CIS Countries and Carpathian European Region “Ethno-Dia-Sphere”, and all-Ukrainian events: children's forum “Spivdruzhnist” (“Commonwealth”), cultural and art campaign for support of culture of ethnic groups with no historical motherland and Crimean minorities, conference of national minorities “We Are Ukrainians”, exhibition of arts and crafts of ethnic groups of Ukraine “Together in Diversity”, cultural and art campaign “Children's Camp “Tolerance Sources”, Korean music festival “Koreiada”, visual arts exhibition of ethnic groups of Ukraine “Vivat, Ukraine!”, Greek culture festival “Mega Giorti”, cultural and arts campaign “Georgian Folk Arts in Ukraine”, scientific and practical conference “Art and Culture of the Armenian Expatriate Community in Ukraine”, and Moldavian culture and language festival.

In 2015 in general 37 culture and art (festivals, contests) and 162 culturological (seminars, conferences) events were held in Ukraine. Such events are popular and large-scale. They are actively attended by citizens of different nationalities.

At the same time, it shall be emphasised that the hostilities in the East of Ukraine have been reflected in the ethnic cultural activities of national communities of Ukraine to some extent. In order to demonstrate inter-ethnic accord and unity of Ukrainian citizens of different nationalities, public organisations of national minorities in partnership with the local authorities have launched charitable art

campaigns in different regions of Ukraine, in particular:

- Kyiv City State Administration together with the Council of National and Cultural Communities of the City of Kyiv with participation of the best performance ensembles of ethnic communities and Ukrainian celebrities held a charity campaign to support national unity of Ukraine and patriotic combatants (City of Kyiv);
- representatives of national communities and volunteer organisations supported by the Kyiv City State Administration held the charity campaign “Unity of Diversity Saves Peace and Life” (City of Kyiv);
- charity concert of performance ensembles of national minorities for combatants of the 9th Mechanized Infantry Battalion for area defence in the Region of Vinnytsia (City of Haisyn);

- charity concert “Different Cultures – United Country” to support children of the combatants killed in the ATO (City of Kirovohrad);
- charity concert “Art of Tolerance” to support the Kharkiv activist killed in the ATO (City of Kharkiv).

In addition, many concerts with participation of performance ensembles and individual performers representing national minorities were held in the ATO area.

An efficient form of joining public and state efforts in the development of culture of national minorities is national cultural centres working in most regions of Ukraine.

In 2011 there were ninety-six national minority cultural centres in Ukraine, and in 2013 there were eighty-one. As of January 1, 2016 there were eighty-six national minority cultural centres in Ukraine¹.

In 2013 cultural and arts needs of national minorities were represented by 1,485 amateur theatre, music, dance ensembles of national minorities, and in 2015 there were 1,248 ensembles.

The culture of national minorities is promoted through special museum exhibitions dedicated to history, everyday life and traditions of national minorities.

State library institutions of Ukraine have a substantial stock of literature in the Crimean Tatar, Moldavian, Polish, Russian, Romanian, Slovakian, Hungarian and other national minority languages. At present there are 216 million publications in public libraries, including approximately 900 thousand in the national minority languages.

Paragraph 2

contains no provisions which could be a ground for implementation of the policy or adoption of actions designated for assimilation of the persons belonging to national minorities.

Article 6

The Parties shall encourage a spirit of tolerance and intercultural dialogue and take effective measures to promote mutual respect and understanding and co-operation among all persons living on their territory, irrespective of those persons' ethnic, cultural, linguistic or religious identity, in particular in the fields of education, culture and the media.

2. The Parties undertake to take appropriate measures to protect persons who may be subject to threats or acts of discrimination, hostility or violence as a result of their ethnic, cultural, linguistic or religious identity.

Paragraph 1

Recently a lot of attention has been paid to poly-cultural issues in Ukraine. In the current context one of the main tasks of teachers and tutors is to shift the focus to the common things, uniting Ukrainian citizens of different nationalities. Elements of history and the most important facts of the past of Belarusian, Bulgarian, Gagauz, Greek, Jewish, Crimean Tatar, Moldavian, German, Polish, Russian, Romanian, Slovakian, Hungarian and other peoples are studied by pupils in close relation to the history of the Ukrainians.

In order to enhance mutual understanding among all population groups, develop respect, understanding and tolerance to representatives of national minorities, racial and ethnic groups, the Ministry of Education and Science of Ukraine (MES), education administration authorities in the regions, pedagogical staff of educational establishments continuously work to develop in pupils tolerant attitude to the language, culture and beliefs of other nationalities.

In their awareness-raising activities teachers of general educational establishments are guided by the programme "Main Objectives in Awareness Raising among Pupils of Grades 1-11 of General Educational Establishments of Ukraine" (hereinafter referred to as the "Programme") which has been developed by the MES and establishes the focus areas, principles, objectives and contents of awareness-raising activities among pupils. One of the fundamental principles of awareness raising has been the principle of national orientation. Its implementation is related to development of the culture of inter-ethnic relations, tolerant attitude to the history, language, culture and beliefs of other nationalities residing in Ukraine and other states among pupils.

In pursuance of the main objectives and principles of the Programme, as well as in order to develop tolerance, including to language and cultural variety, the list of approximate awareness-raising themes includes the following:

for secondary school: "What Is Tolerance?", "Ukraine Is a Poly-Cultural State", "Many People, Many Minds", "Finding the Truth Instead of Conflicting", "Mutual Understanding. Its Basis", folk game contest "Games of the World Peoples";

The methodological recommendations on geography, history and ethics have been supplemented with the issues of introduction of inter-cultural education and religious diversity into the educational process, wherein the right of recognition of the unique nature and identity of each person and their spiritual world is emphasised.

Certain periods of history and culture of the peoples whose representatives have been living within the territory of Ukraine are included into the courses studied in the general educational establishments: Ukrainian History, World History, Geography, World Literature, Music Arts, Visual Arts, Artistic Culture. These courses are compulsory for pupils.

Also update of the contents of historical education, review of the standards and programmes for development of the new generation of text books based on poly-culture have been commenced.

In higher educational establishments regular awareness-raising activities are performed in order to prevent inter-ethnic, religious and racial intolerance, any displays of violence to foreign students, and awareness-raising meetings are held with students with regard to prevention of xenophobia and racism among students.

Development of tolerance via the system of educational establishments enables students to have a deeper insight in the cultures of different nationalities. The educational poly-cultural environment in higher educational establishments is based on new disciplines (courses): “Tolerance Pedagogics”, “Methodology of Tolerance Pedagogics”. The tolerance pedagogics knowledge gained by the students of higher educational establishments is improved at subjects “Professional Communication Culture”, “Culture of Mutual Relations”, “Speaking Culture” etc.

In order to improve prevention of xenophobia and racism among students, legal clinics which provide free legal assistance to students and citizens at law departments of higher educational establishments have been operating actively, and the contents of educational courses at law departments have been updated.

All-Ukrainian seminars dedicated to the issues of variety and inter-cultural education have been held, in the Cities of, Uzhhorod, Kyiv, Lutsk and Simferopol for the specialists of the regional, post-graduate pedagogical educational establishments. The text book “In the Crimean Home” and methodological recommendations on the educational course “Culture of Neighbourliness” have been published.

Within the framework of the project of the Information and Research Centre “Integration and Development” financed by the Office of the OSCE High Commissioner on National Minorities and the Government of Switzerland “Intercultural Education in Ukraine. Phase V”, development of the intercultural education in the border regions of Ukraine and applicability of adaptation and implementation of the course “Culture of Neighbourliness” thereto have been studied by the MES.

In seven regions creative groups have been established on the basis of regional post-graduate pedagogical educational establishments. Communications among individual regional institutions have been enhanced, in particular between the City of Kyiv and the Region of Kyiv. The project has also been joined by the Regions of Donetsk, Zaporizhzhia and Luhansk. Within the framework of the project two interregional work meetings of the creative groups were held in 2015 in order to approve the programme and methodology suite “Culture of Neighbourliness” (in April in Uzhhorod, in November in Odesa). Draft regional programmes for pre-school educational establishments “Ukrainian Wreath”, text books for the educational and methodological suite “Studying the World Together”, “For Children about Their Land” have been developed. The programme for awareness-raising classes for

teenagers “Me. Us. The Country” within the course “Culture of Neighbourliness” is now being approved, and the collection of methodological plans for awareness-raising classes for development of civil education is being followed up.

In addition, the MES has developed, approved and published workbooks for Grade 1 “Me, My Family. My Neighbours” within the course “Culture of Neighbourliness” to be approved in all regions included into the project at the expense of the project. Workbooks for Grade 5 for the Regions of Kyiv, Lviv and Odesa have also been prepared.

Nineteen six-day training seminars on the methodology for the course “Culture of Neighbourliness” were held in June-August 2015 in the Regions of Kyiv, Lviv, Skadovsk, Uzhhorod and Chernivtsi. 496 teachers were certified on the basis of its results.

Four seminars on the methodology for the programme “Me. Us. The Country” have been held in cooperation with the Embassy of Great Britain in Ukraine within the project “Ukrainian Peacebuilding School” in the Regions of Donetsk, Zaporizhzhia and Luhansk, and 103 teachers were additionally involved in the practical approval.

In general 475 schools (388 within the project) are taking part in the practical approval in 2015/2016 educational year, including almost 12,000 children (8,500 within the project).

In order to improve informational and educational work on non-discrimination and tolerance in district (city) educational systems, scientific and methodological recommendations “Core of Conflicts on the Grounds of Inter-Ethnic Animosity: Ways of Their Prevention and Settlement” have been developed by the regional scientific and methodological centres for practical psychology and social work.

Scientific and methodological seminars “Prevention of Development of Xenophobia and Racism among Children and Students” have been held for heads of district (city) psychological services, methodologists of methodology offices in charge of the psychological service and methodologists of district (city) methodology offices in charge of educational work.

Psychological services of the educational departments and administrations have conducted research in order to identify the level of aggression among teenagers and their tendency towards illegal actions as well as causes of xenophobia, racism and anti-Semitism in the Ukrainian society.

In addition, educational establishments are developing their partnership with national and cultural organisations in the area of preservation of the language, culture and traditions of national minorities. It is effected by means of various cultural and educational events (festivals, congresses, conferences, contests for the best knowledge of the native language and culture, publication of literature in different languages, and text books).

Representatives of national minorities regularly participate in all-Ukrainian exhibitions “Know and Love Your Land”, “Our Search and Creativity for You, Ukraine!”, which promote culture and traditions of different nationalities and peoples. They are arranged by the Ukrainian State Centre of Out-of-School Education.

The long-standing good tradition has been the International Inter-Ethnic

Children's Camp “Tolerance Sources” which is held in Ukraine on an annual basis, organised by the Congress of Ethnic Communities of Ukraine and partially financed by the state.

The purpose of the project is to develop inter-ethnic and inter-confession tolerance, combat xenophobia, form an active civic stance among children belonging to ethnic communities, and distribute knowledge on the ethnic diversity of Ukraine and other countries. The project unites children from more than twenty ethnic communities of Ukraine, Belarus, Moldova, Armenia and Georgia as well as refugee children. More than 130 teachers have mastered the tolerance development methodology.

One more long-term campaign which is annually held in the Ukrainian Children's Centre “Moloda Hvardiia” (City of Odesa) is the International Contest Festival of Children's and Youth Art “All of Us Are Your Children, Ukraine!”. Its purpose is state support of talented children and youth, development of intellectual and creative skills of Ukrainians and representatives of national minorities of Ukraine, students of Ukrainian origin from abroad. The contest festival is designated for development of love to their Motherland, tolerance and respectful attitude to cultural values of the Ukrainian nation and representative of other nationalities among the young generation.

The event includes the all-Ukrainian history and literature contest “My Motherland through the Eyes of Children from Different Ethnic Groups of Ukraine” with the participants of Russian, Belarusian, Bulgarian, Armenian, Polish, Georgian, Greek, Romani, Crimean Tatar and Gagauz origin and representatives of other religions.

Informational and educational work on development and promotion of tolerance, respect for culture, language, customs and traditions of different ethnic groups is also performed by the Ministry of Culture of Ukraine and state culture establishments (libraries, museums, musical establishments etc.).

The most efficient work in this area is performed by library establishments which arrange informational and educational events aimed at the development of respect for culture, history, language, customs and traditions of different ethnic groups and counteraction to discrimination on the grounds of race and ethnic group.

All informational and educational activities of libraries are designated for the development of tolerance, respect for culture, history, language, customs and traditions of different ethnic groups and counteraction to discrimination by means of distribution of knowledge, accessibility and openness of libraries for all population groups.

The rules for use of libraries provide for the citizens' equal rights for library services regardless of their sex, nationality, social status, political and religious beliefs, place of residence, as well as a number of benefits for the people in need of additional protection.

Below are some of the events held by the library establishments in 2015.

The National Parliamentary Library of Ukraine regularly develops methodological aids for teachers of general educational schools to prepare for themed communication classes dedicated to the increase in the level of civic awareness and issues of xenophobia, racial and ethnic discrimination, and bibliographic information

Paragraph 2

The Ukrainian Parliament Commissioner for Human Rights, the General Prosecutor's Office of Ukraine, the Security Service of Ukraine, the Ministry of Internal Affairs of Ukraine, within the framework of their authorities, control and supervise compliance with the laws and the non-discrimination principle in different areas of social relations, as well as investigate and solve unlawful actions with the elements of stirring up national, racial or religious hostility and intolerance.

After Law of Ukraine No. 5207-VI “On the Fundamentals of Prevention and Counteraction to Discrimination in Ukraine” had been adopted on September 6, 2012 and entered into force on October 4, 2010, the Ukrainian Parliament Commissioner for Human Rights was granted a number of additional and clearly defined authorities in counteraction to all forms of discrimination, thus having acquired the status of the national institution on these issues.

In particular, in accordance with Article 10 of this Law the Parliament Commissioner for Human Rights currently shall:

- control compliance with the non-discrimination principle in different areas of social relations, in particular in the private area;
- file applications on discrimination to court in order to protect social interests, and participate in the judicial proceedings on its own or via its attorney in the cases and pursuant to the procedure prescribed by the law;
- monitor and summarise the results of compliance with the non-discrimination principle in different areas of relations;
- examine applications of persons and/or groups on discrimination issues;

- account and summarise discrimination cases in different areas of relations;
- make proposals as to improvement of the laws on prevention of and counteraction to discrimination, application and termination of positive actions;
- draft opinions on discrimination cases upon request of the court;
- cover issues of prevention of and counteraction to discrimination and compliance with the non-discrimination principle in the annual report;
- cooperate with international organisations, respective authorities of foreign states on compliance with the international non-discrimination standards;
- exercise other authorities prescribed by the Constitution and laws of Ukraine.

For the purpose of efficient implementation of these authorities, the Strategy for Prevention -and Counteraction to Discrimination in Ukraine for 2014-2017 (hereinafter referred to as the “Strategy”) was approved with order of the Ukrainian Parliament Commissioner for Human Rights No. 23/02-13 dated November 15, 2013.

The general purpose of the Strategy is to provide for efficient application of mechanisms for protection against discrimination in Ukraine and promotion of respect for and compliance with the constitutional principle of equality and non-discrimination via the activities of the Parliament Commissioner for Human Rights.

In accordance with Decree of the Prosecutor General of Ukraine No. 57 dated 01.08.2008 and Deputy Prosecutor General of Ukraine No. 58 dated 13.05.2011, the Prosecutor General's Office consistently studies the progress of prosecutor's supervision over compliance with the legal provisions as to prevention of and counteraction to discrimination on the grounds of race, national origin and religious beliefs.

The Prosecutor General's Office states that cases of breach of equality of rights of citizens on grounds of their race or national origin or religious beliefs are accidental in Ukraine.

It is confirmed with the fact that in 2010 the prosecution authorities initiated six criminal proceedings on the basis of the crime under Article 161 of the Criminal Code of Ukraine (CCU), and two of them were transferred to the court. In 2010 the investigation officers of the internal affairs authorities initiated two criminal proceedings.

In 2011 the prosecution authorities initiated two criminal proceedings under Article 161 of the CCU which were transferred to the court, and the guilty persons were convicted.

The subdivisions of the internal affairs authorities had three criminal proceedings related to the crimes committed on the grounds of racial, national or religious intolerance in progress in 2011. All the proceedings were transferred to the court.

In 2012 the prosecution authorities initiated three criminal proceedings under Article 161 of the CCU (regions of Vinnytsia, Odesa and Chernivtsi) on the grounds of racial and national intolerance.

In particular, on 03.03.2012 the prosecutor's office of the City of Odesa initiated criminal proceedings under Part 1 Article 161, Part 1 Article 263 of the CCU on the basis of distribution of the brochure “Violation of Oneness of God” with the calls to religious hostility and hatred by the heads of the organisations “Straight Way”.

The criminal proceedings as to two persons accused of having committed the crimes under Part 1 Article 161, Part 1 Article 263 of the CCU were transferred to the court on 20.06.2012 with the verdict of “guilty”. The guilty persons were convicted.

In 2012 the investigation officers of the internal affairs authorities investigated two criminal proceedings on the crimes against life committed on the grounds of racial or national intolerance which were transferred to the court with the verdicts of “guilty”.

In 2013 the prosecution authorities entered one notice of the criminal offence related to violation of equal rights of citizens on the grounds of racial, national independence or religious beliefs into the Unified Register of Pre-Trial Investigations.

According to the Unified Register of Pre-Trial Investigations, in 2013 the investigation subdivisions of the internal affairs authorities had sixty-two criminal proceedings on the offences related to violation of the laws on prevention of racial and national intolerance in progress.

Forty-four criminal proceedings were closed on the basis of Part 1 Clause 284 of the Criminal Procedural Code of Ukraine (absence of elements of the criminal offence) as a result of the investigation.

Three criminal proceedings of the given category were transferred to the court (one under Part 2 Article 161 of the CCU, and two under Part 2 Article 129 of the CCU).

In 2013 the first-instance court adopted decisions on six cases as to fifteen people accused of having committed the crimes related to racial and national intolerance.

The Security Service of Ukraine regularly takes measures to prevent xenophobia which may entail destabilisation in the society.

Special attention is paid to prevention of such offences and assistance to the law enforcement bodies in solution of offences committed on the grounds of ethnic animosity.

From 2012 until the first quarter 2014 the Security Service of Ukraine registered sixty-four cases which may pertain to violation of the rights and freedoms of citizens of other nationalities or damage to the buildings, landmarks, houses of worship of public organisations of national minorities and religious organisations.

However, the majority of unlawful actions were not based on the national or religious belonging, were of domestic nature and were committed under influence of alcohol.

Due to social and political escalation in the country, xenophobia could significantly grow in Ukraine at the end of 2013 and the beginning of 2014. In accordance with the Security Service of Ukraine, the incidents which occurred during that period were of evidently provocative nature and were preconditioned by the attempts of individual political forces to destabilise the situation.

The Ministry of Internal Affairs of Ukraine takes measures to prevent destructive activities of radical religious and political organisations, including foreign ones, to counteract racism and xenophobia, to identify the offences with such elements, and takes measures to hold the guilty persons liable. The Ministry of

Internal Affairs of Ukraine also regularly monitors the situation in the youth community, identifies the leaders, active participants and other members of radical organisations and their supporters.

At the same time, taking into account the significance of identification of offence of this category, the Main Investigation Department of the National Police has developed the Methodological Recommendations “Specifics of Investigation into the Crimes Committed on the Intolerance Grounds” which are being implemented.

In accordance with the Unified Register of Pre-Trial Investigations, during eleven months of 2015 the subdivisions of the National Police of Ukraine initiated sixty-six criminal proceedings on seventy criminal offences committed on the grounds of racial, national and religious intolerance. The criminal offences under Article 161 of the CCU have amounted to forty-five (64 %) out of the total number in this category.

The measures taken by the public authorities and law enforcement bodies have promoted maintenance of the tendency as to irregularity: identification of accidental facts of racial and national intolerance, which is also confirmed with the opinions of the international public organisations studying these issues, in particular international Jewish organisation “Simon Wiesenthal Center” and “Euro-Asian Jewish Congress”.

Article 7

The Parties shall ensure respect for the right of every person belonging to a national minority to freedom of peaceful assembly, freedom of association, freedom of expression, and freedom of thought, conscience and religion.

The laws of Ukraine guarantee all citizens the right to freedom of peaceful assembly, freedom of association, freedom of expression, and freedom of thought, conscience and religion.

In accordance with Part 1 Article 36 of the Constitution of Ukraine, citizens of Ukraine shall have the right to freedom of association into political parties and public organisations for exercising and protecting their rights and freedoms and for satisfying their political, economic, social, cultural and other interests, with the exception of restrictions established by law in the interests of national security and public order, protection of public health, or protection of rights and freedoms of other persons.

In pursuance of the constitutional principles, on March 22, 2012 the Verkhovna Rada of Ukraine adopted the Law of Ukraine “On Public Associations” which prescribes the legal and organisational framework for exercising the right to freedom of association, the procedure for establishment, registration and termination of public associations. The law provides for the new concept of registration of public associations which enables avoiding lengthy and complicated double registration procedure. It specifies all stages of the registration procedure for public associations, includes the exhaustive list of the documents necessary therefor as well as grounds for rejection of registration.

The current stage of self-organisation of national minorities is characterised by the stable high level. In accordance with the local authorities, as of January 1, 2016 there

were 1,314 public associations of national minorities in Ukraine¹, and 49 out of them have an all-Ukrainian or international status².

The list of public associations which unite the organisations representing interests of different national communities has expanded lately. At present they include the Assembly of Nationalities of Ukraine, the Association of National and Cultural Unions of Ukraine, the Congress of National Communities, the International Public Organisation “International Union”, and the Council of National Communities of Ukraine.

Public associations are free to hold their meetings. In particular, the following meetings have been held for the last few years: congress of the Federation of Greek Societies of Ukraine (2012), 5th congress of the Germans of Ukraine (2013). 3rd All-Ukrainian Forum of Organisations “United Expatriate Community of the Azerbaijanians of Ukraine” (2014), the annual work meetings of the heads of Lithuanian societies of Ukraine (2014), the third Meeting of the Romanian Congress of Ukraine (2014), and the Congress of Jewish Organisations of Ukraine (2014).

When analysing activities of public associations of national minorities of Ukraine, it shall be stated that their vast majority take active part in state formation processes and assist in inter-ethnic consolidation and unity.

Article 8

The Parties undertake to recognise that every person belonging to a national minority has the right to manifest his or her religion or belief and to establish religious institutions, organisations and associations.

Ukraine is a poly-confession state based on common international standards in its attitude to religion, recognises equality of all religious and beliefs and promotes activities of the religious organisations which represent them to the maximum extent.

In accordance with the Constitution of Ukraine (Article 35), religious organisations shall be separated from the state, so they are not given any financial or another direct or indirect support from the state.

State control over compliance with the laws of Ukraine on freedom of conscience is effected by executive authorities and local self-government bodies. Starting from 2011 the specially designated central executive authority in charge of development and implementation of the state religion policy is the Ministry of Culture of Ukraine.

As of January 1, 2016 the religious network of Ukraine is represented by 35,709 religious organisations exercising Christianity, Islam, Judaism, Buddhism, ethnic religious beliefs and new religious movements³.

Some of the religious organisations (in particular reformers, Lutherans, Judaists, Muslims etc.) from the general religious network of the state have clear ethnic-confessional features.

¹ Without the Autonomous Republic of Crimea. As for the Regions of Donetsk and Luhansk, the public associations operating within the territory controlled by the Ukrainian government have been specified.

² The list of public organisations with the all-Ukrainian and international status is presented in Part 3 of the Report.

³ The statistical data on the network of religious organisations in Ukraine (without the autonomous Republic of Crime and City of Sevastopol) as of January 1, 2016 are given in Part 3 of the Report.

The geography of distribution of ethnic-confessional religious organisations covers all the regions of the state. In particular, the Judaist communities operate in all regions, the German Evangelic Lutheran Church – in seventeen regions, the Armenian Apostolic Church – in nineteen regions. Certain religious organisations are located in compact settlements of the respective national minority, including the Zakarpattia Reformist Church (Region of Zakarpattia), the Karaites (Regions of Dnipropetrovsk and Kharkiv and the City of Kyiv). There are also ethnic-confessional Korean communities (Korean Christian Methodist Church – Region of Poltava).

31,851 priests, including 804 foreigners, are in charge of affairs of the religious organisations. Activities of the religious organisations are covered by 484 periodic editions, including 329 printed ones, 29 audio-visual ones and 133 electronic ones.

Paragraph 1

In accordance with the Regulations on the Ministry of Culture of Ukraine approved with Resolution of the Cabinet of Ministers of Ukraine No. 495 dated September 3, 2014, the Ministry of Culture of Ukraine is the main body in the system of central executive authorities which provides for the development and implementation of the state language policy.

In accordance with Article 92 of the Constitution of Ukraine, the procedure for use of the languages shall be established by the laws of Ukraine only.

On July 3, 2012 the Verkhovna Rada of Ukraine adopted the Law of Ukraine No. 5029 “On the Fundamentals of the State Language Policy”.

The Law stipulates that the state language policy of Ukraine shall be aimed at regulation of social relations in the area of comprehensive development and use of Ukrainian as the state language, regional languages or minority and other languages spoken by the population of the country in the public, economic, political and social life, interpersonal and international communication, protection of constitutional rights of citizens in this area, development of respectful attitude to national dignity of a person, his or her language and culture, and enhancement of unity of the Ukrainian society.

Article 3 of the Law grants each citizen of Ukraine the right to freely decide on the native language and choose the communication language as well as recognise himself or herself to be bi- or multi-lingual and change language preferences.

Each citizen of Ukraine regardless of ethnic origin, national and cultural self-identity, place of residence, religious beliefs may freely use any language in social and private life, study and support any language.

Article 5 of the Law stipulates that the state language policy shall be based on the recognition and comprehensive development of the Ukrainian language as the state language, while guaranteeing free development of regional or minority languages, other languages as well as the right of language self-determination and language preferences of each person.

The fundamental principles and purposes of the language policy include:

- promotion of use of regional or minority languages in speech and writing in education, mass media and establishment of opportunities for their use in activities of public authorities and local self-government bodies, in legal proceedings, economic and social activity, cultural events and other spheres

- provision for conditions to study regional or minority languages and teaching in these languages with account of the situation of each language at relevant educational levels in state and communal educational establishments;
 - respect for the geographical area of each regional or minority language in order to ensure that existing or new administrative divisions do not hinder promotion of the regional or minority languages;
 - application of the plurilingualism within the framework of which each person in the society speaks several languages fluently as opposed to the situation when certain language groups speak their language only.

Article 7 of the Law states that in the context of the European Charter for Regional or Minority Languages, the regional or national minority languages of Ukraine covered by the measures designated for use of regional or minority languages include the Belarusian, Bulgarian, Armenian, Gagauz, Hebrew, Karaite, Crimean Tatar, Krymchak, Moldavian, German, New Greek, Polish, Romani, Russian, Romanian, Slovakian, Hungarian and Rusyn languages.

After this Law had been adopted, the local self-government bodies were enabled to take decisions on recognising certain languages as regional within their territory under certain conditions prescribed by the Law.

The Bulgarian language has been recognised as regional by the Znamianka City Council and one village council in the District of Vilshanka (Region of Kirovohrad).

Hungarian-speaking citizens may submit oral or written statements to the district state administrations in the Hungarian language.

Within the territories where the Hungarian language is used, the criterion of speaking the state and Hungarian languages is taken into account in recruitment. For instance, in the local self-government bodies and other public structures of the City of Berehove where 48,1 % of Hungarians reside approximately 90 % of officials speaking the Hungarian language work.

The Romanian language is used alongside with the Ukrainian state language in the rural settlement and village councils of the District of Tiachiv and Rakhiv in the Region of Zakarpattia where compact settlements of the Romanian national minority are located. For instance, in the Izmail City Council information and reference materials on administrative services (printed forms and clarifications) are bilingual (in Ukrainian and Russian). Translation into Russian is made in the Bolhrad City and District Councils when necessary.

Decisions (acts) of the Izmail and Bolhrad City Councils and the Bolhrad District Council are taken and published in the Ukrainian and Russian languages. Texts of announcements are placed on pages of official publications and websites of the regional and district state administrations, regional, district, city and town councils in the Ukrainian and Russian languages. The Odesa Regional Television and Radio Company broadcasts texts of official announcements in the state and Russian languages.

In the District of Novoselytsia in the Region of Chernivtsi records in the district state administration are kept in the state language. At the same time, the language of the majority of population in the district, the Romanian one, is used. Responses to written or oral applications of citizens in the Romanian language are given in the same language.

In accordance with the mass media, Ukrainian text books are burnt down or destroyed.

Teaching in Ukrainian and Crimean Tatar is not effected in high school (in accordance with the laws of the Russian Federation).

Article 15

The Parties shall create the conditions necessary for the effective participation of persons belonging to national minorities in cultural, social and economic life and in public affairs, in particular those affecting them.

On October 16, 2012 the Verkhovna Rada of Ukraine adopted the Law of Ukraine No. 5461 “On Amending Certain Legislative Acts of Ukraine as to Activities of the Ministry of Justice of Ukraine, Ministry of Culture of Ukraine, Other Central Executive Authorities Activities of Which Are Directed and Coordinated by Respective Ministers as well as the State Space Agency of Ukraine”.

In accordance with Article 5 as amended, the public policy in the area of inter-ethnic relations and protection of the national minorities' rights in Ukraine shall be developed and implemented by central executive authorities appointed by the President of Ukraine. If necessary, permanent commissions on inter-ethnic relations may be established by local councils, and respective structural subdivisions may be established by local state administrations.

At the same time, being deeply concerned about the consequences of the Russian aggression in Crimea and the events which still continue in the east of Ukraine, in 2014 the government of the state introduced a number of the initiatives designated to provide for enhanced coordination and communication among the public authorities and civil society institutions, first and foremost, national minorities' organisations, in the tense social and political context in order to maintain inter-ethnic unity in Ukraine and confirm that national minorities' rights are an integral priority of our state.

On June 4, 2014 the Cabinet of Ministers of Ukraine adopted Resolution No. 195 “On Establishment of the Council for Inter-Ethnic Accord” which approved its Regulations and members.

The Council for Inter-Ethnic Accord (hereinafter referred to as the “Council”) is

an advisory body of the Cabinet of Ministers of Ukraine. It is chaired by the Vice Prime Minister of Ukraine in accordance with the distribution of functional duties.

There are sixty-one members of the Council who are representatives of some central executive authorities (Ministry of Culture, Ministry of Justice, Ministry of Internal Affairs, Ministry of Social Policy, Ministry of Education and Science, Ministry of External Affairs, Ministry of Finance), representatives of national minorities' public associations (thirty-five people) and scientists.

The principal tasks of the Council are: to encourage ensuring of coordination of actions of executive authorities on issues of the state ethnic and national policy, protection of rights of national minorities and indigenous communities; to develop proposals on development and implementation of the state ethnic and national policy designated for compliance with the rights of national minorities and indigenous communities, to maintain inter-ethnic accord in the Ukrainian society, to prevent inter-ethnic conflicts, discrimination on the grounds of race, nationality, language and religion; to improve laws on relevant issues.

Another advisory body the authorities of which include without limitation protection of national minorities is the Public Board under the Ministry of Culture of Ukraine which includes one hundred and twenty civil society representatives fourteen out of whom represent public organisations of national minorities.

The operating agency of the Public Board is the Commission for Inter-Ethnic Relations. Twenty-four public organisations representing interests of different ethnic communities, in particular Belarusians, Jews, Russians, Hungarians, Polish, Chechen etc. are included into the Commission. The Commission operates in the form of meetings which are held once a quarter with participation of representatives of national minorities and heads of the Ministry of Culture of Ukraine as well as employees of the division for national minorities and Ukrainian expatriate community of the Department for Religions and Nationalities which is a structural subdivision of the Ministry of Culture of Ukraine the authorities of which include the issue of inter-ethnic relations and protection of the national minorities' rights.

Another form of cooperation between the Ministry of Culture of Ukraine and national minorities which provides for prompt response to their needs is direct work meetings between the heads and specialists of the Ministry with the heads and activists of national minorities' public associations. In 2015 only more than one hundred meetings with participation of the representatives of the Bulgarian, German, Polish, Jewish, Romani, Armenian, Lithuanian, Chechen, Arab and other national communities were held.

At the same time, in order to find more efficient mechanisms for cooperation between the Ministry of Culture of Ukraine and representatives of national minorities, the Ministry of Culture of Ukraine holds consultations with the representatives of the national minorities' public associations as to establishment of the advisory board under the Ministry of Culture in the updated format.

Public boards as well as boards of representatives of national minorities' public organisations equivalent to those mentioned above in certain regions operate at all regional state administrations.

As of January 1, 2016 there were thirty-five advisory boards under the regional

state administrations.

The Public Council of Heads of Educational Programmes of All-Ukrainian Public Organisations continues its work under the Ministry of Education and Science.

In order to increase efficiency of implementation of the Action Plan for Implementation of the Strategy for Protection and Integration of the Romani National Minority into the Ukrainian Society for the Period until 2020 approved by Decree of the Cabinet of Ministers of Ukraine No. 701 dated 11.09.2013, on November 25, 2015 Inter-Departmental Working Group for Implementation of the Strategy for Protection and Integration of the Romani National Minority into the Ukrainian Society for the Period until 2020 (hereinafter referred to as the “Inter-Departmental Working Group”) was established.

The Inter-Departmental Working Group has the status of the advisory body of the Cabinet of Ministers of Ukraine headed at the level of the Vice Prime Ministers of Ukraine, the Minister of Culture of Ukraine.

The Inter-Departmental Working Group was first and foremost created to establish close cooperation between the executive authorities and Romani public organisations in order to ensure prompt response and settle the so-called Romani issues.

At present the Ministry of Culture which is in charge of organisational and informational provision for operation of the Inter-Departmental Working Group is forming its personal structure.

As for other forms of engagement of the persons belonging to national minorities into administration decision making processes, it shall be noted that in accordance with Clause 1 § 42 of the Regulations of the Cabinet of Ministers of Ukraine approved by Resolution of the Cabinet of Ministers of Ukraine No. 950 dated July 18, 2007, the drafter of the draft law or regulation of the Cabinet of Ministers of Ukraine shall arrange public discussion of the draft projects of public significance which are related to the citizens' rights and freedoms.

For instance, the representatives of the national minorities' public associations were engaged in drafting an Action Plan for Implementation of the Strategy for Protection and Integration of the Romani National Minority into the Ukrainian Society for the Period until 2020, the National Human Rights Strategy and the Action Plan for Implementation of the National Human Rights Strategy.

Article 16

The Parties shall refrain from measures which alter the proportions of the population in areas inhabited by persons belonging to national minorities and are aimed at restricting the rights and freedoms flowing from the principles enshrined in the present framework Convention.

Ukraine takes no measures aimed at restricting the rights and freedoms of national minorities. In accordance with Article 22 of the Constitution of Ukraine, “The content and scope of the existing rights and freedoms shall not be diminished by an adoption of new laws or by introducing amendments to the effective laws”.

No measures which alter the proportions of the population in areas inhabited by persons belonging to national minorities are taken either.

Article 10 of the Law “On National Minorities in Ukraine” states, “The state guarantees to the national minorities the right to maintenance of their living environment in the areas of their historical and present-day settlement. The issue of return of representatives of the deported people to the territory of Ukraine shall be settled by respective legislative acts and agreements between Ukraine and other states.”

Article 17

1. The Parties undertake not to interfere with the right of persons belonging to national minorities to establish and maintain free and peaceful contacts across frontiers with persons lawfully staying in other States, in particular those with whom they share an ethnic, cultural, linguistic or religious identity, or a common cultural heritage.

2. The Parties undertake not to interfere with the right of persons belonging to national minorities to participate in the activities of non-governmental organisations, both at the national and international levels.

Paragraph 1

The Ukrainian laws guarantee the right of free transfrontier contacts between national minorities and the persons with whom they share an ethnic, cultural, linguistic or religious identity or a common cultural heritage.

In accordance with Article 15 of the Law “On National Minorities in Ukraine”, “the citizens belonging to national minorities, national public associations shall be free to establish and maintain contacts with the persons of the same ethnic origin and their public associations beyond Ukraine, be assisted in satisfaction of linguistic, cultural, spiritual needs, and participate in activities of international non-governmental organisations as prescribed by the laws of Ukraine”.

In practice executive authorities support these provisions by arranging participation of representatives of national minorities' public organisations in various international events. In particular, the persons belonging to national minorities are free to participate in cultural and art campaigns (festivals, contests), celebrations dedicated to significant historical events, anniversaries, opening of monuments and memorial signs, holding of international themed scientific conferences, meetings, symposiums arranged by international organisations or the country which the national minority historically originates from.

For instance, for the last two years the representatives of public organisations have participated in: the Annual Human Dimension Implementation Meeting of the Organisation for Security and Cooperation in Europe (City of Warsaw, Republic of Poland); the first “World Conference on Indigenous Peoples” (City of New York, USA); seminars “International Relations and National Protection of National Minorities' Rights and Their Role in Promotion of Equality” (City of Minsk, Republic of Belarus); plenary sessions of the CE Ad hoc Committee of Experts on Roma and Travellers Issues/CAHROM.

The local authorities of the border regions (Volyn, Zakarpattia, Lviv, Chernivtsi, Odesa, Kharkiv) keep promoting the establishment and maintenance of contacts of public associations of the national minorities of Ukraine and individual representatives of the national minorities with the respective public organisations in

the countries which are their historical motherland.

The establishment of transfrontier contacts of the representatives of the national minorities with the persons with whom they share an ethnic, cultural, linguistic or religious identity, as well as a common cultural heritage is also promoted by inter-governmental treaties on the rules for local border traffic. Such treaties have been executed with Hungary, Poland and Slovakia.

Transfrontier cooperation among communities is performed by establishing partnership connections among border regions, activation of inter-regional cooperation in all economic areas and establishment of personal contacts. One of the tools of transfrontier cooperation is participation of territorial communities in associations of European regional cooperation and implementation of joint transfrontier projects and programmes by non-government public organisations.

For instance, in the Region of Zakarpattia more than ninety tours of amateur folk and professional ensembles, individual performers and artists of the region abroad Ukraine were made in 2011-2013, and more than twenty-five tours were made in 2014 in order to maintain friendly creative ties, exchange working experience and participate in cultural and art campaigns. Trips have been made at the expense of the funds allocated from the regional budget, of sponsors, donors, religious communities etc.

In May 2011 within the framework of the ENPI Transfrontier Cooperation Programme the Ukrainian and Slovakian project “Education and European Values” was initiated to be implemented by the Centre for European Integration and Transfrontier Cooperation of the City of Mukacheve in the Region of Zakarpattia, Ukraine, and the boarding school in the City of Kosice, the Slovak Republic.

Within the framework of the international transfrontier cooperation project “European School of Experience Exchange” (Hungary, Slovakia, Romania, Ukraine 2007-2013), the Uzhhorod General Educational School of 1st-3rd Degrees No. 5 with enhanced education in French and English of the Uzhhorod City Council cooperates with the Secondary Technical School of the City of Snina (Presov Region, Slovakia).

At the same time, events aimed at exchange of groups of scientists, teachers, students, pupils for participation in conferences, seminars, trainings, retraining courses, academic competitions etc. between neighbouring states are regularly held in the Region of Zakarpattia. The Day of Neighbourliness is traditionally celebrated at the borders between Ukraine and Slovakia and Ukraine and Hungary.

Paragraph 2

Ukraine does not interfere with exercising the right of persons belonging to national minorities to participate in the activities of non-governmental organisations, both at the national and international levels.

Article 18

- 1. The Parties shall endeavour to conclude, where necessary, bilateral and multilateral agreements with other States, in particular neighbouring States, in order to ensure the protection of persons belonging to the national minorities concerned.**
- 2. Where relevant, the Parties shall take measures to encourage transfrontier co-operation.**

Paragraphs 1, 2

In accordance with Article 17 of the Law of Ukraine “On National Minorities in Ukraine”, the state promotes development of international cooperation in the area of provision and protection of the rights and interests of national minorities by conclusion and performance of multilateral and bilateral agreements.

Protection of national minorities' rights is ensured by the following inter-state agreements of Ukraine: Treaty on Friendship, Cooperation and Partnership between Ukraine and Russian Federation (Article 12), Treaty on the Relations of Good Neighbourliness and Cooperation between Ukraine and Romania (Article 13), Treaty on Good Neighbourliness, Friendly Relations and Cooperation between Ukraine and the Slovak Republic (Article 18), Treaty on the Bases of Neighbourliness and Cooperation between Ukraine and the Republic of Hungary, Treaty between Ukraine and FRG on Cooperation in Affairs of the Persons of German Origin Residing in Ukraine.

 - Executive Protocol No. 7 to the Cooperation Memorandum between the Zakarpattia Regional State Administration, Zakarpattia Regional Council (Ukraine) and Kosice Self-Governing Region (Slovak Republic) for the Period from May 2015 until May 2016.

Article 19

The Parties undertake to respect and implement the principles enshrined in the present framework Convention making, where necessary, only those limitations, restrictions or derogations which are provided for in international legal instruments, in particular the Convention for the Protection of Human Rights and Fundamental Freedoms, in so far as they are relevant to the rights and freedoms flowing from the said principles.

City of Kyiv
November 25, 2015
No. 824-VIII

APPROVED
by Resolution of the Verkhovna Rada of
Ukraine
dated November 25, 2015 No. 824-VIII

**RECOMMENDATIONS
of the Parliamentary Hearings on the Theme “Role, Importance
and Impact of the Civil Society on Development of the
Ethnic National Policy of Unity in Ukraine”**

The participants of the parliamentary hearings on the theme “Role, Importance and Impact of the Civil Society on Development of the Ethnic National Policy of

Unity in Ukraine” held on March 11, 2015 have recognised unconditional priority of the issues covered and topicality of implementation of the state consolidation policy in the poly-ethnic, multi-confession Ukrainian society.

Occupation of the part of the territory of Ukraine and the military conflict in the east of the state have significantly affected protection of the rights and interests of the part of the population of the country and disrupted the balance in inter-confession and inter-ethnic relations. In this context topical issues of the state ethnic and national policy require a balanced approach to the development of mechanisms for their solution.

Ukraine is a state with the rich cultural heritage and substantial cultural, linguistic and ethnic differences, primarily of the regional nature. The current ethnic and national policy is aimed at consolidation of the society by providing for the equality of rights of citizens of Ukraine of any nationality. Guarantee of protection of rights of all ethnic communities, maintenance and development of their national identity is the principal condition for the establishment of peace and accord in the Ukrainian society.

The main purpose of consolidation is general national unity and dialogue for the sake of preservation of the constitutional arrangement, territorial integrity of Ukraine, restoration of peace in all regions of our state.

The participants of the parliamentary hearings have emphasised the need for proper legislative support for the ethnic and national policy by increasing interaction between public authorities and ethnic communities of Ukraine. The special role in such policies is played by public institutions as universal forwarders of all opinions, ideas and beliefs prevailing in the society.

Civil society institutions have to become the state's partner in national and cultural development of all ethnic communities in order to provide for peace and accord in the Ukrainian society.

The participants of the parliamentary hearings have come to a conclusion that the current state ethnic and national policy is inefficient without the conceptual substantiation of directions, priorities, tasks and purposes.

The concept of the ethnic and national policy shall be based on achievements of Ukrainian scientists. Special attention in this document shall be paid to the role of the civil society in development and implementation of the consistent policy of ethnic and national unity in Ukraine.

When recognising the legal status of civil society institutions, forms of their interconnections with the state shall be clearly defined, and, what is most important, the most efficient mechanism for implementation of their achievements shall be established, and they shall be granted a status of the entity of the state ethnic and national policy.

The participants of the parliamentary hearings have come to the common opinion on improper institutional provision for the ethnic and national policy of unity of Ukraine. In particular, activities of the Government Commissioner on Ethnic and National Policy duplicate certain functions of the Ministry of Culture of Ukraine. It is actually not engaged in the general procedure for development and adoption of governmental decisions in the respective area.

In order to arrange implementation of the state ethnic and national policy, the central executive authority in charge of this important sphere of social life shall be established alongside with territorial bodies in the regions.

In the opinion of the participants of the parliamentary hearings, popularisation of political consolidation of elites around the common purpose, i. e. ethnic and cultural consolidation of the Ukrainian society, is ultimately topical as it will enable putting an end to application of de-consolidation factors as a political technology, refusing from the radical and intolerant rhetoric as to certain ethnic, religious and language groups.

The participants of the discussion have agreed that one of the urgent tasks of the state and public society is to establish favourable conditions for recovery and development of authenticity, ethnic and cultural achievements, promotion of artistic and creative fulfilment of Ukraine.

Having discussed the role, importance and impact of the civil society on development of the ethnic national policy of unity in Ukraine, the participants of the parliamentary hearings recommend:

Implementation of the State Policy for Protection of the Rights of the Crimean Tatars and Persons Deported on National Grounds

Ukraine has recently adopted a number of important measures in order to govern the rights and freedoms of the Crimean Tatars and persons deported on the national grounds on the legislative level.

On March 20, 2014 the Verkhovna Rada of Ukraine adopted the Resolution “On the Statement of the Verkhovna Rada of Ukraine on Guaranteeing the Rights of the Crimean Tatars within the Ukrainian State” in accordance with which Ukraine guarantees maintenance and development of the ethnic, cultural, linguistic and religious identity of the Crimean Tatars as an indigenous people and all national minorities of Ukraine.

This resolution recognises the Mejlis of the Crimean Tatar People to be the executive body of the Assembly of the Crimean Tatar People, and the Assembly to be the supreme representative authority of the Crimean Tatars.

May 18 was declared the Day of Protection of the Rights of the Crimean Tatars to be celebrated each year, on the basis of Decree of the President of Ukraine No. 472 dated May 16, 2014.

The State Service of Ukraine for the Autonomous Republic of Crimea and the City of Sevastopol was established as a central executive authority by Resolution of the Cabinet of Ministers of Ukraine No. 297 dated 17.07.2014.

In order to provide for the proper conditions for exercise of the constitutional rights of the Crimean Tatars, the position of the Commissioner of the President of Ukraine for the Affairs of Crimean Tatars was established by Decree of the President of Ukraine No. 656 dated August 20, 2014. Mustafa Dzhemiliev held the office (Decree of the President of Ukraine No. 657 dated August 20, 2014).

On November 3, 2014 the Regulations on the Commissioner of the President of Ukraine for the Affairs of Crimean Tatars were approved by Decree of the President of Ukraine No. 841. The principal tasks of the Commissioner are:

In order to legislatively establish the legal grounds for regulation and implementation of the state policy in the return, accommodation and restitution of rights of the persons deported on the national grounds, on April 17, 2014 the Verkhovna Rada of Ukraine adopted the Law of Ukraine No. 1223 “On Restitution of the Rights of People Deported on the National Grounds”.

This Law grants state guarantees to the deported persons as to their settlement within those administrative units where they or their close relatives resided as of the time of the deportation.

Additional benefits are given to the persons who have retired or are disabled.

The substantial part of these state guarantees and benefits is governed by regulatory acts of the Cabinet of Ministers of Ukraine, namely:

- Resolution of the Cabinet of Ministers of Ukraine No. 626 dated May 13, 2004 “On the Measures for Satisfaction of Social Needs of the Deported Crimean Tatars and Persons of Other Nationalities Who Have Returned to Ukraine for Permanent Residence” which approved the Procedure for Compensation for Travel Expenses and Carriage of Luggage to the Deported Crimean Tatars and Persons of Other Nationalities and Their Family Members Who Have Returned to Ukraine for Permanent Residence, and the Procedure for Provision of the Non-Recurring Financial Aid for Completion of Construction of Individual Housing to the Deported Crimean Tatars and Persons of Other Nationalities and Their Family Members Who Have Returned to Ukraine for Permanent Residence;
- Resolution of the Cabinet of Ministers of Ukraine No. 1952 dated December 17, 2003 which approved the Procedure for Provision of the Deported Persons and Their Family Members Who Have Returned to Ukraine with Accommodation Constructed or Purchased at the Expense of the Budget Funds;
- Resolution of the Cabinet of Ministers of Ukraine No. 514 dated June 6, 2012 which approved the Programme for Settlement and Accommodation of

Deported Crimean Tatars and Persons of Other Nationalities Who Have Returned to Reside in Ukraine, Their Adaptation and Integration into the Ukrainian Society, for the Period until 2015.

Before entry into force of the individual provisions of the Law of Ukraine “On Restitution of the Rights of the Persons Deported on the National Grounds”, on November 12, 2014 the Cabinet of Ministers of Ukraine adopted Resolution No. 643 “On Approval of the Procedure for Granting and Depriving of the Status of the Person Deported on the National Grounds”.

At present the Ministry of Social Policy of Ukraine has developed the Draft Resolution of the Cabinet of Ministers of Ukraine “On Approval of the Procedure for Return of the Property or Reimbursement for Its Cost to the Persons Deported on the National Grounds”, and is also amending the Law of Ukraine “On Compulsory Pension Insurance” in terms of the inclusion of the period of stay at the special settlement to the qualifying period in a three-fold amount.

An important focus area of the state policy has been activities on establishment of the necessary conditions for return, accommodation, social adaptation and integration into the Ukrainian society of the Crimean Tatars, Bulgarians, Armenians, Greeks and Germans deported from the territory of Ukraine on the national grounds in the USSR times.

In accordance with the law enforcement bodies of Ukraine, as of January 1, 2014 275,323 persons who had been deported on the national grounds, including 270,416 Crimean Tatars, 4,907 Bulgarians, Armenians, Greeks and Germans, resided in the Autonomous Republic of Crimea.

Almost 4,000 Crimean Tatars resided in the City of Sevastopol, and 7,000 Crimean Tatars resided in the Region of Kherson.

Approximately 100 thousand Crimean Tatars who might intend to return to the Autonomous Republic of Crimea reside outside Ukraine (with the majority residing in Uzbekistan).

The number of the Crimean Tatars who annually return to the Autonomous Republic of Crimea is about 1,500 people.

Social and economic issues related to the return of the deported Crimean Tatars and persons of other nationalities shall be resolved under the Programme of Settlement and Accommodation of Deported Crimean Tatars and Persons of Other Nationalities Who Have Returned to Reside in Ukraine, Their Adaptation and Integration into the Ukrainian Society, for the Period until 2015. In pursuance of the tasks of this Programme the Ministry of Social Policy of Ukraine has been annually allocated the funds from the State Budget of Ukraine.

In 2011-2013 a number of social and cultural events for the persons deported on the national grounds were held with state financial support within the Programme.

In 2011 the funds were allocated for the following Crimean Tatar publications: newspaper “Krym” (UAH 340.0 thousand), magazine “Kasavet” (UAH 90.0 thousand), and magazine “Arzu” (UAH 63.9 thousand).

In 2012 the funds were allocated for the following Crimean Tatar publications: newspaper “Krym” (UAH 335.3 thousand), magazine “Kasavet” (UAH 18.0 thousand), magazine “Arzu” (UAH 35.0 thousand), magazine “Tasil” (UAH 40.0

thousand), and children's magazine “Armanchyk” (UAH 38.9 thousand).

In 2013 the funds were allocated for the following Crimean Tatar publications: newspaper “Krym” (UAH 319.6 thousand), magazine “Tasil” (UAH 19.8 thousand), children's magazine “Armanchyk” (UAH 35.4 thousand), newspaper “Maarif isleri” (UAH 67.2 thousand), magazine “Anna tili odjalarina” (UAH 25.0 thousand), for publication of the Armenian magazine “Holub Masisa” (UAH 69.0 thousand), German newspaper “Hoffnung” (UAH 60.0 thousand), and the Greek newspaper (UAH 54.6 thousand).

The expenses allocated from the State Budget of Ukraine for 2014 for the events under the Programme of Settlement and Accommodation of Deported Crimean Tatars and Persons of Other Nationalities Who Have Returned to Reside in Ukraine, Their Adaptation and Integration into the Ukrainian Society, for the Period until 2015 amounted to UAH 5.8464. However, for the purpose of stabilisation of the economic situation in the state, in 2014 the Cabinet of Ministers of Ukraine introduced measures for funds-saving and rational use of state funds. The items of expenditure of the Ministry of Social Policy of Ukraine have been optimised and brought into compliance with the financial capabilities of the state.

Due to the annexation of the Autonomous Republic of Crimea by the Russian Federation, financial support of printed publications of the repatriates could not be effected in 2014.

In 2014 UAH 242.0 thousand were actually spent to satisfy the needs of the persons deported on the national grounds. The funds were used to celebrate the 70th anniversary of the deportation of the Crimean Tatars and persons of other nationalities.

Moreover, in 2011-2014 the Ministry of Culture of Ukraine financially supported activities of the editorial office and publication of the Crimean Tatar newspaper “Holos Krymu”. The total allocations amount to UAH 1,506, 500.

UAH 60,340,000 have been allocated from the State Budget of Ukraine for 2016 to satisfy the social and cultural needs of the persons deported on the national grounds.

Satisfying the Crimean Tatars Educational Needs

The following educational establishments had worked in 2013/2014 academic year before the Autonomous Republic of Crimea was annexed by the Russian Federation:

The educational establishments with teaching in or studying of the Crimean Tatar language were provided with original and translated text books in the native language and literature.

For the period from 2001 until 2013 82 text books with the total circulation of 103,207 copies as well as the three-volume “Crimean-Russian-Ukrainian Dictionary” and “Ukrainian to Crimean Tatar and Crimean Tatar to Ukrainian Vocabulary of Terms” were published for pupils of Grades 1-11 of general educational establishments with teaching in the Crimean Tatar language.

All educational establishments of the Autonomous Republic of Crimea with teaching in the Crimean Tatar language were provided with teaching staff who passed

advanced training on the basis of the Crimean Republic Institute of Post-Graduate Pedagogical education every five years in accordance with the requirements.

Before the Autonomous Republic of Crimea was annexed by the Russian Federation, the basic training of teachers of the Crimean Tatar language and literature was provided for by the Republican Higher Educational Establishment “Crimean Engineering and Pedagogical University” and the Department of Philology of the Taurida University named after V. I. Vernadskii. The Republican Higher Educational Establishment “Crimean Engineering and Pedagogical University” trained philologist teachers in: “Crimean Tatar Language and Literature and English Language”, “Crimean Tatar Language and Literature and Turkish Language”.

The new speciality, Crimean Tatar Language and Literature and Translation, has been introduced at the Turkic Studies Department of the Institute of Philology of the Taras Shevchenko National University of Kyiv in order to keep providing general educational establishments with respective teaching staff. In 2014 eleven students were allowed to the speciality (ten upon government order, and one on the contractual basis).

The Ukrainian government and executive authorities, in particular the Ministry of Education and Science of Ukraine and departments of education and science of regional administrations are ready to keep promoting the studies of the Crimean Tatar language in case parents and pupils intend so.

For instance, as the Law of Ukraine “On Ensuring Civil Rights and Freedoms and the Legal Regime in the Temporarily Occupied Territory of Ukraine” has been adopted, the Ministry of Education and Science of Ukraine sent to local education administration bodies the letter No. 1/9-299 “On Ensuring the Right of the Crimean Tatars to Receive General Secondary Education in the Native Language or Study This Language” dated 06.06.2014.

In 2015/2016 academic year the Crimean Tatar language is studied as a subject by 318 pupils at the Novooleksiivka General Educational Secondary School of 1st-3rd Degrees No. 1 in the District of Henichesk in the Region of Khersoni.

Upon request of the school, 590 text books on the Crimean Tatar language, reading and literature have been additionally provided from the reserve stock of the Ministry of Education and Science of Ukraine.

On September 16, 2015 the Cabinet of Ministers of Ukraine adopted Resolution No. 729 “On Amending Clause 1 of Resolution of the Cabinet of Ministers of Ukraine No. 781 dated August 27, 2010” which in particular stated that “text books in the Crimean Tatar language and literature shall be annually published with the circulation of 300 copies and used in out-of-school educational establishments until control over the temporarily occupied territory of Ukraine is resumed”.

In pursuance of this resolution, in 2015 text books in the Crimean Tatar language, literature reading for Grade 3 and text books in the Crimean Tatar language and literature for Grade 7 were published with the circulation of 300 copies each.

Text books in the Crimean Tatar language and literature for Grades 4 and 8 are planned to be published in 2016.

When it comes to the current situation as to the provision for the educational needs of the Crimean Tatars in the Autonomous Republic of Crimea, according to the

unofficial sources, fifteen schools with teaching in the Crimean Tatar and Russian languages with approximately 5,000 pupils operated in the Autonomous Republic of Crimea as of September 2015. However, 96 % pupils were educated in the Russian language.

Methodological provision of the educational establishments with teaching in or studying of the Crimean Tatar language was not effected by the occupational authorities of the Autonomous Republic of Crimea in 2014/2015, so the establishments were not provided with text books in the Crimean Tatar language which would comply with the educational programme and standards of the Russian Federation. At the same time, general educational establishments were not allowed to use the text books “developed under Ukrainian educational programmes”.

The staff of the educational establishments intentionally talk the parents out of studying in the Crimean Tatar language due to lack of the material and technical resources, text books, and low qualifications of teachers etc.

Teachers of the Crimean Tatar language and literature were trained on the basis of the Crimean Engineering and Pedagogical University and the the Department of Philology of the Taurida University named after V. I. Vernadskyi. However, education under this speciality is not offered any more.

Therefore, exercise of the right of the Crimean Tatars to study their native language and be educated in the native language, which is in particular guaranteed by Article 12 of the Framework Convention for the Protection of National Minorities, within the territory of the Autonomous Republic of Crimea annexed by the Russian Federation is disturbing and is turning into the major problem.

Providing Roma National Minority Integration into the Ukrainian Society

According to the data of the All-Ukrainian Census of Population of 2001, 47.6 thousand people stated that they belonged to the Romani. According to unofficial sources, the quantity of the Romani is different: from 120.0 to 400.0 thousand people.

The Romani are dispersed around the territory of Ukraine. Most of them reside in the Regions of Zakarpattia (14.0 thousand), Donetsk (4.1 thousand), Dnipropetrovsk (4.0 thousand), Odesa (4.0 thousand), Kharkiv (2.3 thousand) and Luhansk (2.2 thousand).

The Romani national minority is one of the few national minorities which is poorly integrated into the society for a number of reasons. In Ukraine the Romani have the same issues as representatives of this national minority in other European countries. This includes, in particular, the low general educational level, high unemployment rates, unsatisfactory general health conditions, unfavourable accommodation and household conditions in most of their settlements.

In order to improve the general condition of the Romani national minority in Ukraine and provide for their integration into the society, Ukraine has adopted special legal documents for the last few years.

For instance, on April 8, 2013 the Strategy for Protection and Integration of the Romani National Minority into the Ukrainian Society for the Period until 2020 (hereinafter the “Strategy”) was approved by Decree of the President of Ukraine No. 201.

As a mechanism for practical performance of the tasks established by the Strategy,

on September 11 the Cabinet of Ministers of Ukraine adopted Decree No. 701 “On Approving the Action Plan as to Implementation of the Strategy for Protection and Integration of the Romani National Minority into the Ukrainian Society for the Period 2020” which resulted in the development and adoption of equivalent regional action plans in the vast majority of regions.

In addition to the regional action plan for the implementation of the Strategy, the Regional Programme “Romani Population of Zakarpattia” for 2012-2015 has been adopted in the Region of Zakarpattia.

Adoption of the abovementioned documents has laid the groundwork for settlement of topical issues of the Romani community, in particular overcoming of the social stereotypes as to the Romani, increase in the quantity of Romani who have been educated; overcoming of poverty; improvement of the general health and their living conditions, especially in the areas of compact settlement of the Romani; and further preservation of the Romani culture.

Certain tasks in these areas are performed by thirteen specialised central executive authorities and twenty-five local authorities.

The Ministry of Culture of Ukraine annually develops the informational report on fulfilment of the Action Plan on Implementation of the Strategy for Protection and Integration of the Romani National Minority into the Ukrainian Society for the Period until 2020 (hereinafter referred to as the “Action Plan”) which is then sent to the

Cabinet of Ministers of Ukraine, with account of the information, reference and statistical materials provided by the executive authorities.

The informational report is published on the website of the Ministry of Culture of Ukraine in order to enable all concerned persons and organisations to monitor the dynamics of changes in the conditions of the Romani national minority and their integration into the Ukrainian society.

The following positive changes have taken place since adoption of the Strategy and the Action Plan.

Since January 2014 the State Migration Service of Ukraine has individually included registration of the persons of the Romani nationality who have received a passport of the citizen of Ukraine to the statistical reporting form, IIP_3 “Issued passports of the citizen of Ukraine”.

In 2014 the territorial subdivisions of the State Migration Service of Ukraine executed 2,248 passports of the citizen of Ukraine for the persons belonging to the Romani national minority, and in 2015 – 2,143.

The National Police of Ukraine have been instructed to properly respond if they are informed of biased attitude to the representatives of the Romani national minority. Routes of the patrol groups lie alongside the areas of compact settlement of the Romani.

The local authorities, general educational establishments, library institutions and cultural establishments effect substantial informational and educational work designated for counteraction to the biased attitude to the persons belonging to the Romani national minority.¹

The state mass media, i. e. National Television and Radio Company of Ukraine, National Radio Company of Ukraine, regional directorates of the television and radio companies, have started to pay more air time to the Romani theme. In particular, speeches of officials of the executive authorities on protection of rights of the persons belonging to the Romani national minority are broadcast. Representatives of the Romani community, scientists and experts on the Romani issues are invited to the studio to participate in the informational and themed authorial TV shows.

For instance, in 2014 creative activities of the Gypsy Academic Music and Drama Theatre “Romans” were described in the programmes of the National Radio Company of Ukraine “Native Songs”, “Everything Is Music”, “Pop Kaleidoscope”, and songs performed by the famous Romani singers, P. Chorny and I. Krykunov, were broadcast.

UTR Channel presented the programme “Romani of Ukraine” (two programmes, four broadcasts, thirty minutes of runtime) as well as the video report on the practical seminar held by the International Charity Organisation “Roma Women Fund Chirikli” on the theme “Development and Implementation of the State Policy of Ukraine as to Protection and Integration of the Romani Population in the Legal, Medical and Social Spheres”.

¹ More detailed information is presented in the information reports for 2013 and 2014 at the website of the Ministry of Culture of Ukraine (http://mincult.kmu.gov.ua/control/uk/publish/officialcategory?cat_id=244949510). The information report for 2015 will be published approximately in April 2016.

The documentary “Gypsy Blood” made by the TV channel and telling about the traditions, customs and mode of life of the Romani was shown on the national Ukrainian television channel “Studio 1+1”. The main characters of the film were five Romani leaders (so called barons) who told about the things happening behind the fences of Romani camps.

In 2014 the journalists of the Vinnytsia Regional State Television and Radio Company started to produce themed articles, videos and reports on issues of socialisation of the Romani.

The Kharkiv Regional State Television and Radio Company covered the theme “Recovery of the Ancient Language of the Gypsies – Lovari” in the programme “How Do You Say It in Romani”.

In 2015 the television programme “Romano Dzhivipen”/“Romani Life” covering important events of life of the Romani population not only in Zakarpattia, but also in Ukraine was broadcast twice a week on TV Channel “Tysa-1” of the branch of the National Television Company of Ukraine “Zakarpattia Regional Directorate”. The main task of the programme was to show the public life of the Romani without bias, to enable representatives of the Romani national minority to openly share their problems.

The Zakarpattia newspaper “Novyny Zakarpattia” published the article “How To Make Education More Accessible for National Minorities” (No. 144 dated 16.12.2014), in the newspaper “Visnyk Berehivshchyny” – the article “Romani Children for Victory” (No. 90-91 dated 13.12.2014). The Zaporizhzhia regional newspaper “Zaporozka Sich” No. 529 published the article “The Romani: Interesting, Original, and Mysterious”.

The number of cultural, art and culturological events held for the Romani community and with its participation is growing gradually. For instance, the following events were held in 2015:

- 1st Regional Festival of Romani Culture “Devlesa, Romale!” (City of Vinnytsia);
- meeting of the Club of Family Leisure and Development “Family Circle of Sun” on the theme “Visiting the Romani Family” in the City of Kalynivka in the Region of Vinnytsia;
- book exhibition “Gypsy Soul...” in the Dnipropetrovsk M. Svietlov Regional Youth Library;
- exhibition “Memories of the Nazi Genocide of the Romani: Ukrainian and Jewish Dimensions” dedicated to the International Roma Genocide Remembrance Day and 10th anniversary of its official celebration in Ukraine (National Museum of Ukraine, City of Kyiv);
- festive events dedicated to the International Romani Day in most regions of Ukraine.

The traditional Romani art event which is annually held in Zakarpattia with organisational and financial support of the local authorities is the International Jazz Art Festival “Pop-Jazz-Fest”.

The state also pays attention to the Romani activists. The Gypsy Music and Drama Theatre “Romans” was granted the status of an academic one for the long

years of its activities in 2013 upon decision of the Ministry of Culture of Ukraine.

Pap Vilhelm Vilmoshovych, the head of the ensemble “Romani Children's Ensemble “Lautari” of the Zakarpattia Regional Centre of Children and Youth Arts, was awarded the title of the Honoured Cultural Worker of Ukraine for his substantial personal contribution into the development of national culture and arts, significant cultural achievements and high professional level in 2015.

There are also certain achievements in the sphere of satisfaction of educational needs of the Romani national minority.

The teachers of general educational establishments, representatives of the education administration bodies of the local state administrations regularly perform awareness-raising works among the persons belonging to the Romani national minorities on importance of education, especially for children and youth. They are told about different forms of pre-school education (short-term state, advisory stations, social and pedagogical patronage) and different forms of children's education in general educational establishments (classroom, individual, external, studies in evening shift-type schools or classes).

Educational establishments hold individual conversations to explain the contents of the regulatory acts on pre-school, senior secondary and higher education of the Romani children. Respective educational work is also effected via mass media, social, pedagogical and psychological support of children.

Romani children are educated and study in pre-school and general educational establishments together with children of other nationalities. They are granted the right to select a form of education and an educational establishment on the grounds established by the Law of Ukraine “On Education”, “On General Secondary Education”, the same way as children of other nationalities.

Administrations and pedagogical staff of schools where Romani children study take into consideration customs and traditions of families of this category, promote improvement of the level of their educational achievements and social adaptation.

Pedagogical staff regularly work in order to increase the number of Romani pupils who complete their education in general educational establishments. In order to settle these issues, Romani public organisations are engaged into work with pupils and their parents.

For instance, advisory stations for parents on arrangement of education of Romani children have been established in the Region of Dnipropetrovsk on the basis of educational establishments. In the Region of Donetsk the Romani pupils who need regular attention of the administration and class masters have been identified in the general educational establishments. Individual work is performed with the pupils of this category and their parents (conversations, home visits, consultations etc.).

School psychologists render regular assistance to the Romani pupils in order to succeed in their adaptation to the educational process. Many regions have developed programmes for psychological and pedagogical support of adaptation of the Romani pupils to the school education. The main tasks of these programmes are development of positive motivation for studies by the pupils, social and cultural personal development and mastering of the methods of independent activity.

When it comes to provision with text books and methodological materials, text

books on the oral course of the Romani language for Grade 1 and “ABC Book” for Grade 2 have been developed in accordance with the existing educational programmes.

At the regional level methodological guidebooks, didactic materials to be used in the educational process in general educational establishments where the Romani children study have been developed.

For instance, in the Region of Zakarpattia methodological guidebooks have been developed for primary school teachers working with children from the Romani national minority: “Vinok” (methodological guidebook on physical education, written by V. V. Mukha), “Learning Songs at Lessons in Primary School” (with folk Romani songs, written by V. V. Hasniuk), “Integration of Academic Disciplines in Primary School” (written by Yu. P. Serhiichuk).

Methodological recommendations for pupils “Use of the Heuristic Programme Education Method at Lessons in Primary School”, “Integrated Studying of Art and Aesthetic Subjects in Primary School”, “History of the Romani”, “The Romani Language”, “Organisation of Education of the Romani National Minority Pupils” have been developed.

The electronic version of methodological recommendations, text books, activity books in the Hungarian and Ukrainian languages for primary school pupils, lesson plans for teachers of school where the majority of the Romani children study have been developed.

In order to prevent the Romani national minority children from falling behind and to balance their knowledge and skills, the pedagogical staff of the Chop General Educational Secondary School of Degrees I-III No.2 have developed the “Correctional Educational Programme for Subjects for Grades 1-4 Pupils”.

In 2012 the Zakarpattia Regional Institute of Post-Graduate Pedagogical Education and the Centre of Cultures of the National Minorities of Zakarpattia commenced regular seminars on history of the Romany people, folklore, traditions for teachers working in the general educational establishments where the Romani children study.

Upon the initiative of the Zakarpattia Institute of Post-Graduate Pedagogical Education, the story book for the Romani Sunday schools and home reading “Country of Romania” with parallel texts in the Ukrainian and Romani languages has been developed and published.

The Zakarpattia Institute of Post-Graduate Pedagogical Education has developed and approved the Approximate Calendar Schedule for Grades 1-4 Pupils of General Educational Establishments for Classes where the Majority of the Romani Children Study in order to assist practising teachers. This calendar plan covers all educational subjects of the state programme for primary school approved by the Ministry of Education and Science of Ukraine.

The specialists of the Poltava Regional Institute of Post-Graduate Pedagogical Education have developed educational and methodological materials for psychologists with regard to the psychological aid to the Romani pupils for their adaptation to the educational process.

The Dnipropetrovsk Institute of Advanced Pedagogical Training has developed

multi-variable programmes for advanced training of the pedagogical staff working with the Romani pupils.

In pursuance of the Instructions on Registration of School-Age Children and Teenagers approved with Resolution of the Cabinet of Ministers of Ukraine No. 646 dated April 12, 2000, measures are taken in the regions in order to engage children and teenagers, including the Romani ones, to the educational process.

It shall be noted that the real quantity of the Romani pupils studying in the general educational establishments cannot be counted as there is no “nationality” information field in any documents. However, some regional state administrations furnish operational data on the quantity of the Romani pupils. The information on the quantity of the Romani pupils used by the local executive authorities is based on the subjective opinion of the teachers on the pupils, so it may not be treated as exact official statistics. External assessment might not coincide with personal self-identification as the Romani often deem themselves to be Hungarian, Ukrainian or Romanian subject to the language they speak. It is of special topicality for Ukrainian and Hungarian educational establishments in which quite a considerable share of pupils is represented by the Romani nationality.

In particular, in the Region of Zakarpattia in 2014/2015 academic year children from the Romani families studied in 151 general educational establishments (9,393 pupils).

In five schools there were Romani pupils only: general educational school of 1st-2nd Degrees No. 13, general educational school of 1st-2nd Degrees No. 14 in the City of Uzhhorod, general educational school of 1st-2nd Degrees No. 14 in the City of Mukacheve, general educational school of 1st-2nd Degrees No. 7 in the City of Berehove, and general educational school of 1st-2nd Degrees No. 5 in the City of Svaliava.

The quantity of the Romani pupils in eleven general educational establishments exceeded fifty percent. This situation is observed in the areas of compact settlement of the representatives of the Romani nationality: Districts of Berehove, Vynohradiv, Irshava, Perechyn, Uzhhorod and Khust.

In the pre-school educational establishments in 2014/2015 academic year there were 1,578 Romani children, in the vocational colleges there were 75 Romani students, and in the higher educational establishments there were two Romani students.

According to the operative data of the education administration bodies in the Region of Zakarpattia, the following data on the quantity of pupils/students of the Romani nationality in 2015/2016 academic year have been received. In the pre-school educational establishments there are 1,658 Romani children, in the general educational establishments – 9,626 Romani pupils, in the vocational colleges – 69 Romani students, and in the higher educational establishments – two Romani students.

In the general educational establishments of the Region of Volyn on 2013/2014 academic year there were 469 Romani pupils, Region of Lviv – 77 pupils, Region of Mykolaiv – 357 pupils, Region of Odesa – 1,402 pupils, Region of Sumy – 93 pupils, Region of Kharkiv – 339 pupils, Region of Khmelnytskyi – 188 pupils, Region of

Cherkasy – 451 pupils, Region of Chernihiv – 240 pupils.

When it comes to access of the Romani to the housing, it shall be noted that everybody shall have the right to housing in accordance with Article 47 of the Constitution of Ukraine. Ukraine shall create conditions enabling every citizen to build, purchase, or rent housing. Citizens in need of social protection shall be provided with housing by the bodies of state power and local self-government, free of charge or at a price affordable for them in accordance with law.

The right of the citizens in need of improvement of their living conditions to be provided with residential premises is established by the USSR Housing Code. In accordance with Article 42 of the Housing Code, residential premises may be provided to those citizens who are registered and need improvement of their living conditions, and are included into the Unified State Register of Citizens in Need of Improvement of Their Living Conditions.

The authorities to maintain the Unified State Register of Citizens in Need of Improvement of Their Living Conditions are assigned to the local state administrations in accordance with Part 7 Article 20 of the Law of Ukraine “On the Local State Administrations”.

In 2014 representatives of the Romani nationality were provided with housing as follows.

In the Region of Zakarpattia the citizens of the Romani national minority who submitted respective applications and documents were included into the housing waiting list in the local self-government authorities at the place of their residence. In order to improve the living conditions, social infrastructure, respective public utilities and urban amenities in the areas of compact settlement of the Romani population within financial allocations, roads and respective public utilities are repaired.

For instance, in the City of Mukacheve the water pipe was constructed in the Streets of Trudova and Lisna. Planning of the land surface, grading and coverage of the streets with small rocks were effected in the areas of compact settlement of the Romani national minorities.

Fifty-two Romani families in need of improvement of their living conditions are on the housing waiting list at the place of their residence at the Mukacheve City Executive Committee. These citizens may be provided with the residential premises in the order of registration in compliance with the applicable laws provided the housing is constructed. If there are free beds in shared households, the Supervisory Board for Distribution and Maintenance of Accommodation on Shared Households and Use of Shared Households and Adjacent Territories together with the Service for the Affairs of Children and the Centre of Social Services of the Family, Children and Youth regularly consider issues of accommodation in the shared households mainly for the Romani persons out of the orphan children, children neglected by their parents and the persons out of the given category of citizens who return from residential schools and guardians and foster parents. In 2014 beds in the shared households were provided to five persons of the Romani nationality belonging to this privileged category.

Within the territory of the District of Svaliava there are two residential settlements of the Romani: City of Svaliava and Village of Rodnykivka, with the duly

developed infrastructure, gas, power and water supply, cable TV, telephone networks and transport communication. All residential houses of the Romani are connected to the central water supply system of the City of Svaliava. Twelve orphan children are on the housing waiting list in the Svaliava City Council under the programme for provision with social accommodation.

In 2010 the Svaliava City Council has developed the private house building quarter for thirty-two land plots in Novoromska Street in the City of Svaliava for the purpose of compact settlement and extension of the Romani settlement.

In the City of Khust (Region of Zakarpattia) in 2014 eight land plots were allocated for construction and maintenance of residential houses with the total area of 0.42 ha to the persons belonging to the Romani national minority.

In the Region of Zaporizhzhia all of the identified Romani families (City of Zaporizhzhia, Districts of Polohy, Berdiansk, Velyka Bilozerk, Mykhailivka) are provided with accommodation at present.

In the Region of Odesa accommodation with the total area of 41.5 sq. m. has been purchased for the person belonging to the orphan children of the Romani nationality who returned to the initial registration place following education in the higher educational establishment, within the Programme for Provision of Accommodation to the Orphan Children, Children Neglected by Their Parents as well as Persons Belonging to this category.

The Department for Development of Infrastructure and Housing and Public Utilities of the Odesa Regional State Administration is developing a programme in the area of housing and public utilities which will provide for the implementation and financing of projects in housing utilities, urban amenities, development of engineering networks in the settlements in the Regions of Odesa from the regional budget, district budgets and budgets of cities, urban settlements and villages, or other sources in compliance with the applicable laws of Ukraine. This programme may include infrastructure facilities in the areas of Romani compact settlement following the respective discussion and approval upon resolution of the session of the Odesa Regional Council.

The citizen of the Romani nationality was given the room in the shared households upon resolution of the executive committee of the Cherkasy City Council No. 1256 dated 10.08.2010.

One citizen of the Romani nationality has been on the priority housing waiting list in the City of Zvenyhorodka (Region of Cherkasy) since 2013. Taking into account the social condition of the citizen, the local head offered her free premises in the public shared households. However, after the room was provided, the citizen refused from the accommodation.

The state also assists in provision of land plots for individual residential (cooperative) construction and individual farming to persons belonging to the Romani national minority. The operative information of the State Service of Ukraine on Geodesy, Cartography and Cadaster (former State Agency for Land Resources of Ukraine) on allocation of land plots to the representatives of the Romani nationality in 2014 and 2015 is presented in Tables 1 and 2.

At the same time, operation of the Romani public organisations and their

cooperation with state public authorities has activated considerably since 2013.

For instance, the Romani Council of Ukraine, International Charity Organisation “Roma Women Fund Chirikli”, International Public Romani Organisations “KETANE”, All-Ukrainian Union of Public Organisations “Congress of Romeni of Ukraine”, and Odesa Regional Romani Congress have taken active part in development of the draft Action Plan as to Implementation of the Strategy for Protection and Integration of the Romani National Minority into the Ukrainian Society for the Period 2020 by the Ministry of Culture of Ukraine.

Cooperation of the Ministry of Culture of Ukraine and the Coalition of the Romani Non-Government Organisation of Ukraine “Strategy 2020” resulted in adoption of Resolution No. 993 “On Establishment of the Interdepartmental Work Group on Implementation of the Action Plan as to Implementation of the Strategy for Protection and Integration of the Romani National Minority into the Ukrainian Society for the Period 2020” by the Cabinet of Ministers of Ukraine dated November 25, 2015.

Establishment of this advisory body of the Cabinet of Ministers of Ukraine was preconditioned by the inefficient work of certain executive authorities in the area of provision for integration of the Romani into the Ukrainian society.

The main tasks of the Interdepartmental Work Group include:

- provision for coordination between executive authorities and public organisations of the Romani on integration of the Romani national minority into the Ukrainian society;
- monitoring over implementation of the Action Plan as to the Strategy for Protection and Integration of the Romani National Minority into the Ukrainian Society for the Period until 2020;
- development of proposals on increase in the efficiency of activities of the executive authorities in the area of provision for integration of the Romani national minority into the Ukrainian society.

The fact of paramount importance in the establishment of the Interdepartmental Work Group is that one of its deputy chairmen shall be a representative of the public Romani association.

Other important projects implemented in 2015 by the public Romani organisations in cooperation with the public authorities are described below.

On April 8, 2015 in the City of Kyiv the Romani Informational, Cultural and Educational Centre “Chirikli”, a joint project of the Shevchenkivskyi District State Administration of the City of Kyiv and International Charity Organisation “Roma Women Fund Chirikli” was opened.

On June 25, 2015 the results of the public monitoring over implementation of the Action Plan as to the Strategy for Protection and Integration of the Romani National Minority into the Ukrainian Society for the Period until 2020 were presented. Monitoring was effected in six regions of Ukraine (Poltava, Cherkasy, Volyn, Zakarpattia, Dnipropetrovsk, and Odesa), and nine public Romani associations participated therein.

On September 25, 2015 the Romani radio “Chiriklo” was opened. This media project is a non-governmental, non-commercial and non-political media resource

according to its basic characteristics. Its mission is to disseminate information on human rights and rights of national minorities in particular, on the state policy for integration of the Romani into the Ukrainian society as well as to inform of various events and initiatives and promote communication of the Romani community.

On November 24, 2015 the Ministry of Culture of Ukraine in partnership with the OSCE/ODIHR held the round table on the theme “Development of Institutional Capabilities for Implementation of the Strategy for Protection and Integration of the Romani National Minority into the Ukrainian Society for the Period until 2020”.
