

Overview

Proof of Registration (PoR) cards are important tools of protection that provide temporary legal stay and freedom of movement for the 1.39 million registered Afghan refugees in Pakistan. PoR cards which have expired at the end of 2015 have been extended through official notification until 30 June 2018*.

Five PoR Card Modification (PCM) centres - located in Peshawar, Quetta, Lahore, Karachi and Rawalpindi support the modification/replacement of existing cards, the registration of new born children up to the age of five, the provision of PoR cards to registered children who have reached five years of age and who are now entitled to their own cards, as well as the issuance of birth certificates to children under the age of 18 years old.

In 2018, UNHCR has prioritised funds for the birth registration and the issuance of birth certificates to 90,000 children. The target for the issuance of individual PoR cards is 130,000 children who have reached five years of age and are eligible to receive their individual cards from the PCM centres.**

In February, a slight increase of applicants for PCM centre services was observed during the reporting month compared to those in January 2018; some 5,400 applicants availed registration services (26 % increase compared to January 2018). This is attributed to the start of MRV operations in Mansehra district.

*PoR cards have been extended until the end of June 2018 by the Federal Cabinet in its meeting of 20 February 2018, pending SAFRON submission of a Repatriation plan at which time a further extension will also be considered.

Jan–Feb, 2018

15,304

Refugees availed registration services (Cases processed + Birth registration)

5,481 (6.0%)

Birth registrations

4,213 (4.6%)

Birth certificates

3,214 (2.4%)

PoR cards for children reaching five years of age

Registration activities per week

** Percentages are based on estimates of 90,000 new born children requiring registration and 130,000 children who have reached five years of age and are now entitled to their own PoR card (children below 5 are listed on the back of one of their parents' cards). 90,000 children require birth certificates.

Registration activities summary by location - January–February, 2018

Total registered refugees in Pakistan as of 28 February 2018

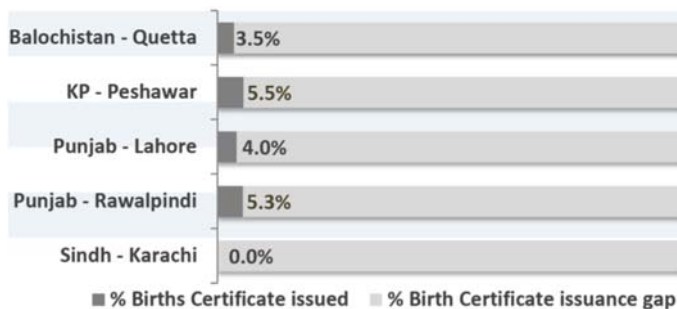

1,394,987

Birth registrations

Above percentage presented against the target of 90,000 new births during 2018

Birth certificates

Above percentage presented against the target of 90,000 birth certificates

Provision of PoR cards to registered children that have reached 5 years of age

Above percentage presented against the target of 130,000 children who have reached five years

Card modification / replacement

The following charts summarise the progress towards these targets and the remaining gaps.

The percentages for birth registrations, birth certificate issuance and provision of PoR cards to registered children that have reached five years of age are based on the estimates noted on page 1. These overall targets have been apportioned to each centre based on the size of the Afghan refugee population for which the centre provides services.

During the month of February, the trend in registration activities increased slightly compared to those in January 2018 at all PCM centres countrywide (around 3,100 children were registered in February 2018 at all the PCM centres countrywide and one MRV compared to 2,400 in the month of January 2018).

In 2018, based on cost-benefit analysis with PCM centres and discussions on the best interests for persons of concern, UNHCR will continue to deploy 3 Mobile Registration Vans (MRVs) in KP (one month), Balochistan (one month) and in Punjab (one month). The deployment of MRVs has been very successful in 2017.

During the reporting month, MRV operations started in Mansehra district for a period of two weeks. MRV concluded its services on 28 February 2018 and it successfully processed 1,289 applicants during deployment. MRV deployed in Mansehra district also had the provision of issuing birth certificates at the time of registration and it issued 461 birth certificates on the spot.

4,213 birth certificates were issued during the reporting period from all PCM centres and one MRV.

Note that the trend for PoR card modifications will naturally follow that of birth registrations and the provision of PoR cards to children over age of five. This is because children are added or removed from their parents' cards. Therefore, their parents' cards will also need to be modified.

From 1 January to 28 February 2018, 1,288 lost or stolen cards were replaced. Deaths of refugees continue to be significantly under-reported. Only 10 deaths were registered/reported between January to February 2018.
