

Context & Methodology

Almost 3.7 million refugees have fled Ukraine since the escalation of conflict on 24 February 2022 (UNHCR). The number of people crossing has fluctuated in the days since the escalation, and it can be anticipated that it will vary with the intensity and geography of conflict in the next days or weeks.

To understand the drivers of displacement and intentions of refugees, 1844 interviews were conducted with people crossing from Ukraine into Poland, Slovakia, Hungary, Romania and Moldova. Interviews were conducted at every border checkpoint and certain reception centers, including railway stations, and began on 28 February. This factsheet includes cumulative responses from 28 February to 23 March. Following this data collection, select interviewees will be contacted for long-form qualitative interviews to gain a longitudinal understanding of their experience of displacement.

Interviewees were selected purposively to gain a broader understanding of experiences and intentions, and results should therefore be considered indicative.

The data collection tool was modified after the deployment and therefore the sample size differs for certain questions; for some of them, the sample size is provided.

Demography

Gender of the respondent

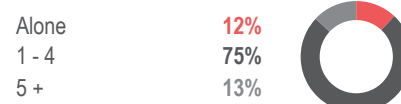

Nationality of the respondent

Respondents reporting travelling with the following population groups¹

| | |
|------------------------------|-----|
| Children 0-5 years of age | 28% |
| Children 6-18 years of age | 57% |
| Elderly (65+ years of age) | 12% |
| Pregnant and lactating women | 1% |
| Persons with disabilities | 5% |

Number of people traveling with respondents

Most reported pre-displacement employment status of respondents²

Origins and Arrivals

99% of respondents reported holding a passport

Sample distribution, by country of arrival

| | | |
|----------|-----|-----|
| Moldova | 777 | 42% |
| Poland | 546 | 30% |
| Romania | 372 | 20% |
| Slovakia | 104 | 6% |
| Hungary | 45 | 2% |

Most frequent regions (oblasts) of origin³

| | | |
|----------------|-----|-----|
| Odesa | 383 | 21% |
| Mykolaiv | 370 | 20% |
| Kyiv | 344 | 19% |
| Kharkiv | 187 | 10% |
| Dnipropetrovsk | 89 | 5% |

Reason for selecting border crossing²

Most frequently reported modalities of border crossing²

Intentions

Top 3 intended destination countries of respondents by arrival country¹

| Country of arrival | Intended destination |
|--------------------|--|
| Poland | 1. Germany 2. Poland 3. Spain |
| Slovakia | 1. Slovakia 2. Germany 3. Poland |
| Hungary | 1. Hungary 2. Germany 3. Austria |
| Romania | 1. Germany 2. Romania 3. Italy |
| Moldova | 1. Moldova 2. Germany 3. Romania |

Reported drivers for selection of destination country by respondents^{1,3}

Reported accommodation type in destination country by respondents³

¹Multiple responses permitted. The sum might exceed 100%. ² Top four choices indicated by respondents. ³ Top five choices indicated by respondents.
