

UNHCR-IOM FLASH UPDATE #83

ARREST AND DETENTION FLOW MONITORING (15 September 2023 – 21 February 2026)

INTRODUCTION

In response to the Ministry of Interior's (MoI) decision of 26 September 2023 to enact an "Illegal Foreigners' Repatriation Plan", UNHCR, the UN Refugee Agency and IOM, the UN Migration Agency, have collated their data on the arrest, detention, and deportation of Proof of Registration (PoR) holders, Afghan Citizen Card (ACC) holders, and undocumented Afghan nationals as well as on the outflows of Afghan nationals at the Torkham, Ghulam Khan, Chaman, Badini and Bahramcha border crossing points, to better understand the protection environment and movements of Afghan nationals returning to Afghanistan from Pakistan.

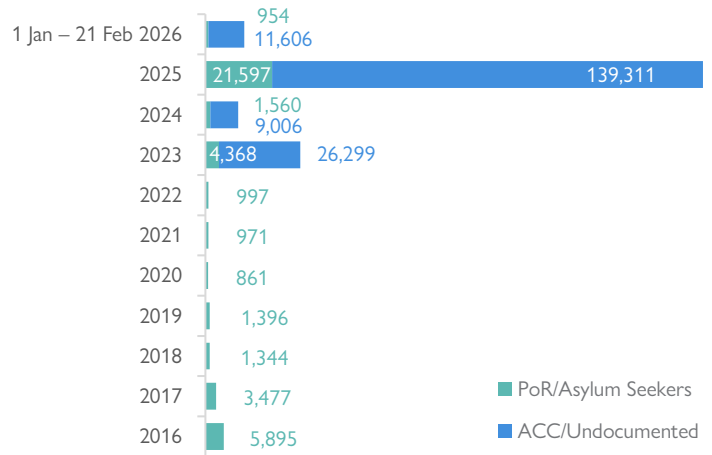

In 2025, the Government of Pakistan (GoP) issued several directives impacting Afghan nationals. In January, the GoP announced that Afghan nationals should relocate from Islamabad Capital Territory (ICT) and Rawalpindi, or else face deportation. In April, further announcements indicated the implementation of the second phase of the "IFRP", targeting ACC holders, in addition to undocumented Afghans. In July, the GoP issued a Statutory Regulation Order (SRO) directing the repatriation/deportation of PoR card holders following the expiry of PoR card validity on 30 June. The GoP later indicated a deadline of 1 September for PoR holders to leave Pakistan, before the start of the repatriation/deportation process. UNHCR issued a [press briefing](#) expressing concern regarding the decision and urging the GoP to exempt Afghans with international protection needs, as well as those with particular circumstances or vulnerabilities, from involuntary return.

KEY FINDINGS AND LIMITATIONS

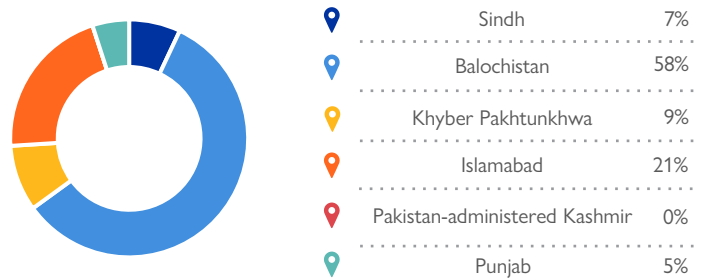

Prior to 2023, there was no data collected on the arrest and detention of ACC holders or undocumented Afghan nationals. Since January 2023, IOM has started to collect this data. The figures, particularly of undocumented Afghan nationals, should be considered underreported.

- During the reporting period (15 – 21 February) a total of 2,218 Afghan nationals were arrested and detained, marking an 81% increase compared to the previous week.
- Out of all arrests and detentions during the reporting period (15 – 21 February), ACC holders and undocumented Afghans represented 95% of the total rate of arrest and detentions, and PoR holders represented 5%.
- During the reporting period (15 – 21 February), 59% of the total reported arrests and detentions took place in Balochistan, 18% in Islamabad Capital Territory, 12% in Sindh, and 8% in KP.
- Across Pakistan, the top three districts for arrest and detention between 1 January and 21 February 2026 are Chaghi (Balochistan), Islamabad (ICT), and Peshawar (KP).

KEY FINDINGS

- Cumulatively, from 15 September 2023 to 21 February 2026, 2,083,380 individuals have returned.
- During the period 15 – 21 February 2026, UNHCR and IOM estimate 27,011 Afghans returned through the Torkham, Ghulam Khan (located in Khyber Pakhtunkhwa), Chaman, Badini and Bahramcha (located in Balochistan) border crossing points to Afghanistan.
- Between 15 – 21 February 2026, the number of returns increased by 9% while deportations increased by 81% — compared to the previous week of 8 – 14 February 2026 (24,814 returns including 1,220 deportations). During 15 – 21 February 2026, a total of 27,011 returns were reported, including 2,210 deportations. Returns rose in response to seasonal weather changes and the usual increase in cross-border travel at the start of Ramadan, while the rise in deportations appears to be associated with ongoing arrest operations.
- For the returns from 15 – 21 February 2026, most of the returnees were PoR (61%) followed by undocumented (30%) and ACC holders (9%). Majority of the POR returns were processed by UNHCR through the Voluntary Repatriation Centers (VRCs).
- For the deportees from 15 – 21 February 2026, most were undocumented (97%) followed by POR holders (2%) and ACC holders (1%).
- Since 1 April 2025, 1,229,347 Afghan nationals returned, of which 164,000 (13%) were deported. During the period, fear of arrest remained the main reason for return among undocumented individuals and ACC holders (95%) while strict border entry requirements were the primary driver for PoR holders (55%).
- During the same time period, returnees were most likely to return from Quetta (20%), Haripur (11%) and Attock (9%) in Pakistan and intend to go to Nangarhar (26%), Kabul (20%) and Kunduz (16%) in Afghanistan.
