## Development of conflict incidents from 2009 to 2018

This graph is based on data from ACLED (datasets used: [ACLED](#), 22 February 2020).

## Methodology

The data used in this report was collected by the Armed Conflict Location & Event Data Project (ACLED). ACLED collects data on reported conflict events in selected African and Asian countries, Cameroon being among them. ACLED researchers collect event data from a variety of sources and code them by date, location, agent, and event type.

Most of the data collected by ACLED is gathered based on publicly available, secondary reports. It may therefore underestimate the volume of events. Fatality data particularly is vulnerable to bias and inaccurate reporting, and ACLED states to use the most conservative estimate available. ACLED uses the reports' context to estimate fatalities for events with reported fatalities for which the exact number is unknown ("10" for plural fatalities, "100" if "hundreds" are mentioned, etc.). For further details on ACLED and for the full data, see [www.acleddata.com](http://www.acleddata.com) and [Raleigh; Linke; Hegre, and Karlsen, 2010](#).

Based on this data, the Austrian Centre for Country of Origin & Asylum Research and Documentation (ACCORD) compiles updates on conflict incidents and publishes them on [ecoi.net](http://ecoi.net) to offer another access point to the ACLED datasets.

It is advised to employ extreme caution when using fatality numbers.

Assessments of the security situation should not be based solely on quantitative analysis of event data.

Geographic map data is primarily based on GADM, complemented with other sources if necessary. Incidents are mapped to GADM provinces using the provinces in ACLED data. Province names and borders may differ between ACLED and GADM. Incidents that could not be located are ignored. The numbers included in this overview might therefore differ from the original ACLED data. ACLED uses varying degrees of geographic precision for the individual incidents, depending

on what level of detail is reported. Thus, towns may represent the wider region in which an incident occurred, or the provincial capital may be used if only the province is known. Erroneous location data, especially due to identical place names, cannot be fully excluded.

Incidents comprise the following categories: battles, headquarters or bases established, non-violent strategic activities, riots/protests, violence against civilians, non-violent transfer of territory, remote violence. For details on these categories, please see

Sud-Ouest	225	109	424

## Localization of conflict incidents

**Note:** The following list is an overview of the incident data included in the ACLED dataset. More details are available in the actual dataset (date, location data, event type, involved actors, information sources, etc.). The data's precision varies among the incidents: a town may represent a region, or the provincial capital may be used if the precise location of an incident is unknown. In the following list, the names of event locations are taken from ACLED, while the administrative region names are taken from GADM data which serves as the basis for the maps above.

In **Adamaoua**, 6 incidents killing 6 people were reported. The following locations were among the affected: **Belel, Tibati**.

In **Centre**, 23 incidents killing 10 people were reported. The following location was among the affected: **Yaounde**.

In **Est**, 3 incidents killing 0 people were reported. The following locations were among the affected: **Bertoua, Dimako, Lomie**.

In **Extrême-Nord**, 190 incidents killing 322 people were reported. The following locations were among the affected: **Afade, Amchide, Ardori, Ashigashiya, Baljoel, Bargaram, Bia, Blabline, Blangoua, Bodo, Bonderi, Charif-Moussari, Darak, Djabire, Dogba, Double-Alagarno, Doulo, Dyounde, Fadje, Fima, Fotokol, Gakara, Gangawa, Gasama, Geldavi, Glem, Gogo, Gogolomiyode, Gore Kendi, Goreya, Goudjimdele, Gouzoudou, Greya, Hile Alifa, Hina Marbak, Homeka, Igawa, Kalguiwa, Kassibe, Kerawa, Kolofata, Kordo, Kousseri, Kouyape, Krawa, Limani, Mada, Maigobouri, Makari, Maloumri, Mandina, Maroua, Matakaya, Mayo Moskota, Mokolo, Mora, Moutouroua, Mozogo, Ndiguina, Ngacheve, Ngame, Ngouma, Nmdaga, Sagme, Souargue, Tala Malabrahim, Talakachi, Talkomari, Tarmoua, Tchebe-Tchebe, Tchika, Vourkaza, Vouzi, Wambatche, Wangara, Waza, Yegwa, Zaman, Zanga, Zelevet, Zeneme, Zigague, Zourou**.

In **Littoral**, 7 incidents killing 0 people were reported. The following locations were among the affected: **Douala, Penda Mboko**.

In **Nord**, 7 incidents killing 50 people were reported. The following locations were among the affected: **Bouba Ndjida National Park, Djalingo, Garoua, Touboro**.

In **Nord-Ouest**, 239 incidents killing 693 people were reported. The following locations were among the affected: **Abu, Acha Tugui, Ako, Andek, Babanki, Babessi, Babungo, Bafut, Bali, Balikumbat, Bamali, Bambalang, Bambili, Bamenda, Bamessing, Batibo, Belem, Belo, Besi, Chomba, Dumbo, Essu, Fundong, Furu-Awa, Guzang, Jakiri, Kumbo, Mankon, Mbengo, Mbengwi,**

Event data may be revised or complemented in future updates. Updates in ACLED's datasets will not necessarily be reflected in ACCORD's reports if the update occurs close to or after the latter's publication. Changes in the sources used by ACLED to collect incident data might affect the comparability of data over time. For more information on ACLED's methodology, please see [www.acleddata.com/resources/methodology/](http://www.acleddata.com/resources/methodology/).
