UNHCR-IOM FLASH UPDATE #115

ARREST AND DETENTION | FLOW MONITORING (15 September 2023 – 10 October 2026)

INTRODUCTION

In response to the Ministry of Interior's (MoI) decision of 26 September 2023 to enact an "Illegal Foreigners' Repatriation Plan", UNHCR, the UN Refugee Agency and IOM, the UN Migration Agency, have collated their data on the arrest, detention, and deportation of Proof of Registration (PoR) holders, Afghan Citizen Card (ACC) holders, and undocumented Afghan nationals as well as on the outflows of Afghan nationals at the Torkham, Ghulam Khan, Chaman, Badini and Bahramcha border crossing points, to better understand the protection environment and movements of Afghan nationals returning to Afghanistan from Pakistan.

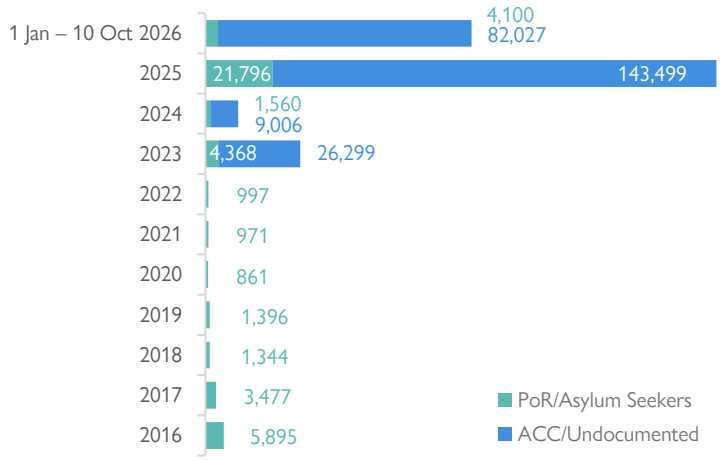

In 2025, the Government of Pakistan (GoP) issued several directives impacting Afghan nationals. In January, the GoP announced that Afghan nationals should relocate from Islamabad Capital Territory (ICT) and Rawalpindi, or else face deportation. In April, further announcements indicated the implementation of the second phase of the "IFRP", targeting ACC holders, in addition to undocumented Afghans. In July, the GoP issued a Statutory Regulation Order (SRO) directing the repatriation/deportation of PoR card holders following the expiry of PoR card validity on 30 June. The GoP later indicated a deadline of 1 September for PoR holders to leave Pakistan, before the start of the repatriation/deportation process. UNHCR issued a press briefing expressing concern regarding the decision and urging the GoP to exempt Afghans with international protection needs, as well as those with particular circumstances or vulnerabilities, from involuntary return.

KEY FINDINGS AND LIMITATIONS

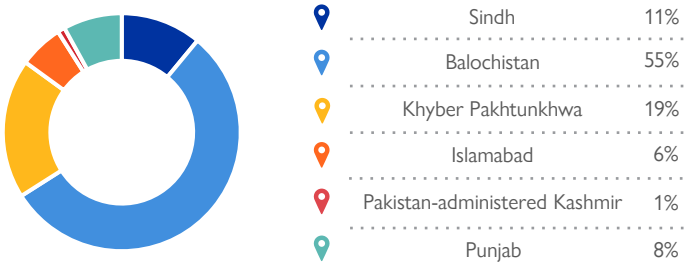

Prior to 2023, there was no data collected on the arrest and detention of ACC holders or undocumented Afghan nationals. Since January 2023, IOM has started to collect this data. The figures, particularly of undocumented Afghan nationals, should be considered underreported.

- During the reporting period (4 – 10 October) a total of 975 Afghan nationals were arrested and detained, representing a 26% decrease compared to the previous week (27 September – 3 October).
- Out of all arrests and detentions during the reporting period (4 – 10 October), ACC holders and undocumented Afghans represented over 99% of the total rate of arrest and detentions, and PoR holders represented less than 1%.
- During the reporting period (4 – 10 October), approximately 59% of the total reported arrests and detentions took place in Balochistan, 18% in Sindh, 13% in KP, 7% in Islamabad and 3% in Punjab.
- Across Pakistan, the top three districts for arrest and detention between 1 January and 10 October 2026 were Chaghi (Balochistan), Peshawar (KP), and Karachi (Sindh).

KEY FINDINGS

- Cumulatively, from 15 September 2023 to 10 October 2026, 2,740,185 individuals have returned.
- During the period 4 to 10 October 2026, UNHCR and IOM estimate 4,295 Afghans returned through the Torkham, Ghulam Khan (located in Khyber Pakhtunkhwa), Chaman, Badini and Bahramcha (located in Balochistan) border crossing points to Afghanistan.
- Between 4 and 10 October, the number of returns decreased by 23% and deportations by 28% compared to the previous week of 27 September – 3 October 2026 (5,552 returns including 1,329 deportations). Between 4 and 10 October, a total of 4,295 returns were reported, including 961 deportations. Compared to the previous week, returns and deportations decreased moderately.
- For the returns from 4 to 10 October, most of the returnees were undocumented (82%) followed by PoR holders (11%) and ACC holders (7%). Majority of the PoR returns were processed by UNHCR through the Voluntary Repatriation Centers (VRCs).*
- For the deportees from 4 to 10 October, most were undocumented (99%) followed by PoR holders (1%) and ACC holders (<1%).*
- Since 1 April 2025, 1,886,152 Afghan nationals returned, of which 236,888 (13%) were deported.
- During the period, fear of arrest remained the main reason for return among undocumented individuals and ACC holders (95%) as well as for PoR holders (68%).
- During the same time period, returnees were most likely to return from Quetta (16%), Peshawar (15%) and Nowshera (14%) in Pakistan and intend to go to Nangarhar (29%), Kabul (22%) and Kunduz (13%) in Afghanistan.
