# CENTRAL AFRICAN REPUBLIC, FOURTH QUARTER 2016:
Update on incidents according to the Armed Conflict Location & Event Data Project (ACLED)
### compiled by ACCORD, 8 February 2017

sum of reported fatalities (Q4 2016)

- none
- 1 to 14
- 15 to 29
- 30 to 44
- 45 to 59
- 60 to 74
- 75 to 89
- 90 or more
- ▼ location of at least one incident

National borders: GADM, November 2015b; administrative divisions: GADM, November 2015a; Abyei Area: SSNBS, 1 December 2008; South Sudan/Sudan border status: UN Cartographic Section, October 2011; incident data: ACLED, January 2017; coastlines and inland waters: Smith and Wessel, 1 May 2015

Conflict incidents by category

category	number of incidents	sum of fatalities
violence against civilians	37	102
battle	27	148
riots/protests	17	9
strategic developments	8	0
non-violent activities	1	0
total	90	259

This table is based on data from the Armed Conflict Location & Event Data Project (datasets used: ACLED, January 2017).

Development of conflict incidents from December 2014 to December 2016

- number of incidents
- sum of fatalities

This graph is based on data from the Armed Conflict Location & Event Data Project (datasets used: ACLED, January 2017).

LOCALIZATION OF CONFLICT INCIDENTS

<u>Note:</u>   The following list is an overview of the incident data included in the ACLED dataset. More details are available in the actual dataset (date, location data, event type, involved actors, information sources, etc.). In the following list, the names of event locations are taken from ACLED, while the administrative region names are taken from GADM data which serves as the basis for the map above.

In **Bamingui-Bangoran**, **1** incident killing **0** people was reported. The following location was affected: **Ndele**.

In **Bangui**, **10** incidents killing **22** people were reported. The following locations were affected: **Bangui, PK5**.

In **Haut-Mbomou**, **1** incident killing **0** people was reported. The following location was affected: **Obo**.

In **Haute-Kotto**, **16** incidents killing **82** people were reported. The following locations were affected: **Bria, Kalaga**.

In **Mbomou**, **5** incidents killing **2** people were reported. The following locations were affected: **Bakouma, Derbissaka, Nzako**.

In **Nana-Grébizi**, **9** incidents killing **41** people were reported. The following locations were affected: **Kaga-Bandoro, Mbres**.

In **Nana-Mambéré**, **3** incidents killing **1** person were reported. The following locations were affected: **Baboua, Bondiba, Bouar**.

In **Ombella-M'Poko**, **6** incidents killing **13** people were reported. The following locations were affected: **Bakala, Bangui 3e, Bangui 5e, Bangui 6e, KM5**.

In **Ouaka**, **9** incidents killing **42** people were reported. The following locations were affected: **Bakala, Bambari, Ngakobo**.

In **Ouham**, **12** incidents killing **27** people were reported. The following locations were affected: **Batangafo, Kabo, Koui, Nana-Bakassa**.

In **Ouham-Pendé**, **18** incidents killing **29** people were reported. The following locations were affected: **Bocaranga, Bozoum, Gouze, Koui, Ngaoundaye, Paoua**.

METHODOLOGY

The data used in this report was collected by the Armed Conflict Location & Event Data Project (ACLED). ACLED collects data on reported conflict events in selected African and Asian countries, Central African Republic being among them. ACLED researchers collect event data from a variety of sources and code them by date, location, agent, and event type. For further details on ACLED and for the full data, see www.acleddata.com und Raleigh; Linke; Hegre, and Karlsen, 2010.

Based on these data, the Austrian Centre for Country of Origin & Asylum Research and Documentation (ACCORD) compiles updates on conflict incidents.

Incidents comprise the following categories: battle, headquarters or base established, non-violent strategic activities, riots/protests, violence against civilians, non-violent transfer of territory, remote violence. For details on these categories, please see

DISCLAIMER

Most of the data collected by ACLED is gathered based on publicly available, secondary reports. It may therefore underestimate the volume of events. Fatality data particularly is vulnerable to bias and inaccurate reporting, and ACLED uses the most conservative estimate available. Furthermore, event data may be revised or complemented in future updates. The lack of information on an event in this report does not permit the inference that it did not take place. The boundaries and names displayed do not imply endorsement or acceptance by the Austrian Red Cross.
