## Development of conflict incidents from 2017 to 2017

This graph is based on data from ACLED (datasets used: [ACLED](#), 15 December 2018).

## Methodology

The data used in this report was collected by the Armed Conflict Location & Event Data Project (ACLED). ACLED collects data on reported conflict events in selected African and Asian countries, Syria being among them. ACLED researchers collect event data from a variety of sources and code them by date, location, agent, and event type.

Most of the data collected by ACLED is gathered based on publicly available, secondary reports. It may therefore underestimate the volume of events. Fatality data particularly is vulnerable to bias and inaccurate reporting, and ACLED states to use the most conservative estimate available. ACLED uses the reports' context to estimate fatalities for events with reported fatalities for which the exact number is unknown ("10" for plural fatalities, "100" if "hundreds" are mentioned, etc.). For further details on ACLED and for the full data, see [www.acleddata.com](http://www.acleddata.com) and Raleigh; Linke; Hegre, and Karlsen, 2010.

Based on this data, the Austrian Centre for Country of Origin & Asylum Research and Documentation (ACCORD) compiles updates on conflict incidents and publishes them on [ecoi.net](http://ecoi.net) to offer another access point to the ACLED datasets.

This 2nd edition replaces the previously published overviews on the same reporting period and is based on updated ACLED data.

It is advised to employ extreme caution when using fatality numbers.

Assessments of the security situation should not be based solely on quantitative analysis of event data.

The two maps above serve to compare the number of reported fatalities (potentially containing estimates) to the number of events with reported fatalities.

Geographic map data is primarily based on GADM, complemented with other sources if necessary. ACLED's location data is then used to locate incidents in these maps. Incidents that could not be located are ignored. The numbers included in this overview might therefore differ from the original ACLED data. ACLED uses varying degrees of geographic precision for the individual incidents, depending on what level of detail is reported. Thus, towns may represent the wider region in which an incident occurred, or the provincial capital may be used if only the province is known. Erroneous location data, especially due to identical place names, cannot be fully excluded.

Incidents comprise the following categories: battles, headquarters or bases established, non-violent strategic activities, riots/protests, violence against civilians, non-violent transfer of territory, remote violence. For details on these categories, please see

## Localization of conflict incidents

**Note:** The following list is an overview of the incident data included in the ACLED dataset. More details are available in the actual dataset (date, location data, event type, involved actors, information sources, etc.). The data's precision varies among the incidents: a town may represent a region, or the provincial capital may be used if the precise location of an incident is unknown. In the following list, the names of event locations are taken from ACLED, while the administrative region names

are taken from GADM data which serves as the basis for the maps above.

In **Al asakah**, 475 incidents killing 1502 people were reported. The following locations were among the affected: Abu Fas, Abu Hamdah, Abu Khashab, Ain Diwar, Al Jana, Al Rughay, Al-Hasakeh, Al-Hasakeh - Ghoweran, Al-Hassu, Al-Jawadiyah, Al-Maabdaa, Al-Malikeyyeh, Al-Sa'da, Al-Shamsani, Al-Suwaydiyah Sharqi, Al-Yarubiyah, Alia, Amuda, Anad, Areeshah, Arshet Ras El Ein, Azzawi, Bazunah, Darbasiyah, Dashishah, Dirbasiye, Eastern Elweh, Ein al Khadra, Elwet Eldisheisha, Fadghami, Gharibah, Hole, Hozon Castle, Hssein, Jabal Abdulaziz, Jazaa, Kherbet Elsaawa, Kishkish Jabbur, Kishkish Zyanat, Mabrouka Camp, Manajir, Markada, Qadessiyeh, Qara Hasan, Qarrah Chouk Mountains, Quamishli, Ras Al Ain, Rashidiyeh, Rawya, Salhiyeh, Semalka Border Crossing, Shadadah, Tabaqa, Tal Brak, Tal Hmis, Tal Sfuk Border Crossing, Tal Shayr, Tal Tamer, Tall Al-Jabir, Tell Halaf, Thalja, Um Elmilh, Um Hajar, Um Harmala, al-Jana.
