

SUMMARY OF FINDINGS

OF INTERNALLY DISPLACED PERSONS HOUSEHOLDS IN POC 3 HAVE AT LEAST ONE PERSON WITH SPECIFIC NEEDS. THE TOTAL HOUSEHOLDS IN POC 3 IS 10,039 HHs/ 24,598 INDIVIDUALS AS PER THE PROTECTION PROFILING EXERCISE CONDUCTED IN SEPTEMBER 2018

10,039 HHs
24,598 INDIVIDUALS

1,185

VULNERABLE HOUSEHOLDS WITH AT LEAST ONE PERSON WITH SPECIFIC NEEDS

1,623

VULNERABLE INDIVIDUALS WITH AT LEAST ONE SPECIFIC NEED

OF THE VULNERABLE HOUSEHOLDS (319 HHs/ 426 INDIVIDUALS) HAVE EXPRESSED INTENTIONS TO LEAVE POC 3 TO ANOTHER PLACE

OF THE VULNERABLE HOUSEHOLDS (304 HHS) WISHES TO RETURN TO THEIR PLACE OF ORIGIN. SEE FIGURE 1

FIGURE 1: MAP SHOWING DISTRIBUTION OF 95 PERCENT OF PSN HOUSEHOLDS WHO HAVE EXPRESSED INTENTIONS TO RETURN/RELOCATE TO THEIR PLACE OF ORIGIN.

OVERVIEW

Vulnerability verification exercise was conducted to verify and update the status of the existing most vulnerable case load in POC 3 and to identify new vulnerable cases at household level. This report compiles and analyses data from 1,185 vulnerable IDPs households comprised of 1,623 individuals with specific needs. It builds on the protection profiling exercise that took place in September 2018, reaching **10,039** displaced households comprised of **24,598** individuals. The **1,185** vulnerable households identified is equivalent to 12% of the total households.

METHODOLOGY

The verification exercise was conducted by UNHCR in partnership with Handicap International (HI) and International Rescue Committee (IRC), Humanitarian Development Consortium (HDC) and Terres Des Hommes (TDH) in close collaboration with POC 3 camp management. The block leaders participated actively in mobilizing and

sensitizing the households.

Due to the sensitive nature of the information collected at household/individual levels, all interviewers were trained on data collection and protection of sensitive information. Data was collected using mobile devices. The interviews were conducted by community workers from protection partners under the supervision of UNHCR protection staff.

Geographic scope:

The verification exercise was conducted exclusively in POC 3 IDP site. All the zones and blocks in the POC 3 were covered during the exercise.

Verification/Screening methodology:

In each block, mobilization and sensitization was initially conducted by POC 3 leaders to describe the purpose of the exercise. Interviewers collected information at household level as follows:

- Each household was visited. Interviewers pre-screened the households according to the established checklist to determine whether the households meet UNHCR heightened protection risks criteria. If this was the case, the household was interviewed, if not, interviewers would stop and proceed to the next household.
- Detailed interviews were conducted with the head of households/vulnerable persons meeting the criteria. Interviewers used a vulnerability assessment tool loaded

onto mobile tablets to capture extensive information including details on categories of core vulnerabilities, additional protection risks, needs, household composition and intentions to return.

- IOM registration barcode was captured, and shelter numbers were recorded to enable tracking. The information was also checked against the existing PSN database.

Vulnerability database:

Verification exercise provided updated information on the most vulnerable individuals, forming targeting basis for UNHCR and partners' operational response, including psychosocial support, SGBV intervention and protection-based material assistance. Humanitarian agencies can use the vulnerability data to provide interventions responding to pressing protection risks/needs of the most vulnerable households as well as tracking interventions to such households to minimize gaps and overlap, based on Data Sharing Agreement (DSA) and protocols on confidentiality and data protection.

DEMOGRAPHICS OF THE PSNs HOUSEHOLDS VERIFIED

State of Origin (HHs)

51% of vulnerable households verified originate from Unity state, **31.8%** Jonglei, **12.1%** Upper Nile, **3.5%** originate from Central Equatoria, **1.0%** originate from Western Equatoria and the rest of others states registered less than **1 %** refer to figure above.

Age & Gender Breakdown

1,185 vulnerable households in POC 3 comprised of **1,623** individuals verified. Of the vulnerable households, **42%** were comprised of adults ages 18-59 years (684), **41%** adults ages 60 years and above (663) and 17% children under 18 years (276), **69%** of the vulnerable households were female (**1,112 individuals**) and **31%** were males (**511 individuals**).

Priority Needs at POC

The vast majority of vulnerable displaced households prioritized basic domestic/household items, adequate food, livelihood, medical care, and shelter.

Priority Needs at Place of Return

The vulnerable displaced households prioritized safety & security, access to land and property, Shelter, food and medical care in the areas of return.

VERIFIED VULNERABILITY REGISTERED AT HOUSEHOLDS IN POC 3

Single Parent (SP) Without Support

39% (569 HHs/ 632 individuals) verified in POC 3 are single parents without support. Majority, **77% (486 individuals)** are females and **23% (146)** are males. **75%** of the single parents without support are women within the age group **(18-59)** and above **60+** years.

Women at Risk (WR)

31% (459 HHs/ 496 individuals) verified in POC 3 are women at risk (WR). Majority, **68% (338)** are within the age group **(18-59)** years.

Serious Medical Conditions

31% (503 HHs/ 507 individuals), **71% (358 individuals)** female and **29% (149 individuals)** males of the vulnerable individuals verified in POC 3 reported cases of serious medical conditions requiring assistance (in terms of treatment or provision of nutritional and non-food items).

Elderly at Risk

31% (504 HHs/ 504 individuals) of the IDPs in POC 3 have at least one elderly person at risk in the household requiring protection assistance. This could be attributed to the fact that, at old age, the elderly prefers to live with relatives for support and care. **67% (340 individuals)** of elderly persons at risk are female. **33% (164 individuals)** are males.

Person with Disabilities (DS)

21% (312 HHs/ 340 individuals) verified in POC 3 are persons with disabilities (DS). **54% (182 individuals)** female and **46% (158 individuals)** males.

Specific Legal Protection Issues (LP)

11% (68 HHs/ 175 individuals) vulnerable individuals verified in POC 3 are Person with specific legal and protection issues (LP). **57% (99)** Males and **43% (76)** Females. **39%** are heads of households.

Family Unity

10% (151 HHs/ 155 individuals), **66% (103 individuals)** female and **34% (52 individuals)** males of verified vulnerable individuals in POC 3 reported need for family unity. Majority are women and single parents without support.

Children at Risk

9% (20 HHs/ 148 individuals) verified vulnerable individuals in POC 3 are children at risk (CR). **53% (81)** males and **47% (72)** females.

Unaccompanied/ Separated Children (SC)

7% (14 HHs/ 117 individuals) vulnerable individuals verified in POC 3 are unaccompanied or separated children (SC). **54% (63)** females and **46% (54)** males.

Sexual Gender based violence (SGBV)

7% (14 HHs/ 112 individuals) vulnerable individuals verified in POC 3 reported sexual gender-based violence (SGBV). **76% (85)** females and **24% (27)** males. With majority, **64%** being women in the age group of **(60+ years)**.

Torture (TR)

1% (12 HHs/ 19 individuals) vulnerable individuals verified in POC 3 reported being tortured (TR). **63% (12)** females and **37% (7)** males.

Note

- Percentage of each category of the persons with specific needs is derived from the total number of PSNs verified **(1,623 individuals)**.
- 11 PSNs categories adopted for use in South Sudan was used during verification exercise.
- The total number of households of POC 3 used is the figure from the profiling exercise conducted in **September 2018**.

Key Vulnerabilities

39%	of the Persons with Specific Needs (PSN) verified at household level in POC 3are Single Parent (SP) without support
31%	of the PSN verified at household level in POC 3are Women at Risk (WR)
31%	of the PSN verified at household level in POC 3have Serious Medical Conditions (SMC)
31%	of the PSN verified at household level in POC 3are Elderly at Risk (ER)
21%	of the PSN verified at household level in POC 3are Persons with Disability (DS)
11%	of the verified PSN have specific Legal Protection issues (LP)
10%	of the PSN verified at household level in POC 3have Family Unity (FU) needs
9%	of the verified PSN at household level are Children at Risk (CR)
7%	of the verified PSN are Unaccompanied or Separated Children (SC)
7%	of the verified PSN reported SGBV cases
1%	of the verified PSN reported Torture (TR)

Additional Protection Risks & Needs of Vulnerable Households

93%	of vulnerable HHs cannot produce income for their households
76%	of vulnerable HHs lack legal documentation (National ID Card, Birth Certificate)
55%	of the vulnerable HHs are in need of psychosocial support or counselling services
45%	of vulnerable HHs reported tensions/hostilities between IDP groups
24%	of the vulnerable HHs reported property destruction
15%	of vulnerable HHs reported to have experienced multiple displacement
11%	of the vulnerable HHs have experienced discrimination in access to basic services

INTENTIONS TO RETURN/RELOCATE TO ANOTHER PLACE

319

HOUSEHOLDS EXPRESSED INTENTIONS TO LEAVE THE POC TO ANOTHER PLACE
 COMPRISED OF 426 INDIVIDUALS

40%

of the households displaced for more than once (25% displaced twice, and 15% displaced more than twice).

828

Households displaced in 2013

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the United Nations. Final boundary between the Republic of Sudan and the Republic of South Sudan. Final status of the Abyei area is not yet determined.

IDP Households Preconditions for Return

The IDPs Households who expressed intentions to return (27%) reported the following pre-conditions, 40% households reported that they are able to return on conditions that the area of returns are safe, 23% are able to return when they are able to have money to go, 17% Don't know, 12% of the households are yet to get the information from the family members in the areas of returns, 4% intend to return within the next 3 months, 2% of the households would wish to return upon the next dry season, 1% of the households intend to return when they reunite with their family members, 1% of the households intend to return when there is peace in the country. Other pre-conditions includes after receiving treatment and recovery as well as being ready to move at any time.

IDP Households Reasons for Return

Of the 27% of the IDP Households who expressed intentions to return, 84% of the households reported reasons as being family unity, 9% wishes to return to reunite with community and receive community support, 7% cited that livelihoods are better where they would wish to return, 4% cited better shelter, 3% cited better infrastructure where they wishes to return, 3% health services is better there, 2% cited education to be better there, 1% would wish to return to check on property, 1% cited road access has improved and 1% cited insecurity in the POC
