KEY HIGHLIGHTS ON REFUGEE RETURNS

The return of **66,970** South Sudanese spontaneous refugees was verified and reported in August 2023. This is significant increase as compared to the returns recorded in the month of July 2023.

The significant increase is due to conflict in country of Asylum especially in Sudan impacting the spontaneous refugee returns to South Sudan.

Most of the returns for August 2023 were from Sudan through Wunthou (Joda) in Upper Nile, Panakuach in Unity and Kir Adam in Northern Bahr El Ghazal States border crossing points of South Sudan. In addition, to return from Ethiopia crossed via Matar/Burebiey and Pagak in Upper Nile and Pochalla in Jonglei and States.

This information on returnees was corroborated through 46 Focus Group Discussions and 26 key informant interviews during month of August 2023 in areas of return in the following 10 states of Upper Nile, Unity, Northern Bahr el Ghazal, Western Bahr El Ghazal, Central Equatoria, Eastern Equatoria, Western Equatoria and Jonglei. Most of the verified returnees to nine States were mostly from Sudan (66%), Ethiopia (29%) and less than 10% from Uganda, Kenya, Democratic Republic of Congo and Central Africa Republic.

PUSH FACTORS

- I- Exploitation (Corruption, Extortion) (17%)
- II- Physical violence (17%)
- III- Loss of belongings (14%)
- IV- Theft of belongings (11%)

METHODOLOGY

The Relief and Rehabilitation Commission (RRC) in collaboration with UNHCR and partners monitors cross-border movements in areas of high return and at 42 border entry points with Sudan recording the highest border entry points. Information is collected through interviews with returnees at border points and in areas of high returns through KII and FGD regularly in areas of high return. The information was then triangulated with data collected during physical observations, and meetings with local authorities and faith-based leaders, law enforcement agents, and immigration officers at border entry points and areas of returns
