

SOUTH SUDAN, FIRST QUARTER 2023:

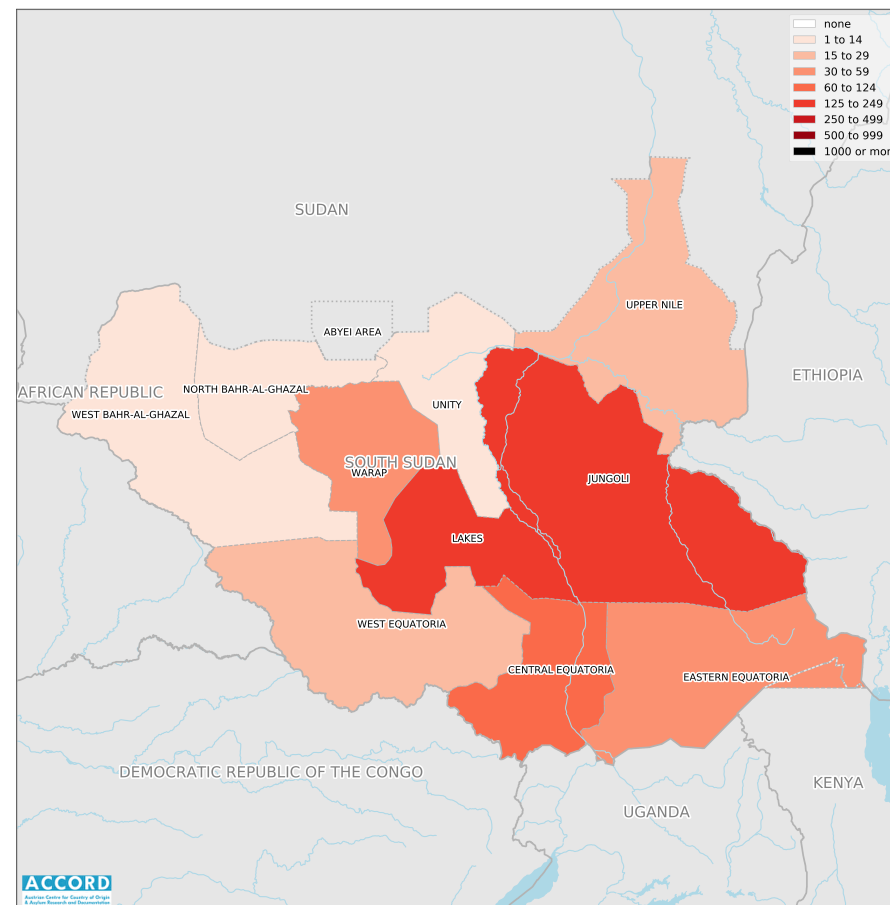

Update on incidents according to the Armed Conflict Location & Event Data Project (ACLED)

compiled by ACCORD, 4 September 2023

Number of reported incidents with at least one fatality

Number of reported fatalities

National borders: [GADM, 6 May 2018a](#); administrative divisions: [GADM, 6 May 2018b](#); Abyei Area: [SSNBS, 1 December 2008](#); Ilemi triangle status and South Sudan/Sudan border status: [UN Cartographic Section, October 2011](#); incident data: [ACLED, 4 August 2023](#); coastlines and inland waters: [Smith and Wessel, 1 May 2015](#)

Conflict incidents by category

Category	Number of incidents	Number of incidents with at least one fatality	Number of fatalities
Violence against civilians	83	59	270
Battles	50	40	358
Strategic developments	16	1	11
Protests	7	0	0
Riots	4	2	4
Explosions / Remote violence	2	2	5
Total	162	104	648

This table is based on data from ACLED (datasets used: [ACLED, 4 August 2023](#)).

Development of conflict incidents from March 2021 to March 2023

This graph is based on data from ACLED (datasets used: [ACLED, 4 August 2023](#)).

Methodology

The data used in this report was collected by the Armed Conflict Location & Event Data Project (ACLED). ACLED collects data on reported conflict events in selected African and Asian countries, South Sudan being among them. ACLED researchers collect event data from a variety of sources and code them by date, location, agent, and event type.

Most of the data collected by ACLED is gathered based on publicly available, secondary reports. It may therefore underestimate the volume of events. Fatality data particularly is vulnerable to bias and inaccurate reporting, and ACLED states to use the most conservative estimate available. ACLED uses the reports' context to estimate fatalities for events with reported fatalities for which the exact number is unknown ("3" or "10" for plural fatalities, depending on the context; "100" if "hundreds" are mentioned, etc.). For further details on ACLED and for the full data, see www.acleddata.com and [Raleigh; Linke; Hegre, and Karlsen, 2010](#).

Based on this data, the Austrian Centre for Country of Origin & Asylum Research and Documentation (ACCORD) compiles updates on conflict incidents and publishes them on ecoi.net to offer another access point to the ACLED datasets.

It is advised to employ extreme caution when using fatality numbers.

Assessments of the security situation should not be based solely on quantitative analysis of event data.

Note: Administrative divisions (based on GADM data) are outdated and are reflected as of before the October 2015 reform.

Data on incidents in the Abyei area are not included in this overview.

Geographic map data is primarily based on GADM, complemented with other

sources if necessary. Incidents are mapped to GADM provinces using the provinces in ACLED data. Province names and borders may differ between ACLED and GADM. Incidents that could not be located are ignored. The numbers included in this overview might therefore differ from the original ACLED data. ACLED uses varying degrees of geographic precision for the individual incidents, depending on what level of detail is reported. Thus, towns may represent the wider region in which an incident occurred, or the provincial capital may be used if only the province is known. Erroneous location data, especially due to identical place names, cannot be fully excluded.

Incidents comprise the following categories: battles, violence against civilians, remote violence, riots/protests, non-violent strategic activities. For details on these categories, please see

Conflict incidents per province

Province	Number of incidents	Number of incidents with fatalities	Number of fatalities
Central Equatoria	32	18	102
Eastern Equatoria	25	14	38
Jungoli	51	32	219
Lakes	15	12	156
North Bahr-al-Ghazal	2	2	3
Unity	7	4	12
Upper Nile	7	5	28
Warap	14	11	58
West Bahr-al-Ghazal	4	1	11
West Equatoria	5	5	21

Localization of conflict incidents

Note: The following list is an overview of the incident data included in the ACLED dataset. More details are available in the actual dataset (date, location data, event type, involved actors, information sources, etc.). The data's precision varies among the incidents: a town may represent a region, or the provincial capital may be used if the precise location of an incident is unknown. In the following list, the names of event locations are taken from ACLED, while the administrative region names are taken from GADM data which serves as the basis for the maps above.

In **Central Equatoria**, 32 incidents killing 102 people were reported. The following locations were among the affected: **Alero, Bala, Dijeri, Gondokoro, Gworolorongo, Jebel Yesua, Juba, Kajo-Keji, Kapuri, Kuda, Kuda South, Kuda**

na Kumi, Likamerok, Limuro, Mangalla, Mogiri, Moroyok, Mukaya, Surei, UN House/UN Protection of Civilians Site, Wonduruba.

In **Eastern Equatoria**, 25 incidents killing 38 people were reported. The following locations were among the affected: **Adeba, Chukudum, Faraksika, Haforiere, Hiyala, Kuron, Lafon, Lalanga, Lauru, Lokila, Loming, Nadapal, Namorunyang, Riwoto, Torit.**

In **Jungoli**, 51 incidents killing 219 people were reported. The following locations were among the affected: **Boma, Bor, Chueidok, Deng Shol, Dualjany, Duk Padiet, Duk Payuel, Gadiang, Gujuro, Gul, Gumuruk, Jokrial, Karam, Karanyang, Kozchar, Lankien, Likuangole, Lokurumuch, Lotila, Manyabol (West), Maya Tawil, Motot, Nguenyboor, Nyanepol, Nyat, Pading, Pagak, Pajut, Partet, Pathai, Pibor, Pieri, Pieth, Pochalla, Thol, Tiam, Waat, Walgak, Wunbil, Wunpach, Yiethdeng.**

In **Lakes**, 15 incidents killing 156 people were reported. The following locations were among the affected: **Aloor, Biar, Cueibet, Lekakedu, Lortiop, Maker, Makoy, Malith, Maper, Panyang, Rumbek, Yiol.**

In **North Bahr-al-Ghazal**, 2 incidents killing 3 people were reported. The following locations were among the affected: **Bahr Mayen, Warguet.**

In **Unity**, 7 incidents killing 12 people were reported. The following locations were among the affected: **Bentiu, Riak, Ruath Lueth, Toor, UNMISS Rubkona Protection of Civilians site, Wunkur.**

In **Upper Nile**, 7 incidents killing 28 people were reported. The following locations were among the affected: **Abu Gaw, Kilo 10, Kodok, Maiwut, Malakal, Mankaich.**

In **Warap**, 14 incidents killing 58 people were reported. The following locations

were among the affected: **Ajak-Kwach, Akon, Alabek, Anyiel, Bombel, Makwoich, Nyin Deng Ayuel, Paleipin, Romich, Tau, Tong Liet, Tonj, Wunrok.**

In **West Bahr-al-Ghazal**, 4 incidents killing 11 people were reported. The following locations were among the affected: **Kuanya, Nyin Akok, Wau.**

In **West Equatoria**, 5 incidents killing 21 people were reported. The following locations were among the affected: **Bangasu, Kediba, Madebe, Minga, Nabanga.**

Disclaimer

Event data may be revised or complemented in future updates. Updates in ACLED's datasets will not necessarily be reflected in ACCORD's reports if the update occurs close to or after the latter's publication. Changes in the sources used by ACLED to collect incident data might affect the comparability of data over time. For more information on ACLED's methodology, please see www.acleddata.com/resources/. For more information on ACCORD's products based on the data, please see the [ecoi.net blog posts tagged with "ACLED"](#). The lack of information on an event in this report does not permit the inference that it did not take place. The boundaries and names displayed do not imply endorsement or acceptance by the Austrian Red Cross.
