

VENEZUELA, FIRST QUARTER 2025:

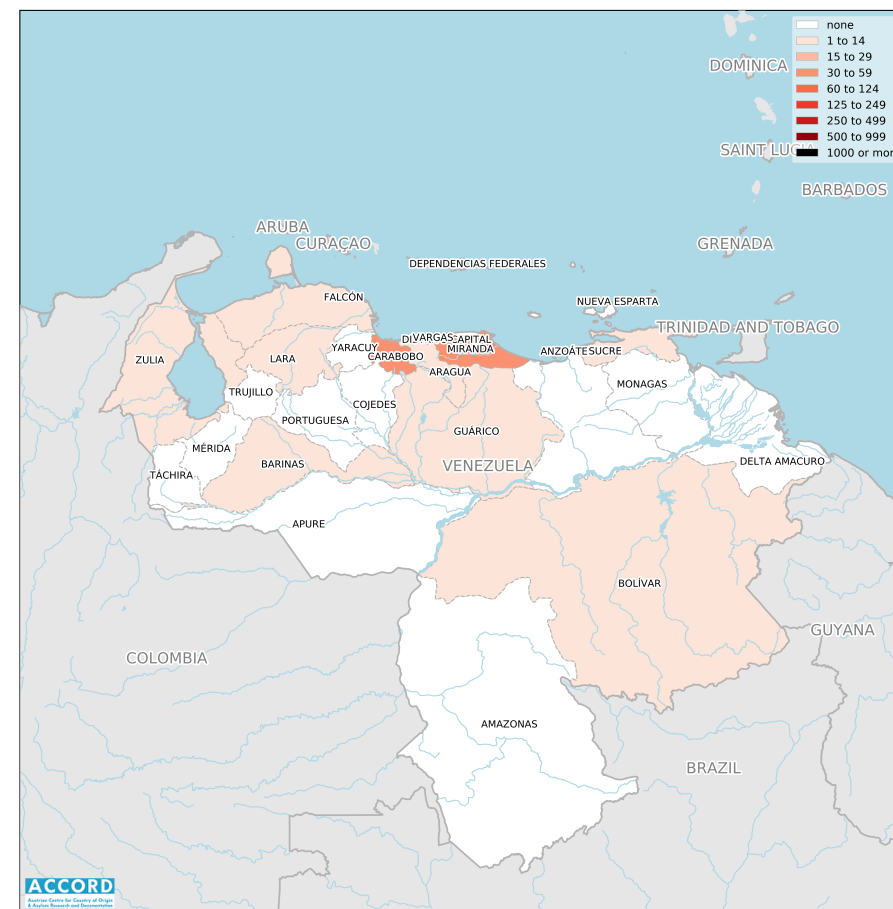

Update on incidents according to Armed Conflict Location & Event Data (ACLED)

compiled by ACCORD, 7 August 2025

Number of reported incidents with at least one fatality

Number of reported fatalities

National borders: [GADM, 6th May 2018a](#); administrative divisions: [GADM, 6th May 2018b](#); incident data: [ACLED, 1st August 2025](#); coastlines and inland waters: [Smith and Wessel, 1st May 2015](#)

Conflict incidents by category

Category	Number of incidents	Number of incidents with at least one fatality	Number of fatalities
Protests	271	0	0
Battles	71	69	109
Strategic developments	38	0	0
Violence against civilians	24	21	24
Riots	9	1	1
Explosions / Remote violence	1	1	3
Total	414	92	137

This table is based on data from ACLED (datasets used: [ACLED](#), 1st August 2025).

Development of conflict incidents from March 2023 to March 2025

This graph is based on data from ACLED (datasets used: [ACLED](#), 1st August 2025).

Methodology

The data used in this report was collected by the Armed Conflict Location & Event Data (ACLED). Based on a variety of sources, ACLED collects data on reported conflict events around the world and provides publicly available event-based datasets. ACLED data contains information on the event type, the date, location, involved actors, and other characteristics of the incident. Most of the data collected by ACLED is gathered based on publicly available reports. As information on fatalities is subject to bias and can vary between sources for the same event, ACLED employs “the most conservative and reliable fatality estimate available”. ACLED uses the reports’ context to estimate fatalities for events with reported fatalities for which the exact number is unknown (“3” or “10” for plural fatalities, depending on the context; “100” if “hundreds” are mentioned, etc.). For further details on ACLED and for the full data, see www.acleddata.com and [ACLED, 2023](#).

Based on this data, the Austrian Centre for Country of Origin & Asylum Research and Documentation (ACCORD) compiles updates on conflict incidents and publishes them on ecoi.net to offer another access point to the ACLED datasets.

It is advised to employ extreme caution when using fatality numbers.

Assessments of the security situation should not be based solely on quantitative analysis of event data.

Please see ACLED’s additional methodological paper for Venezuela: [ACLED, February 2020](#)

Geographic map data is primarily based on GADM, complemented with other sources if necessary. Incidents are mapped to GADM provinces using the provinces in ACLED data. Province names and borders may differ between ACLED and GADM. Incidents that could not be located are ignored. The numbers included in

this overview might therefore differ from the original ACLED data. ACLED uses varying degrees of geographic precision for the individual incidents, depending on what level of detail is reported. Thus, towns may represent the wider region in which an incident occurred, or the provincial capital may be used if only the province is known. Erroneous location data, especially due to identical place names, cannot be fully excluded.

Incidents comprise the following categories: battles, violence against civilians, remote violence, riots/protests, non-violent strategic activities. For details on these categories, please see

Conflict incidents per province

Province	Number of incidents	Number of incidents with fatalities	Number of fatalities
Amazonas	6	0	0
Anzoátegui	12	0	0
Apure	5	0	0
Aragua	14	5	12
Barinas	12	2	2
Bolívar	20	2	3
Carabobo	55	28	35
Cojedes	4	0	0
Delta Amacuro	4	0	0
Distrito Capital	53	10	14
Falcón	18	5	6
Guárico	19	7	11
La Guaira	3	0	0
Lara	32	6	6
Miranda	38	18	35
Monagas	6	0	0
Mérida	5	0	0
Nueva Esparta	8	0	0

Province	Number of incidents	Number of incidents with fatalities	Number of fatalities
Portuguesa	16	0	0
Sucre	27	1	1
Trujillo	3	0	0
Táchira	11	0	0
Yaracuy	2	0	0
Zulia	41	8	12

Localization of conflict incidents

Note: The following list is an overview of the incident data included in the ACLED dataset. More details are available in the actual dataset (date, location data, event type, involved actors, information sources, etc.). The data's precision varies among the incidents: a town may represent a region, or the provincial capital may be used if the precise location of an incident is unknown. In the following list, the names of event locations are taken from ACLED, while the administrative region names are taken from GADM data (with the exception of Iraq) which serves as the basis for the maps above.

In **Amazonas**, 6 incidents killing 0 people were reported. The following locations were among the affected: **Alto Orinoco, Puerto Ayacucho, San Fernando de Atabapo, San Juan de Manapiare**.

In **Anzoátegui**, 12 incidents killing 0 people were reported. The following locations were among the affected: **Anaco, Barcelona, Piritu, San Jose de Guanipa**.

In **Apure**, 5 incidents killing 0 people were reported. The following locations were

among the affected: **Achaguas, El Amparo de Apure, La Trinidad de Orichuna, San Fernando de Apure, San Juan de Payara.**

In **Aragua**, 14 incidents killing 12 people were reported. The following locations were among the affected: **Cagua, El Consejo, El Limon, Maracay, Palo Negro, Santa Rita, Turmero, Villa de Cura.**

In **Barinas**, 12 incidents killing 2 people were reported. The following locations were among the affected: **Barinas, Santa Cruz de Guacas.**

In **Bolívar**, 20 incidents killing 3 people were reported. The following locations were among the affected: **Ciudad Bolivar, Ciudad Guayana, La Paragua, Los Pijiguaos, Santa Elena de Uairen, Upata.**

In **Carabobo**, 55 incidents killing 35 people were reported. The following locations were among the affected: **Bejuma, Canoabo, Guacara, Guigue, Los Guayos, Mariara, Montalban, Moron, Naguanagua, Palma Sola, Puerto Cabello, San Diego, San Joaquin, Tacarigua, Tocuyito, Valencia.**

In **Cojedes**, 4 incidents killing 0 people were reported. The following locations were among the affected: **San Carlos, Tinaquillo.**

In **Delta Amacuro**, 4 incidents killing 0 people were reported. The following locations were among the affected: **San Francisco de Guayo, Tucupita.**

In **Distrito Capital**, 53 incidents killing 14 people were reported. The following locations were among the affected: **Caracas, Caracas - Libertador.**

In **Falcón**, 18 incidents killing 6 people were reported. The following locations were among the affected: **Casigua, Chichiriviche, Coro, La Vela de Coro, Punto Fijo, San Jose de la Costa, Sanare.**

In **Guárico**, 19 incidents killing 11 people were reported. The following locations were among the affected: **Altagracia de Orituco, Calabozo, Chaguaramas, El Socorro, El Sombrero, Guardatinajas, San Juan de los Morros, Santa Rita, Tucupido, Uveral, Zaraza.**

In **La Guaira**, 3 incidents killing 0 people were reported. The following locations were among the affected: **La Guaira, Macuto.**

In **Lara**, 32 incidents killing 6 people were reported. The following locations were among the affected: **Barquisimeto, Cabudare, Carora, Duaca, El Tocuyo, Pavia, Tamaca.**

In **Miranda**, 38 incidents killing 35 people were reported. The following locations were among the affected: **Caracas - Baruta, Caracas - Chacao, Caracas - Sucre, El Cercado, Guarenas, Guatire, Hoyo de La Puerta, La Cabrera, Los Teques, Marizapa, Ocumare del Tuy, San Francisco de Yare, Santa Teresa del Tuy.**

In **Monagas**, 6 incidents killing 0 people were reported. The following locations were among the affected: **Aragua de Maturin, Maturin, Morichal Largo, Punta de Mata.**

In **Mérida**, 5 incidents killing 0 people were reported. The following locations were among the affected: **El Vigia, Merida, Tovar.**

In **Nueva Esparta**, 8 incidents killing 0 people were reported. The following locations were among the affected: **La Asuncion, Porlamar.**

In **Portuguesa**, 16 incidents killing 0 people were reported. The following locations were among the affected: **Acarigua, Araure, Guanare, Guanarito, Payara.**

In **Sucre**, 27 incidents killing 1 person were reported. The following locations were

among the affected: **Carupano, Cumana, Cumanacoa, El Pilar, Guiria, Mariguitar, Merito, Rio Caribe, San Jose de Areocuar, Tunapuy, Yaguaraparo.**

In **Trujillo**, 3 incidents killing 0 people were reported. The following locations were among the affected: **Betijoque, Sabana de Mendoza, Trujillo.**

In **Táchira**, 11 incidents killing 0 people were reported. The following locations were among the affected: **Colon, La Pedrera, Rubio, San Cristobal, San Josecito, Urena.**

In **Yaracuy**, 2 incidents killing 0 people were reported. The following location was among the affected: **San Felipe.**

In **Zulia**, 41 incidents killing 12 people were reported. The following locations were among the affected: **Cabimas, Casigua El Cubo, Catatumbo, El Cruce, El Tucuco, Encontrados, Jesus Enrique Lossada, La Canada de Urdaneta, La Concepcion, La Villa del Rosario, Los Puertos de Altagracia, Machiques, Maracaibo, Mene Grande, Punta Canonera, Sabaneta de Palmas.**

Disclaimer

ACLED data undergoes several rounds of review before publication and is continually updated as new events are added and existing events are revised as new information becomes available. Updates in ACLED's datasets will not necessarily be reflected in ACCORD's reports if the update occurs close to or after the latter's publication. Changes in the sources used by ACLED to collect incident data might affect the comparability of data over time. For more information on ACCORD's products based on the data, please see the [ecoi.net blog posts tagged with "ACLED"](#). The lack of information on an event in this report does not permit the inference that it did not take place. The boundaries and names displayed do not imply endorsement or acceptance by the Austrian Red Cross.
